**The Political Economy of Narcotics** Julia Buxton,2013-07-04 This book explores the origins history and organisation of the international system of narcotic drug control with a specific focus on heroin cannabis and cocaine It argues that the century long quest to eliminate the production trade in and use of narcotic drugs has been a profound failure The statistics produced by the international and domestic narcotic drug control agencies point to a sustained expansion of the drug trade despite the imposition of harsh criminal sanctions against those engaged as producers traffickers or consumers in the narcotic drugs market The roots of this major international policy failure are traced back to the outdated ideology of prohibition which is shown to be counterproductive utopian and a fundamentally inadequate basis for narcotic drug policy in the twenty first century Prohibition championed by many US policy makers has left the international community poorly positioned to confront those changes to the drug trade and drug markets that have resulted from globalisation Moreover prohibition based approaches are causing more harm than good as is demonstrated through reference to issues such as HIV AIDS the environment conflict development and social justice As the drug control system approaches its centenary there are signs that the global consensus on narcotic drug prohibition is fracturing Some European and South American states are pushing for a new approach based on regulation decriminalisation and harm reduction But those seeking to revise prohibition strategies faces entrenched resistance primarily by the U S This important text argues that successive American governments have pursued a contradictory approach acting decisively against the narcotic drug trade at home and abroad while at the same time working with drug traffickers and producer states when it is in America s strategic interest As a result US policy approaches emerge as a decisive factor in accounting for the failure of prohibition

**Drugs and Thugs** Russell Crandall,2020-10-27 A sweeping and highly readable work on the evolution of America s domestic and global drug war How can the United States chart a path forward in the war on drugs In *Drugs and Thugs* Russell Crandall uncovers the full history of this war that has lasted more than a century As a scholar and a high level national security advisor to both the George W Bush and Obama administrations he provides an essential view of the economic political and human impacts of U S drug policies Backed by extensive research lucid and unbiased analysis of policy and his own personal experiences Crandall takes readers from Afghanistan to Colombia to Peru and Mexico to Miami International Airport and the border crossing between El Paso and Juarez to trace the complex social networks that make up the drug trade and drug consumption Through historically driven stories Crandall reveals how the war on drugs has evolved to address mass incarceration the opioid epidemic the legalization and medical use of marijuana and America s shifting

*Making the Modern American Fiscal State* Ajay K. Mehrotra, 2013-09-30 At the turn of the twentieth century the US system of public finance underwent a dramatic transformation The late nineteenth century regime of indirect hidden partisan and regressive taxes was eclipsed in the early twentieth century by a direct transparent professionally administered and progressive tax system This book uncovers the contested roots and paradoxical consequences of this fundamental shift in American tax law and policy It argues that the move toward a regime of direct and graduated taxation marked the emergence of a new fiscal polity a new form of statecraft that was guided not simply by the functional need for greater revenue but by broader social concerns about economic justice civic identity bureaucratic capacity and public power Between the end of Reconstruction and the onset of the Great Depression the intellectual legal and administrative foundations of the modern fiscal state first took shape This book explains how and why this new fiscal polity came to be

Reforming the World Ian Tyrrell, 2010 *Reforming the World* offers a sophisticated account of how and why in the late nineteenth and early twentieth centuries American missionaries and moral reformers undertook work abroad at an unprecedented rate and scale Looking at various organizations such as the Young Men s Christian Association and the Student Volunteer Movement for Foreign Missions Ian Tyrrell describes the influence that the export of American values had back home and explores the methods and networks used by reformers to fashion a global and nonterritorial empire He follows the transnational American response to internal pressures the European colonies and dynamic changes in global society Examining the cultural context of American expansionism from the 1870s to the 1920s Tyrrell provides a new interpretation of Christian and evangelical missionary work and he addresses America s use of soft power He describes evangelical reform s influence on American colonial and diplomatic policy emphasizes the limits of that impact and documents the often idiosyncratic personal histories aspirations and cultural heritage of moral reformers such as Margaret and Mary Leitch Louis Klopsch Clara Barton and Ida Wells The book illustrates that moral reform influenced the United States as much as it did the colonial and quasi colonial peoples Americans came in contact with and shaped the architecture of American dealings with the larger world of empires through to the era of Woodrow Wilson Investigating the wide reaching and diverse influence of evangelical reform movements *Reforming the World* establishes how transnational organizing played a vital role in America s political and economic expansion

**The Politics of Sin** Kenneth J. Meier, 1994-02-17 This work demonstrates the value of a multi method approach to public policy analysis arguing that descriptive historical studies quantitative historical studies and cross sectional quantitative studies are essentially compatible

**Unequal under Law** Doris Marie Provine, 2008-09-15 Race is clearly a factor in government efforts to control dangerous drugs but the precise ways that race affects drug laws remain difficult to pinpoint Illuminating this elusive relationship *Unequal under Law* lays out how decades of both manifest and latent racism helped shape a punitive U S drug policy whose onerous impact on racial minorities has been willfully ignored by Congress and the courts Doris Marie Provine s engaging analysis traces the history of race in anti drug efforts from the

temperance movement of the early 1900s to the crack scare of the late twentieth century showing how campaigns to criminalize drug use have always conjured images of feared minorities Explaining how alarm over a threatening black drug trade fueled support in the 1980s for a mandatory minimum sentencing scheme of unprecedented severity Provine contends that while our drug laws may no longer be racist by design they remain racist in design Moreover their racial origins have long been ignored by every branch of government This dangerous denial threatens our constitutional guarantee of equal protection of law and mutes a much needed national discussion about institutionalized racism a discussion that Unequal under Law promises to initiate

**Addicted to Christ** Helena Hansen, 2018-04-20 How are spiritual power and self transformation cultivated in street ministries In *Addicted to Christ* Helena Hansen provides an in depth analysis of Pentecostal ministries in Puerto Rico that were founded and run by self identified ex addicts ministries that are also widespread in poor Black and Latino neighborhoods in the U S mainland Richly ethnographic the book harmoniously melds Hansen s dual expertise in cultural anthropology and psychiatry Through the stories of ministry converts she examines key elements of Pentecostalism mysticism ascetic practice and the idea of other worldliness She then reconstructs the ministries strategies of spiritual victory over addiction transformation techniques to build spiritual strength and authority through pain and discipline cultivation of alternative masculinities based on male converts reclamation of domestic space and radical rupture from a post industrial culture of disposability By contrasting the ministries logic of addiction with that of biomedicine Hansen rethinks roads to recovery discovering unexpected convergences with biomedicine while revealing the allure of street corner ministries
