Rhizosphere Mary Zamberlin, 2006-04-20 This book explores the significant intellectual impact the philosopher Jean Wahl had on the directions Gilles Deleuze took as a philosopher and writer of a philosophy of experimentation The study of this influence also brings to light the significance of Deleuze's emphasis on la pragmatique inspired by Wahl's writings and teachings and his fascination with American pluralism and pragmatism particularly that of William James This book also attempts to put Deleuze's theories into action to write in a deleuzian way about American minor literature and thought which Deleuze deemed superior This text inherently challenges and potentially provides an alternative way of reading writing to standard critical approaches which Deleuze tells us necessarily reduce and distort a minor work's most lively subtle and micro politically efficient elements as they abort them from their minoritarian fields of meaning to coerce them into already existing standard and standardizing concepts that belong to and reinforce the Major Order's organizational grid

Cold War Negritude Christopher T. Bonner, 2023-11-15 Cold War Negritude is the first book length study of francophone Caribbean literature to foreground the political context of the global Cold War It focuses on three canonical francophone Caribbean writers Ren Depestre Aim C saire and Jacques Stephen Alexis whose literary careers and political alignments spanned all three worlds of the 1950s Cold War order As black Caribbean authors who wrote in French who participated directly in the global communist movement and whose engagements with Marxist thought and practice were mediated by their colonial relationship to France these writers expressed unique insight into this bipolar system as it was taking shape The book shows how over the course of the 1950s French Caribbean Marxist authors re-evaluated the literary aesthetics of Negritude and sought to develop alternatives that would be adequate to the radically changed world system of the Cold War Through close readings of literary theoretical and political texts by Depestre C saire and Alexis I show that this formal shift reflected a strikingly changed understanding of what it meant to write engaged literature in the new bipolar world order Debates about literary aesthetics became the proxy battlefield on which Antillean writers promoted and fought for their different visions of an emancipated Caribbean modernity Consequent to their complicated Cold War alignments these Antillean authors developed original and unorthodox Marxist literary aesthetics that syncretized an array of socialist literary tendencies from around the globe

Smyth,2013-12-19 Bringing to light the essential philosophical role of Marxism within Merleau Ponty s reinterpretation of transcendental phenomenology this book shows that the realization of this project hinges methodologically upon a renewed conception of the proletariat qua universal class specifically that it rests upon a humanist myth of incarnation which substantiated by Merleau Ponty s notion of heroism locates an objective historical purposiveness in the habituated organism of the modern subject Foregrounding the phenomenological priority of history over corporeality in this way Smyth s analysis recovers the militant character of Merleau Ponty s existential phenomenology It thus sheds critical new light on his early thought and challenges some of the main parameters of existing scholarship by disclosing the intrinsic normativity of his basic methodological commitments *Education at the Edge of Experience* Marla Morris,2024-06-03 Presenting a unique

exploration of education at the edge of experience this book investigates how unassimilable concepts can reconceptualize education in order to grapple with what is beyond understanding Working at the intersection of curriculum theory philosophy and psychoanalysis Morris examines how each of these unassimilable concepts such as lament disavowal breathlessness and the Kafkaesque point toward currere as the edge of experience It addresses what Lee Braver calls the groundless grounds and what Avital Ronell calls the quicksand that is philosophy to approach slippage and breaking points through an interdisciplinary lens Pointing to an understanding of our largely social ills and extending William F Pinar s early work on currere in new and innovative directions this book will appeal to curriculum theorists education philosophers psychoanalysts and those with interests in the philosophy and theory of education **Drifting on a Read** Michael Jarrett,1999-01-01 Fors g

Classrooms and curricula should be structured to foster the playful interaction that can teach students how to negotiate social and political differences in an emancipatory noncoercive manner Teaching reading as a playful exercise of reciprocity with otherness can help prepare students for a democracy understood as a community of communities from the Pedagogical Postscript Reading is socially useful in Paul B Armstrong s view and can model democratic interaction by a community unconstrained by the need to build consensus but aware of the dangers of violence irrationality and anarchy Reading requires mutual recognition but need not culminate in agreement Armstrong says instead the social potential of reading arises from the active exchange of attitudes ideas and values between author and reader and among readers Play and the Politics of Reading which has important implications for education draws on Wolfgang Iser s notion of free play to offer a valuable response to social problems Armstrong finds that Joseph Conrad E M Forster Henry James and James Joyce provide apt examples of the politics of reading for reasons both literary and political In making the transition from realism to

