The Politics of Women's Rights Christina

Wolbrecht, 2010-04-24 Here Christina Wolbrecht boldly demonstrates how the Republican and Democratic parties have helped transform and have been transformed by American public debate and policy on women's rights. She begins by showing the evolution of the positions of both parties on women's rights over the past five decades. In the 1950s and early 1960s, Republicans were slightly more favorable than Democrats but by the early 1980s the parties had polarized sharply with Democrats supporting and Republicans opposing such policies as the Equal Rights Amendment and abortion rights. Wolbrecht not only traces the development of this shift in the parties' relative positions focusing on party platforms, the words and actions of presidents and presidential candidates, and the behavior of the parties' delegations in Congress but also seeks to explain the realignment. The author considers the politically charged developments that have contributed to a redefinition and expansion of the women's rights agenda since the 1960s, including legal changes, the emergence of the modern women's movement, and changes in patterns of employment, fertility, and marriage. Wolbrecht explores how party leaders reacted to these developments and adopted positions in ways that would help expand their party's coalition. Combined with changes in those coalitions, particularly the rise of social conservatism within the GOP and the affiliation of social movement groups with the Democratic party, the result was the polarization characterizing the parties' stances on women's rights today. *The*

Politics of Women's Liberation Jo Freeman, 1975 A case study of an emerging social movement and its relation to the policy

process. [The Politics of Women's Rights in Iran](#) Arzoo Osanloo, 2009-03-09 In *The Politics of Women's Rights in Iran* Arzoo Osanloo explores how Iranian women understand their rights. After the 1979 revolution, Iranian leaders transformed the state into an Islamic republic. At that time, the country's leaders used a renewed discourse of women's rights to symbolize a shift away from the excesses of Western liberalism. Osanloo reveals that the postrevolutionary republic blended practices of a liberal republic with Islamic principles of equality. Her ethnographic study illustrates how women's claims of rights emerge from a hybrid discourse that draws on both liberal individualism and Islamic ideals. Osanloo takes the reader on a journey through numerous sites where rights are being produced, including Qur'anic reading groups, Tehran's family court, and law offices, as she sheds light on the fluid and constructed nature of women's perceptions of rights. In doing so, Osanloo unravels simplistic dichotomies between so-called liberal universal rights and insular local culture. *The Politics of Women's Rights in Iran* casts light on a contemporary non-Western understanding of the meaning behind liberal rights and raises questions about the misunderstood relationship between modernity and Islam. *The Palgrave Handbook of Women's Political Rights*

Susan Franceschet, Mona Lena Krook, Netina Tan, 2018-10-26 This Palgrave Handbook provides a definitive account of women's political rights across all major regions of the world, focusing both on women's right to vote and women's right to run for political office. This dual focus makes this the first book to combine historical overviews of debates about enfranchising

women alongside analyses of more contemporary efforts to increase women's political representation around the globe. Chapter authors map and assess the impact of these groundbreaking reforms providing insight into these dynamics in a wide array of countries where women's suffrage and representation have taken different paths and led to varying degrees of transformation. On the eve of many countries celebrating a century of women's suffrage as well as record numbers of women elected and appointed to political office this timely volume offers an important introduction to ongoing developments related to women's political empowerment worldwide. It will be of interest to students and scholars across the fields of gender and politics, women's studies, history and sociology.

The Politics of Parenthood Mary Frances Berry, 1994-03-01 A distinguished scholar presents a landmark historical perspective on parenthood in America. This trailblazing book suggests that behind the rhetoric of maternal responsibility are issues of power, resources and control. Berry's book could be a significant impetus for corporate executives and political leaders, conservatives and liberals, and mothers and fathers to support parental involvement that is gender free. *The Washington Post Book World*

Gender and the Politics of Rights and Democracy in Latin America Maxine Molyneux, 2016-01-28 This volume assesses one of the most important developments in contemporary Latin American women's movements: the engagement with rights-based discourses. Organised women have played a central role in the continued struggle for democracy in the region and with it, gender justice. The foregrounding of human rights and within them, the recognition of women's rights has offered women a strategic advantage in pursuing their goals of an inclusive citizenship. The country-based chapters analyse specific bodies of rights: rights and representation, domestic violence, labour rights, reproductive rights, legal advocacy, socio-economic rights, rights and ethnicity, and rights, the state and autonomy.

The Politics of Rights Andrea Cornwall, Maxine Molyneux, 2013-09-13 Since the late 1990s, development institutions have increasingly used the language of rights in their policy and practice. This special issue on feminist perspectives on politics of rights explores the strategies, tensions and challenges associated with rights work in a variety of settings. Articles on the Middle East, Africa, Latin America, East and South Asia explore the dilemmas that arise for feminist praxis in these diverse locations and address the question of what rights can contribute to struggles for gender justice. Exploring the intersection of formal rights, whether international human rights conventions, constitutional rights or national legislation with the everyday realities of women in settings characterized by entrenched gender inequalities and poverty, plural legal systems and cultural norms that can constitute formidable obstacles to realizing rights. The contributors suggest that these sites of struggle can create new possibilities and meanings and a politics of rights animated by demands for social and gender justice.

