Richmond, 2021-08-05 Our current ecological crises compel us not only to understand how contemporary media shapes our conceptions of human relationships with the environment but also to examine the historical genealogies of such perspectives Written during the onset of the Little Ice Age in Britain Middle English romances provide a fascinating window into the worldviews of popular vernacular literature and its audiences at the close of the Middle Ages Andrew M Richmond shows how literary conventions of romances shaped and were in turn influenced by contemporary perspectives on the natural world These popular texts also reveal widespread concern regarding the damaging effects of human actions and climate change The natural world was a constant presence in the writing thoughts and lives of the audiences and authors of medieval English romance and these close readings reveal that our environmental concerns go back further in our history and culture than we think *Language and Piety in Middle English Romance* Roger Dalrymple, 2000 Analysis of pious formulae across a range of medieval romance illuminating their stylistic purpose Space, Gender, and Memory in Middle English Romance Jan Shaw, 2016-08-29 This book offers a much needed consideration of Melusine within medieval and contemporary theories of space memory and gender The Middle English Melusine offers a particularly rich source for such a study as it presents the story of a powerful fairy human woman who desires a full human

life and death within a literary tradition that is more friendly to women's agency than its continental counterparts After establishing a textual habitus of wonder Jan Shaw explores the tale in relation to a range of Middle English traditions including love and marriage the spatial practices of women the operation of individual and collective memory and the legacies of patrimony Melusine emerges as a complex figure representing a multifaceted feminine subject that furthers our understanding of Middle English women's sense of self in the world **Middle English Poetry** Alastair J. Saunders, 2010 This study looks at a wide range of medieval English romance texts including the works of Chaucer and Malory from a broad cultural perspective to show that while they employ magic in order to create exotic escapist worlds they are also grounded in a sense of possibility and reflect a complex web of inherited and current ideas Book Jacket **A Companion to Medieval Popular Romance** Raluca L. Radulescu, Cory James Rushton, 2009 Popular romance was one of the most wide spread forms of literature in the Middle Ages yet despite its cultural centrality and its fundamental importance for later literary developments the genre has defied precise definition its subject matter ranging from tales of chivalric adventure to saintly women and monsters that become human The essays in this collection provide contexts definitions and explanations for the genre particularly in an English context Topics covered include genre and literary classification race and ethnicity gender orality and performance the romance and young readers metre and form printing culture and reception **Studies in Medieval English Romances** Derek Brewer, 1988 Interest in the literary form of

Convention and the Individual in Medieval English

Romance Lucy Brookes,2025-04 Offers a nuanced reading of character and subjectivity in medieval romance via an exploration of its conventions Medieval romances can be characterised by their formulaic motifs predictable plots and stock figures and character types This book offers a fresh perspective on these conventions arguing that authors used them and the expectations they generate as a form of shorthand to interiority Understanding romance conventions in this way reveals that romance characters complex and often contradictory inner lives are made available precisely through the genre s narrative structures shapes and norms Drawing upon recent work in the History of Emotions and Affect Theory the author explores character and subjectivity in a variety of English romance texts from 1100 to 1500 such as Amis and Amiloun Le Bone Florence of Rome The Squire of Low Degree Sir Orfeo Sir Gawain and the Green Knight and Malory s Le Morte Darthur Through new readings of these texts the book demonstrates the contribution made by romance to the growing significance of the individual in fiction after the twelfth century by paying particular attention to the ways in which convention expectation and genre intersect with character formation and the representation of identity

Amodio,2019-06-26 Originally published in 1994 Oral Tradition in Middle English is an edited collection providing a multidisciplinary look at the importance and nature of oral tradition in Middle English literature The book offers a discussion of the gradual problemization of orality and literacy in works of verbal art from this period It shows how early typographies proved too exclusive to explain the heterogeneity of relevant texts bringing to bear the new and potentially productive concepts of vocality and developing literacy This book establishes a new interpretive paradigm for Middle English poetry

Performance and the Middle English Romance Linda Marie Zaerr, 2012 An examination of if and how medieval romance was performed uniquely uniting the perspective of a scholar and practitioner Although English medieval minstrels performed gestes a genre closely related to romance often playing the harp or the fiddle the question of if and how Middle English romance was performed has been hotly debated Here the performance tradition is explored by combining textual historical and musicological scholarship with practical experience from a noted musician Using previously unrecognised evidence the author reconstructs a realistic model of minstrel performance showing how a simple melody can interact with the text and vice versa She argues that elements in Middle English romance which may seem simplistic or repetitive may in fact be incomplete as missing an integral musical dimension metrical irregularities for example may be relics of sophisticated rhythmic variation that make sense only with music Overall the study offers both a more accurate comprehension of minstrel performance and a deeper appreciation of the romances themselves Linda Marie Zaerr is Professor of Medieval Studies at Boise State University
