Reconsidering Evil Petruschka Schaafsma,2006 The notion of evil is not undisputed in contemporary philosophy and theology The reasons for this vary from aversion to the use of a vague comprehensive term like evil to hesitation at the suggestion of an uncontrollable non human power of force that seems to cling to the idea of evil On

the other hand in popular discourse speaking of evil prevails one almost keeps stumbling over allusions to it However such language often seems to be incidental and not a natural part of a whole way of thinking Thus the present situation demands a regauging of the notion of evil Reconsidering Evil attempts this regauging by comparing the nature and status of the theme of evil in four different approaches Paul Ricoeur's approach via symbols and myths of evil provides a focus that enables an analysis and comparison of the highly reflective views of Immanuel Kant Karl Jaspers and Karl Barth who represent an ethical tragic and a non theodician theological view respectively This book sets out to determine whether one can claim that speaking of evil is most at home in a specific way of thinking In the final chapter the notion of the end of evil turns out to be very important for understanding the specific character of a religious view of evil In comparison with Kant's ethical view and Jaspers tragic one the broadest or richest understanding of evil is to be found in a religious context However the comparison of the different approaches also shows the possible dangers of this religious view Thus by means of an in depth analysis and comparison of these thinkers the relevance of the theme of evil for present day philosophy of religion is critically examined

Essays at the End of the Age Jay Trott, 2007-01-10 Essays at the End of the Age examines the rise and fall of nihilism in the context of the cycles of intellectual history and suggests ways to go beyond it The modern era began with Descartes and the attempt to use the cogito to obtain a clear understanding of transcendent being Unfortunately the cogito led to nothingness through its resistance to constructs of being Then Kant attempted to synthesize nothingness with being in the transcendental aesthetic with mixed results Finally Nietzsche used the power of nothingness itself or nihilism to negate any concept of being for the sake of the will to power But nihilism led to the same nothingness as the cogito did since nihilism too was based on resistance The limitations of the superman became evident through the art and culture that reflected his negative ideal of absolute resistance to the good and yet nihilism also indicates the end of philosophy and its attempt to describe transcendent value and the good of happiness The superman is dead and philosophy appears to be dead as well The question now is whether it is possible to go beyond nihilism and find the identity purpose and meaning that the human spirit craves Essays at the End of the Age uses illustrations from literature music science and sacred texts to show

why the superman failed to obtain happiness and to point the way to a new mode of being **Cleansing the Cosmos** E. Janet Warren, 2012-11-08 Understanding evil spiritual forces is essential for Christian theology yet discussion is almost always phrased in terms of spiritual warfare Warfare language is problematic being dualistic assigning a high degree of ontology to evil and poorly applicable to ministry This unique study proposes a biblically based model as the first alternative to a spiritual warfare framework for dealing with the demonic thus providing insights for preaching counseling and missiology Warren develops this model using metaphor theory and examining four biblical themes Creation Cult Christ and Church Metaphors of cleansing ordering and boundary setting are developed in contrast to battle imagery and relevant theological issues are engaged Boyd's warfare imagery Barth's ideas of evil as nothingness and Eliade's notion of the sacred and the profane The role of the Holy Spirit is emphasized and the ontology of evil minimized This model incorporates concentric circles evil being considered peripheral to divine reality and provides a refreshing alternative to current spiritual warfare models **At Smith's House** Jay Trott, 2007-07-01 Are meaning and purpose still possible in life The age of philosophy and its pursuit of the good of happiness came to an end with nihilism The philosophers equated the good with intellect which led to divided descriptions of this value Philosophy is divided by divided loves Plato's love of pure intellect and Aristotle's love of nature and constructs of value which is why it led to nihilism in the end But it is possible to go beyond the ravages of nihilism by setting aside these divided loves for the sake of love itself the power that makes itself known through the desirability of life At Smith's House examines the possibilities of love itself in twelve informal entertaining conversations between two old friends It begins by dissecting the divided concepts of value produced by philosophy and its infatuation with intellect Then it describes the difference between love itself and the divided loves seen in philosophy as well as in institutional doctrine Finally it discusses the restoration of unity to the church and goodness to culture through the formulation Deus caritas est which provides a means of going beyond nihilism and the demise of philosophy **The End of Time** Josef Pieper, 1999 This is a work of rare prophetic brilliance by Josef Pieper one of this century's most profound and lucid expositors of the thought of St Thomas Aquinas This book was written to throw light on an ancient question that has vexed and tormented many What is the nature of The End toward which even now the world and men are moving No writer of our time is better equipped to answer that question than Pieper He provides the most rigorous and sustained philosophical analysis anchored to the primeval rock of theological pronouncement in order precisely to understand the finalities of time and history **The Essential Karl Barth** Keith L. Johnson, 2019-04-02 Karl Barth is one of the most influential theologians of the 20th century His work is considered essential reading for nearly every student of theology Reading Barth's theology poses a challenge however because of the sheer size of his corpus the complexity of his claims and the distance between his context and the context of his readers In this accessible introduction a respected scholar in Barthian studies offers a one stop resource on Barth's thought providing a selection of his most important writings critical commentary and detailed

