The Postcard Collection Australian Birds:

Birds! National Library of Australia Exhibition, 1998 This exhibition is about birds that fly and sing in the Australian imagination Its images may vividly remind us of the birds that live in the world around us but they also trace our changing attitudes to birds and our practical scientific and artistic uses of birds *A Brush with Birds* Penny Olsen, 2008 How images of Australian birds have changed over time as illustrated by the following artists whose work is in the Library's collection John Hunter George Raper Sarah Stone John Lewin John and Elizabeth Gould Henry Richter Neville Henry Cayley Neville William Cayley Ebenezer Edward Gostelow Lilian Medalnd Betty Temple Watts William Cooper There is a short biography for each artist Provided by publisher Postcards Keith Conlon, Ron Kandelaars, 2003 SA in a day That's what you'll find inside this latest Postcards collection a guide to what South Australia has to offer all within an easy day's drive from Adelaide

Unpacking the Collection Sarah Byrne, Anne Clarke, Rodney Harrison, Robin Torrence, 2011-06-27 Museum collections are often perceived as static entities hidden away in storerooms or trapped behind glass cases By focusing on the dynamic histories of museum collections new research reveals their pivotal role in shaping a wide range of social relations Over time and across space the interactions between these artefacts and the people and institutions who made, traded, collected, researched and exhibited them have generated complex networks of material and social agency In this innovative volume the contributors draw on a broad range of source materials to explore the cross cultural interactions which have created museum collections These case studies contribute significantly to the development of new theoretical frameworks to examine broader questions of materiality, agency and identity in the past and present Grounded in case studies from individual objects and museum collections from North America, Europe, Africa, the Pacific Islands and Australia, this truly international volume juxtaposes historical, geographical and cross cultural studies This work will be of great interest to archaeologists and anthropologists studying material culture as well as researchers in museum studies and cultural heritage management
