detracts from the learning of practices that require slow and patient reading Although awareness of the world's many religions is at an all time high deep knowledge of the various traditions has suffered Clooney challenges this trend by considering six classic Hindu and Christian texts dealing with ritual and law catechesis and doctrine and devotion and religious participation showing how in distinctive ways such texts instruct teach truth and draw willing readers to participate in the realities they are learning Through readings of these seminal scriptural and theological texts he reveals the rewards of a more spiritually transformative mode of reading and how individuals and communities can achieve it Chambers's Encyclopaedia.