The Politics of Memory in the Italian Populist Radical Right Marianna Griffini, 2023-06-19 *The Politics of Memory in the Italian Populist Radical Right* examines the role of colonial memory in the contemporary Italian populist radical right, which includes the Lega and Fratelli d'Italia (FdI). The book originally adopts postcolonialism as an analytical framework to critically examine which roles colonial memory plays in the Italian populist radical right. Considering

the timeframe between 2013 and 2021 this book suggests that the contemporary Italian populist radical right selectively shaped its memory of the colonial past expunging the most difficult aspects from it The fact that the Italian populist radical right parties examined do not fully acknowledge the controversial aspects of Italy's colonial past which are bracketed off discourse may contribute to the deployment of colonial discourse by these same parties when discussing immigration From this Italian case study broader implications can be drawn regarding the role of colonial memory in political discourse which is a topical matter across Europe The book will be of interest to those studying populism the radical right Italian politics and history colonialism and the politics of memory

Gender, UN Peacebuilding, and the Politics of Space Laura J. Shepherd, 2017-08-02 The United Nations Peacebuilding Commission UNPBC was established in December 2005 to develop outlines of best practice in post conflict reconstruction and to secure the political and material resources necessary to assist states in transition from conflict to peacetime Currently the organization is involved in reconstruction and peacebuilding activities in six countries Yet a 2010 review by permanent representatives to the United Nations found that the hopes of the UN peacebuilding architecture despite committed and dedicated efforts had yet to be realized Two of these hopes relate to gender and power specifically that peacebuilding efforts integrate a gender perspective and that the Commission consult with civil society NGOs and women's organizations This book is the first to offer an extensive and dedicated analysis of the activities of the UN Peacebuilding Commission with regard to both gender politics broadly conceived and the gendered dynamics of civil society participation in peacebuilding activities Laura J Shepherd draws upon original fieldwork that she conducted at the UN to argue that the gendered and spatial politics of peacebuilding not only feminizes civil society organizations but also perpetuates hierarchies that privilege the international over the domestic realms The book argues that the dominant representations of women gender and civil society in UN peacebuilding discourse produce spatial hierarchies that paradoxically undermine the contemporary emphasis on bottom up governance of peacebuilding activities

The Politics of Human Rights in Australia Louise Chappell, John Chesterman, Lisa Hill, 2009-05-28 Australia has traditionally lacked a strong rights culture While fairness and equality have been proudly exalted as trademarks of the national mindset the authors of *The Politics of Human Rights in Australia* argue that these same characteristics may equate to a form of cultural complacency The book offers the first comprehensive account of Australia's protection of human rights from a political science perspective Addressing the key debates surrounding human rights in Australia the authors ask Why are voting rights so critical in the Australian context Should Australia adopt a bill of rights in an age of terror What are Australia's responsibilities to global and regional refugee crises How can reconciliation between indigenous and non indigenous Australians be facilitated Written by three respected academics at the forefront of their fields *The Politics of Human Rights in*