modernism these authors experimented with narrative strategies that seek simultaneously to represent the world and to question the means of representation itself The formal ambiguities and complexities of such texts as *Howards End* and *Ulysses* are ways of staging for the reader the difficulties and opportunities of a world of differences Innovative formal structures challenge readers to reconsider their assumptions and beliefs about social issues French Hegel Bruce Baugh, 2014-01-21 This highly original history of ideas considers the impact of Hegel on French philosophy from the 1920s to the present As Baugh's lucid narrative makes clear Hegel's influence on French philosophy has been profound and can be traced through all the major intellectual movements and thinkers in France throughout the 20th Century from Jean Wahl Sartre and Bataille to Foucault Deleuze and Derrida Baugh focuses on Hegel's idea of the unhappy consciousness and provides a bold new account of Hegel's early reception in French intellectual history Sartrean Dialectics Roxanne Claire Farrar, 2000 This book presents a modification of the dialectical method of Jean Paul Sartre as a tool for critical discourse on aesthetic experience Three practical demonstrations are offered of the modified progressive regressive method 1 on the original location and function of a medieval altarpiece 2 on a theme in the literature of the Marquis de Sade and 3 on a theory of consciousness in a novel by Samuel Beckett The study concludes with guidelines on how the method may enhance critical discourse in teaching **Existentialist Literature and Aesthetics** William Leon McBride, 1997 This collection of essays and reviews represents the most significant and comprehensive writing on Shakespeare's *A Comedy of Errors* Miola's edited work also features a comprehensive critical history coupled with a full bibliography and photographs of major productions of the play from around the world In the collection there are five previously unpublished essays The topics covered in these new essays are women in the play the play's debt to contemporary theater its critical and performance histories in Germany and Japan the metrical variety of the play and the distinctly modern perspective on the play as containing dark and disturbing elements To compliment these new essays the collection features significant scholarship and commentary on *The Comedy of Errors* that is published in obscure and difficult accessible journals newspapers and other sources This collection brings together these essays for the first time *Epic Negation* C.D. Blanton, 2015-03-12 The history of the epic ranging from the heroic narratives of cultural origin found in Homer and Virgil to the tumultuous theological and political conflicts depicted by Dante or Milton is nearly as old as literature itself But the epic is also made and remade by its present adapted to the pressures and formal necessities of its particular cultural moment Examining modernist poetry's epic turn in the years between the two World Wars C D Blanton's ambitious study charts the inversion of what Ezra Pound called a poem including history into a fractured and hollowed form a negated epic that struggles not only to acknowledge the distant past but also to conceive its immediate present Compelled to register the force of a larger historical totality it cannot directly represent the negated epic reorients the function of poetic language trading expression or signification for concrete but often buried reference remaking the poem as an instrument of dialectical reason in the process *Epic Negation* turns first

to T S Eliot productively pairing *The Waste Land* with *The Criterion* the literary review it announced in 1922 to argue that Eliot's journal systematically realizes the editorial and critical method through which modernism's epochal poem sought to think its moment whole developing a totalizing account of interwar culture Dividing the epic's critical function from its style *The Criterion* not only includes history differently but also formulates an intricately dialectical account of the crisis facing bourgeois society formed in the image of a Marxism it opposes World War II's approach serves to organize the second half of Blanton's study as he traces the dislocated formal effects of a serial epic gone underground In the tense elegies and pastorals of W H Auden and Louis MacNeice lyric forms cryptically divulge the determining force of unmentionable but universal events dividing experience against consciousness what can be said in a poem from what cannot And finally with H D's *Trilogy* written under bombardment in a terse exchange with Freud's famous rewriting of biblical history in *Moses and Monotheism* the poetic image itself lapses consigning epic to the silent historical force of the unconscious Uniquely conceived and deftly executed *Epic Negation* transforms our understanding of modernist poetics and the concept of epic more broadly

Queens and Revolutionaries Pascale Gaitet, 2003 *Queens and Revolutionaries* proposes new readings of Genet that focus on the two areas that Saint Genet does not adequately address sex and politics The book first demonstrates how Sartre's emphasis on a range of binary oppositions fails to do justice to the complex interplay of agency and determinism in Genet's novels of the 1940s Using contemporary feminist and gender theory to elucidate the fluctuations oscillations and reversals in Genet's representations of cross dressing and homosexuality the readings show how these representations in turn reveal those theories' limitations The second half of the book turns to lesser known work dating from the late 1960s onward and to *Prisoner of Love* in order to contest Sartre's insistence on the non political nature of Genet's work It examines Genet's texts on the Black Panthers and the Palestinians highlighting his political engagement after May 1968 It also traces the continuities from his earlier work and shows how revolutionary aesthetics theatricality and performance are now increasingly reconceptualised as explicitly political acts
