Hirsch, 1998-05-08 Historian Arnold Hirsch shows that Chicago s post depression urban renewal effort was forged in racial struggles waged on the city s South Side His chronicle of the strategies used by ethnic political and business interests in reaction to the great migration of southern blacks in the 1940s describes how the violent reaction of an emergent white population combined with public policy to segregate the city 20 photos *The Third City* Larry Bennett, 2024-05-31 Our traditional image of Chicago as a gritty metropolis carved into ethnically defined enclaves where the game of machine

politics overshadows its ends is such a powerful shaper of the city's identity that many of its closest observers fail to notice that a new Chicago has emerged over the past two decades. Larry Bennett here tackles some of our more commonly held ideas about the Windy City inherited from such icons as Theodore Dreiser, Carl Sandburg, Daniel Burnham, Robert Park, Sara Paretsky, and Mike Royko with the goal of better understanding Chicago as it is now, the third city. Bennett calls contemporary Chicago the third city to distinguish it from its two predecessors: the first city, a sprawling industrial center whose historical arc ran from the Civil War to the Great Depression, and the second city, the Rustbelt exemplar of the period from around 1950 to 1990. The third city features a dramatically revitalized urban core, a shifting population mix that includes new immigrant streams and a growing number of middle class professionals working in new economy sectors. It is also a city utterly transformed by the top to bottom reconstruction of public housing, developments and the ambitious provision of public works like Millennium Park. It is, according to Bennett, a work in progress spearheaded by Richard M. Daley, a self-consciously innovative mayor whose strategy of neighborhood revitalization and urban renewal is a prototype of city governance for the twenty-first century. The Third City ultimately contends that to understand Chicago under Daley's charge is to understand what metropolitan life across North America may well look like in the coming decades.

Urban Renewal: People, Politics, and Planning Jewel Bellush, Murray Hausknecht, 1967. Composite work on sociological aspects of urbanization in the USA covers social policy, politics, processes and administrative aspects thereof: the role of interest groups and social participation in respect of the eradication of poverty and in respect of housing programmes etc. and includes historical and legal aspects.

References: *The Politics of Place* Joseph P. Schwieterman, Dana M. Caspall, 2006. Only in Chicago Can Zoning Be Epic. Chicago is renowned for its distinctive skyline, its bustling Loop business district and its diverse neighborhoods. How the face of Chicago came to be is a story of enterprise, ingenuity, opportunity and zoning. Until now, however, there has not been a book that focuses on the important, often surprising role of zoning in shaping the City that Works. *The Politics of Place: A History of Zoning in Chicago* reviews the interplay among development, planning and zoning in the growth of the Gold Coast, the Central Area and more recently massive Planned Developments such as Marina City, Illinois Center and Dearborn Park. It tells the story of bold visions compromised by political realities, battles between residents and developers and occasional misfires from City Council and City Hall. What emerges is a fascinating behind-the-scenes inspection of the evolving character of the city's landscape. Schwieterman and Caspall recount the many planning innovations that have originated in Chicago, the complexities and intrigue of its zoning debates and the recent adoption of a new zoning ordinance that promises to affect the city's economy and image for years to come.
