The Politics Of Peace An Evaluation Of Arms Control:

The Politics of Peace John H. Barton, 1981 Historical Dictionary of the Kennedy-Johnson Era Richard Dean Burns, Joseph M. Siracusa, 2015-05-07 The recent commemoration of the fiftieth anniversary of John F Kennedy's election as the thirty fifth president of the United States serves as a reminder of a period of time that many Americans perceive as idyllic. Just as his election despite a near run thing had instilled a pervasive sense of hope throughout the country his assassination stunned the entire nation scarring the psyche of a generation of Americans. More than half a century later JFK continues to inspire debates about the effectiveness of the presidency as well as his own political legacy making the senator from Massachusetts the object of many enduring myths that he would have been one of the country's greatest leaders had he lived he would have kept the US out of a full fledged Vietnam war and that he was a martyr of right wing assassins. His successor Lyndon B Johnson who did get the US deeply involved in Vietnam while pursuing the social reforms of the Great Society at home and abroad also casts a long shadow in the twenty first century as the nation continues to deal with poverty racism and social injustice. This second edition of Historical Dictionary of the Kennedy Johnson Era covers its history through a chronology an introductory essay appendixes and an extensive bibliography. The dictionary section has over 300 cross referenced entries on important personalities including the president his advisors his family his opponents and his critics as well as members of Congress military leaders and international leaders. This book is an excellent access point for students researchers and anyone wanting to know more about John F Kennedy Power and Policy in Quest of Law Myres S. McDougal, W.M. Reisman, 2024-09-02 **Towards a Peace Economy in the United States** Gregory A. Bischak, 1991-06-18 The essays in this volume consider the nature of the war economy and the possibilities for change that the relaxation of the Cold War presents. They ask what the effects of a security policy of substantial disarmament on the economy and political climate of the USA might be **The Stanford Magazine**, 1983 **The Oxford Handbook of Peace History** Charles F. Howlett, Christian Philip Peterson, Christian Peterson, Deborah D. Buffton, David L. Hostetter, 2023 The Oxford Handbook of Peace History uniquely explores the distinctive dynamics of peacemaking across time and place and analyzing how past and present societies have created diverse cultures of peace and applied strategies for peaceful change. The analysis draws upon the expertise of many well respected and distinguished scholars from disciplines such as anthropology economics history international relations journalism peace studies sociology and theology. This work is divided into six parts. The first three sections address the chronological sweep of peace history from the Ancient Egyptians to the present while the last three cover biographical profiles of peace advocates key issues in peace history and the future of peace history. A central theme throughout is that the quest for peace is far more than the absence of war or the pursuit of social justice ideals. Students and scholars alike will appreciate that this work examines the field of peace history from an international perspective and expands analysis beyond traditional Eurocentric frameworks. This volume also goes far beyond previously published

handbooks and anthologies in answering what are the strengths and limits of peace history as a discipline and what can it offer for the future It also has the unique features of a state of the field introduction with a detailed treatment of peace history historiography and a chapter written by a noted archivist in the field that provides a comprehensive list of peace research resources It is a work ably suited applicable for classrooms and scholarly bookshelves

The American Search for Peace George Weigel, John Langan, 1991 Revolutions and aborted revolutions and bitter civil and local wars in the 1980s and since have raised new questions about national security its definition and its implementation Nevertheless a number of basic philosophical and political issues remain constant at a level deeper than tactical considerations These are what eight accomplished philosophers political scientists Christian ethicists and policymakers came together to discuss They ask the fundamental and perduring questions of pacifism war intervention and political negotiation They focus on such problems as ascertaining the role of the churches in the quest for peace defining national interest and national purpose and construing intervention in other than strictly unilateral terms

An Ethical Evaluation of Lethal Functions in Autoregulative Weapons Systems Nicole Kunkel, 2024-12-30 This book connects two of the most pressing ethical topics of our time questions of peace and technology materialized in so called autonomous weapons systems which can operate without human control and intervention in real time The author however criticizes the term autonomy as too anthropomorphic and therefore misleading She consequently proposes using the term autoregulation in its place Taking a contingent pacifist stance this book addresses the question of whether such technological means help or hinder peace processes The argument is tripartite

First it is demonstrated that the risk of harm to nonparticipants is very likely to increase Second and with respect to responsibility it is indicated that a human machine system can only be operated responsibly if a human is in control Finally this idea is transferred into theological thought through reference to Bonhoeffer s idea of incurring guilt in acting responsibly In that context autoregulative technology might pose the possibility of shying away from responsibility and therefore becoming guilty This book is among the first ethical considerations of lethal autoregulative weaponry from a contingent pacifist stance and brings together peace ethical thinking and theories from various backgrounds *Building Sustainable Peace* Tom Keating,W. Andy Knight,2012-07-02 As the world turns its attention to the reconstruction of Afghanistan and Iraq following recent conflicts in these countries the issue of post conflict peacebuilding takes centre stage This collection presents a timely and original overview of the field of peace studies and offers fresh analytical tools which promote a critical reconceptualization of peace and conflict while also making specific reference to peacebuilding strategies employed in recent international conflicts *Federal Evaluations* , Contains an inventory of evaluation reports produced by and for selected Federal agencies including GAO evaluation reports that relate to the programs of those agencies Congressional Record United States. Congress,1963 Information Technology for Peace and Security Christian Reuter,2024-10-31 Technological and scientific progress especially the rapid development in information technology IT and artificial intelligence AI plays a crucial role regarding questions of peace and security This textbook extended and updated in its second edition addresses the significance potential of IT as well as the challenges it poses with regard to peace and security It introduces the reader to the concepts of peace conflict and security research especially focusing on natural technical and computer science perspectives In the following sections it sheds light on cyber conflicts war and peace cyber arms control cyber attribution infrastructures artificial intelligence as well ICT in peace and conflict Decision Making with the Analytic Network Process Thomas L. Saaty,Luis G. Vargas,2006-09-10 The Analytic Network Process ANP developed by Thomas Saaty in his work on multicriteria decision making applies network structures with dependence and feedback to complex decision making This book is a selection of applications of ANP to economic social and political decisions and also to technological design The chapters comprise contributions of scholars consultants and people concerned about the outcome of certain important decisions who applied the Analytic Network Process to determine the best outcome for each decision from among several potential outcomes The ANP is a methodological tool used to organize knowledge and thinking elicit judgments registered in both in memory and in feelings quantify the judgments and derive priorities from them and finally synthesize these diverse priorities into a single mathematically and logically justifiable overall outcome In deriving this outcome the ANP also allows for the representation of diverse opinions in the midst of discussion and debate *Biennial Report of the United States Institute of Peace* United States Institute of Peace,1989 *Peace Studies* Matthew Evangelista,2005 The academic field of Peace Studies emerged during the Cold War to address the nature and sources of interstate and internal conflict and
