The American Marathon Pamela Cooper, 1998-04-01 Boston established a footrace but New York City created a marathon culture that annually draws tens of thousands of runners to each of the major American events The American Marathon is the first in depth study of the marathon as a cultural performance that has as much power to unite communities across lines of race ethnicity class and gender as it does to empower individuals This book encompasses more than a century from the fledgling days of the footrace in the 1890s to the popular contemporary marathons that have become corporate sponsored institutions Run in New York City in 1896 and continued in Boston for the next ten years the marathon quickly became the event of the working class athletes particularly Irish Americans Other urban ethnic groups Italians Jews and African Americans who were unwelcome into the elite WASP athletic clubs formed their own running organizations Once emblematic of the immigrant experience the marathon evolved to express middle class nationalism as these immigrants were being assimilated During the 1930s the Great Depression restricted footracing and anti-Semitism left important coaches and runners without access to team support The New York Pioneer Club begun in 1936 as an African American team brought the tremendous energy of post World War II Harlem to the American marathon of the 1950s Besides examining the ethnic influence on marathoning Cooper also explores the impact of the Cold War on this sport when fitness and endurance became matters of national pride She shows how the Road Runners Club of America first brought women and large numbers of participant runners into long distance footraces and finally how corporate sponsorship and direct payments to athletes profoundly changed the nature of this once amateur sport

Wiggins,R . Pierre Rodgers,2012-01-01 The sixteen original essays in this collection cover influential and famous rivalries from a variety of sports including track and field golf boxing basketball tennis ice skating baseball football soccer and more The essays are diverse but together they illustrate what is common to any rivalry equally matched opponents that often have decidedly different backgrounds styles and personalities These differences may center on race and culture political and societal ideologies personality geography or religion a mix intensified by fans and the media From highly publicized and emotionally charged individual competitions to bitterly fought team contests **Rivals** illuminates what one of a kind opponents and the passion they inspire tell us about ourselves and our society      *The Beijing Olympiad* Paul Close,David Askew,Xu Xin,2006-12-05 The stage is set for the Beijing Olympiad to be the greatest mega event sporting or otherwise in history Still the issues taxing many minds include whether the Beijing Games will be successful whether they will be wrought with and wrecked by troubles and who they will benefit What value will the 2008 Games be to the people of China Will they mainly serve the purposes of the dominant political economic and cultural groups at and between the local regional and global levels of modern social life The Beijing Olympiad examines these among other questions providing a range of original insights of interest to an array of scholars researchers and students from Sports Studies to Sociology Politics Economics International Relations and Legal Studies      *Sport* Richard D. Mandell,1999 Today s calender is set in the minds of many people by the World Series Wimbledon the Super Bowl and the World Cup rather than by months and days Sport must mean something What Richard Mandell s *Sport A Cultural History* shows that sport has always vividly illustrated and reinforced the existing social and moral order Considering that much of modern sport has evolved in England and America it is remarkable that so few comprehensive serious studies of sport have appeared in English This fascinatingly written generously illustrated volume fills a gap in the literature of world cultural history The author deals here not only with sport in the classical world where the Olympics were born but also with sport in early industrial England China Japan and modern America      Political Space Yale

Rosenau, 2021-06-08 Has globalization the phenomenon outgrown globalization the concept In *Distant Proximities* one of America's senior scholars presents a work of sweeping vision that addresses the dizzying anxieties of the post Cold War post September 11 world Culminating the influential reassessment of international relations he began in 1990 with *Turbulence in World Politics* James Rosenau here undertakes the first systematic analysis of just how complex these profound global changes have become Among his many conceptual innovations he treats people in the street as well as activists and elites as central players in what we call globalization Deftly weaving striking insights into arresting prose Rosenau traces the links and interactions between people at the individual level and institutions such as states nongovernmental organizations and transnational corporations at the collective level In doing so he masterfully conveys how the emerging new reality has unfolded as events abroad increasingly pervade the routines of life at home and become in effect distant proximities Rosenau begins by distinguishing among various local global and private worlds in terms of their inhabitants' orientations toward developments elsewhere He then proceeds to cogently analyze how the residents of these worlds shape and are shaped by the diverse collectivities that crowd the global stage and that sustain such issues as human rights corruption the global economy and global governance Throughout this richly imaginative fluidly written book Rosenau examines how anti globalization protests and the terrorist attacks on America amount to quintessential distant proximities His book is thus a pathbreaking inquiry into the dynamics that lie beyond globalization one that all thoughtful observers of the world scene will find penetrating and provocative      **Going for the Gold** Douglas L.
