This is a tale of life defining everything that we are and hope to become such as finding love education success and security by overcoming adversities to find happiness It begins with simple people who find love in the remote areas of Mississippi while hunting raccoons together They are simple people with simple lives doing simple things We all lust we hunger we suffer we enjoy At times we are deceived Sometimes we learn the truth that is often concealed but is revealed to us by someone of higher intellect We love we play we fight and we rescue and are rescued Regardless of others opinions we eat what we like We hunt even if it is nothing more than a bargain at a store We are all victims of in flagrante delicto the act of doing something wrong especially like having illicit sex You will perhaps find your own self while reading this story **Tar Heel Ghosts** John W. Giltner,2008-12-01 This innovative study re examines the dynamics of race relations in the post Civil War South from an altogether fresh perspective field sports In the late nineteenth and early twentieth centuries wealthy white men from Southern cities and the industrial North traveled to the hunting and fishing lodges of the old Confederacy escaping from the office to socialize among like minded peers These sportsmen depended on local black guides who knew the land and fishing holes and could ensure a successful outing For whites the ability to hunt and fish freely and employ black laborers became a conspicuous display of their wealth and social standing But hunting and fishing had been a way of life for all Southerners blacks included since colonial times After the war African Americans used their mastery of these sports to

enter into market activities normally denied people of color thereby becoming more economically independent from their white employers Whites came to view black participation in hunting and fishing as a serious threat to the South s labor system Scott E Giltner shows how African American freedom developed in this racially tense environment how blacks sense of competence and authority flourished in a Jim Crow setting Giltner s thorough research using slave narratives sportsmen s recollections records of fish and game clubs and sporting periodicals offers a unique perspective on the African American struggle for independence from the end of the Civil War to the 1920s **Folk** Richard Carlin,2005 Presents brief entries covering the history significant artists styles and influence of folk music