Australia offers clarity and insight into the complex issues surrounding the human rights debate in Australia Human Rights Education and the Politics of Knowledge Joanne Coysh, 2017-02-24 Around the world there are a myriad of NGOs using human rights education HRE as a tool of community empowerment with the firm belief that it will help people improve their lives One way of understanding these processes is that they translate universal human rights speak using messages and symbols which make them relevant to people's daily lives and culturally resonant However an alternative more radical perspective is that these processes should engage individuals in modes of critical inquiry into the ways that existing power structures maintain the status quo and control not only how we understand and speak about social inequality and injustice but also act on it This book is a critical inquiry into the production distribution and consumption of HRE and how the discourse is constructed historically socially and politically through global institutions and local NGO practice The book begins with the premise that HRE is composed of theories of human rights and education both of which are complex and multifaceted However the book demonstrates how over time a dominant discourse of HRE constructed by the United Nations institutional framework has come to prominence and the ways it is reproduced and reinforced through the practice of intermediary NGOs engaged in HRE activities with community groups Drawing on socio legal scholarship it offers a new theoretical and political framework for addressing how human rights pedagogy knowledge and power can be analysed between the global and local by connecting the critical but well trodden theories of human rights to insights on critical pedagogy It uses critical discourse analysis and ethnographic research to investigate the practice of NGOs engaged in HRE using contextual evidence and findings from fieldwork with NGOs and communities in Tanzania Global Perspectives on the Politics of Multiculturalism in the 21st Century Fethi Mansouri, Boulou Ebanda de B'éri, 2014-06-05 Multiculturalism is now seen by many of its critics as the source of intercultural and social tensions fostering communal segregation and social conflicts While the cultural diversity of contemporary societies has to be acknowledged as an empirical and demographic fact whether multiculturalism as a policy offers an optimal conduit for intercultural understanding and social harmony has become increasingly a matter of polarised public debate This book examines the contested philosophical foundations of multiculturalism and its often controversial applications in the context of migrant societies It also explores the current theoretical debates about the extent to which multiculturalism and related conceptual constructs can account for the various ethical challenges and policy dilemmas surrounding the management of cultural diversity in our contemporary societies The authors consider common conceptual and empirical features from a transnational perspective through analysis of the case studies of Australia Canada Columbia Germany New Zealand the United Kingdom and Uruguay This book will be of interest to students and scholars of political science comparative politics international studies multiculturalism migration and political sociology **Conscious Acts and the Politics of Social Change** Robin L. The Politics of Child Abuse in America Lela B. Costin, Howard Jacob Karger, David Stoesz, 1997-02-27 Child abuse policy in the United States contains dangerous contradictions which have only intensified as the public slowly accepted it as a middle class problem One contradiction is the rapidly expanding child abuse industry made up of enterprising psychotherapists and attorneys which is consuming enormous resources while thousands of poor children are seriously injured or killed many while being protected by public agencies This rediscovery has also led to the frenzied pursuit of offenders resulting in the sacrifice of some innocent people Moreover the media s focus on the sensational details of high visibility sexual abuse cases has helped to trivialize if not commercialize the child abuse problem As such child abuse has gone from a social problem to a social spectacle By the 1980s the child welfare system had become a virtual nonsystem marked by a staggering turnover of staff unmanageable caseloads a severe shortage of funding and caseloads composed of highly dysfunctional families many with drug related problems To make room for these families public agencies rationed services by increasingly screening out child abuse reports which contained little likelihood of serious bodily harm In *The Politics of Child Abuse in America* the authors argue that child abuse must be viewed as a public safety problem This redefinition would make it congruent with other family based social trends including the crackdown on domestic violence Children must have the same legal protection currently extended to physically and sexually abused women This can be done by creating a Children s Authority which would have the overall charge for protecting children Specifically Children s Authorities would have the responsibility for providing the six main functions of child protection investigation enforcement placement services prevention and education family support and research and development Offering a unique perspective on the cold reality of this crisis *The Politics of Child Abuse in America* will be a provocative work for social workers and human service personnel as well as the general reader concerned with this timely issue

The Politics of Multiculturalism Robert

W. Hefner, 2001-08-31 Few challenges to the modern dream of democratic citizenship appear greater than the presence of severe ethnic religious and linguistic divisions in society With their diverse religions and ethnic communities the Southeast Asian countries of Malaysia Singapore and Indonesia have grappled with this problem since achieving independence after World War II Each country has on occasion been torn by violence over the proper terms for accommodating pluralism Until the Asian economic crisis of 1997 however these nations also enjoyed one of the most sustained economic expansions the non Western world has ever seen This timely volume brings together fifteen leading specialists of the region to consider the impact of two generations of nation building and market making on pluralism and citizenship in these deeply divided Asian societies Examining the new face of pluralism from the perspective of markets politics gender and religion the studies show that each country has developed a strikingly different response to the challenges of citizenship and diversity The contributors most of whom come Southeast Asia pay particular attention to the tension between state and societal approaches to citizenship They suggest that the achievement of an effectively participatory public sphere in these countries will depend not only on the presence of an independent civil society but on a synergy of state and society that nurtures a public culture capable of mediating ethnic religious and gender divides The Politics of Multiculturalism will be of special interest to students of Southeast Asian history and society anthropologists grappling with questions of citizenship and culture political scientists studying democracy across cultures and all readers concerned with the prospects for civility and tolerance in a multicultural world

Religion and Politics in the Contemporary United States R. Marie Griffith, Melani

McAlister, 2008-06-09 This collection of essays from a special issue of American Quarterly explores the complex and sometimes contradictory ways that religion matters in contemporary public life Religion and Politics in the Contemporary United States offers a groundbreaking cross disciplinary conversation between scholars in American studies and religious studies The contributors explore numerous modes through which religious faith has mobilized political action They utilize a variety of definitions of politics ranging from lobbying by religious leaders to the political impact of popular culture Their work includes the political activities of a very diverse group of religious believers Christians Jews Muslims Hindus Buddhists and others In addition the book explores the meanings of religion for people who might contest the term those who are spiritual but not religious for example as well as activists who engage symbols of faith and community but who may not necessarily consider themselves members of a specific religion Several essays also examine the meanings of secular identity humanist politics and the complex evocations of civil religion in American life No other book on religion and politics includes anything like the diversity of religions ethnicities and topics that this one does from Mormon political mobilization to attempts at Americanizing Muslims in the post 9 11 United States from C sar Ch vez to James Dobson from interreligious cooperation and conflict over Darfur to the global politics surrounding the category of Hindus and South Asians in the United States