introductory and concluding chapters **Reconciled Humanity** Hans Vium Mikkelsen, 2010-06-28 Revision of author's thesis Ph D University of Aarhus 2002 under title Reconciled humanity a constructive reading of revelation and atonement in Karl Barth's Church dogmatics **Myth and Gospel in the Fiction of John Updike** John McTavish, 2016-05-17 Big on style slight on substance that has been a common charge over the years by critics of John Updike In fact however John Updike is one of the most serious writers of modern times Myth as this book shows unlocks his fictional universe and repeatedly breaks open the powerful themes in his literary parables of the gospel Myth and Gospel in the Fiction of John Updike also includes a personal tribute to John Updike by his son David two essays by pioneer Updike scholars Alice and Kenneth Hamilton and an anecdotal chapter in which readers share Updike discoveries and recommendations All in all weight is added to the complaint that the master of myth and gospel was shortchanged by the Nobel committee *STAR WORLD CHAPTER 63* Pham Nhat Chuong, 2025-08-06 *STAR WORLD CHAPTER 63* Earth Lin Tian and their group of people did not take too long to arrive here Ao Za Xing above that a golden ball was also collected into the space of the Star World by Lin Tian The stone tablet inside the space of the Star World this one also had some changes the appearance looked more like an ancient style key but except for this point of change there was no other change this point actually made Lin Tian slightly disappointed This time entered the seventh continent do not know when the talent has returned Earth Hundred Tombs Three Eyed Continent near the sea above Heavenly Sword Venerable sighed softly these other few people at this time on the face also had some emotional color entered the seventh continent people have not heard of anyone coming out this once gone perhaps can never return to Earth **The Way of Suffering** Jerome Miller, 1989-01-01 This book can best be described as an extended meditation on suffering phenomenological in method and dialectical in point of view The angle the author takes is that of moral self examination rather than conventional scholarly inquiry and his aim is to think through and evaluate a fundamental claim of our culture from Aeschylus to Solzhenitsyn that suffering is the greatest spiritual teacher To bring the argument closer to home Professor Miller focuses on the experience of crisis as the undermining of our attempts at all costs to keep control of our lives This leads him to discuss topics such as the nature of vulnerability the difference as sketched by Heidegger between ordinary fear and metaphysical dread the ordinary avoidance of suffering and the heroic willingness to embrace it exemplified by Nietzsche's Thus Spake Zarathustra But this is a philosophical essay not a historical monograph and Miller's goal is to lead the reader ever deeper in to the heart of crisis where all our illusions about control are stripped away and we forced to face like Oedipus the harshest reality of all that even our existence is not something we can claim as our own It is here and only here Miller claims the issue of religious conversion can be and must be seriously faced This is a demanding book as exhilarating as it is relentless in its unmasking of the evasions and duplicities with which we shore up our day to day lives The late William F Lynch SJ author of Christ and Apollo called it a profoundly moral study of man To read it is to risk changing your life **Three Theological Mistakes** Ric Machuga, 2015-01-05 Is the existence of God a matter of

faith or knowledge Does God sometimes act miraculously or are there physical causes for everything Is morality absolute or relative Are humans truly free or does God's sovereignty determine everything When bad things happen is God the cause or are they the fault of humans Too frequently Christians answer these questions with a Yes to one side and a No to the other side Thomas Aquinas and Karl Barth answer Yes to both Following their model Machuga defends a third way which transcends the Enlightenment dichotomies of fideism vs rationalism supernaturalism vs naturalism relativism vs absolutism free will vs predestination and God's justice vs his mercy Machuga begins by showing how these false dichotomies grew out of the Enlightenment assumptions of mechanism universal quantification and mono causation He then corrects these demonstrably dubious assumptions by articulating a theory of dual causation The result is a thoroughly biblical understanding of God miracles and free will that can withstand the contemporary criticisms of both science and philosophy

Christian Ethics as Witness David Haddorff, 2011-01-01 Christian ethics is less a system of principles rules or even virtues and more of a free and open ended responsible witness to God's gracious action to be with and for others and the world Postmodernity has left us with the risky uncertainty of knowing and doing the good It also leaves us with the global risks of political violence and terrorism economic globalization and financial crisis and environmental destruction and global climate change How should Christians respond to these problems This book creatively explores how Christian ethics is best understood as a witness to God's action thereby providing the ethical framework for addressing the various problematic social issues that put our world at risk Haddorff develops the notion of witness through a detailed study of Karl Barth's theological ethics Barth he argues provides a language enabling us to know what a Christian ethics of witness actually looks like in both theory and in practice In correspondence to God's gracious action Christians remain free to think and act in faith hope and love in response to their unique circumstances even in a world at risk In their witness Christians remain confident that God has not abandoned the world but loves and cares for its future *Christ, Power and Mammon* Scott

Thomas Prather, 2013-08-15 This book examines the role of the New Testament concept of the principalities and powers in the thought of Karl Barth and John Howard Yoder showing how this biblical concept of power is central to the fundamental theological convictions of each thinker Prather offers a scholarly account of the underexplored theological and ethical import of a major biblical theme and the book addresses questions and concerns from a wide range of academic and lay theological interest He brings Barth and Yoder into dialogue here and examines the three crucial areas the confessional distinction of church and world the demonization of political power and the intrinsic relation between the political and economic powers While other theologians have rightly identified a christocentric connection between the thought of Barth and Yoder no attempt has been made to bring them together through the sustained analysis of a single doctrinal or ethical issue this book does just that Wrestling with God and with Evil, 2007-01-01 The fact of evil continues to raise questions about the relationship between God and evil but also questions about human involvement in it At the beginning of the twenty first

century it is now time to see the existence of evil not just as a problem for belief in God it is a problem for belief in humanity itself as well For human involvement in evil is not simply a matter of coping with evil but also concerns the fact that humans themselves often seem to do wrong and evil inevitably Human finitude ignorance and the unforeseeable consequences of good intentions as well as of neglect can often lead to tragedy This volume contains contributions from an equal number of male and female scholars in Western Europe and America It contains discussions of thinkers like Kant Kierkegaard Barth Weil Levinas Naber Caputo and Johnson It deals with issues like tragedy finitude critiques of Western culture violence and God and the question of whether theodicies are needed or are even honest This volume offers an interesting survey of wrestling with God and evil from a variety of perspectives in the philosophy of religion on both sides of the Atlantic
