The Prime Of Their Lives Wise Old Women In Preindustrial Europe:

Women Writers and Old Age in Great Britain, 1750-1850 Devoney Looser, 2008-08-01 This groundbreaking study explores the later lives and late life writings of more than two dozen British women authors active during the long eighteenth century. Drawing on biographical materials, literary texts, and reception histories, Devoney Looser finds that far from fading into moribund old age, female literary greats such as Anna Letitia Barbauld, Frances Burney, Maria Edgeworth, Catharine Macaulay, Hester Lynch Piozzi, and Jane Porter toiled for decades after they achieved acclaim despite seemingly concerted attempts by literary gatekeepers to marginalize their later contributions. Though these remarkable women wrote and published well into old age, Looser sees in their late careers the necessity of choosing among several different paths. These included receding into the background as authors of classics, adapting to grandmotherly standards of behavior, attempting to reshape masculinized conceptions of aged wisdom, or trying to create entirely new categories for older women writers. In assessing how these writers affected and were affected by the culture in which they lived and in examining their varied reactions to the prospect of aging, Looser constructs careful portraits of each of her subjects and explains why many turned toward retrospection in their later works. In illuminating the powerful and often poorly recognized legacy of the British women writers who spurred a marketplace revolution in their earlier years only to find unanticipated barriers to acceptance in later life, Looser opens up new scholarly territory in the burgeoning field of feminist age studies.

Middle-aged Women in the Middle Ages Sue Niebrzydowski, 2011 The phenomenon of medieval women's middle age is a stage in the lifecycle that has been frequently overlooked in preference for the examination of female youth and old age. The essays collected here draw variously from literary studies, history, law, art, and theology in order to address this lacuna.

The Prime of Their Lives Anneke B. Mulder-Bakker, Renée Nip, 2004 The contributions to this volume show that in pre-industrial Europe, women in their prime—women that is, who had reached maturity and were beyond fertility but not yet in old age—constitute a separate category for historical and literary analysis. These wise old women or WOWs took on tasks in society which were essentially different from the ones they had taken on before, mainly in the household. The case studies presented here show that some of these women entered a second phase of creativity and productivity and were even able to fulfil their desires at the age of forty. Being able at last to find their authentic selves, they acquired a female voice of their own. For some of them, for example Christine de Pizan, the age of forty even functioned as a trope of female authorship.

The Youth of Early Modern Women Elizabeth Storr Cohen, Margaret Louise Reeves, 2025-10-01 Through fifteen essays that work from a rich array of primary sources, this collection makes the novel claim that early modern European women like men had a youth. European culture recognised that between childhood and full adulthood, early modern women experienced distinctive physiological, social, and psychological transformations. Drawing on two mutually shaped layers of inquiry—cultural constructions of youth and lived experiences—these essays exploit a wide variety of sources, including literary and autobiographical works, conduct literature, judicial and

asylum records drawings and material culture The geographical and temporal ranges traverse England Ireland Italy France the Netherlands Switzerland Spain and Mexico from the sixteenth to the eighteenth century This volume brings fresh attention to representations of female youth their own life writings young women s training for adulthood courtship and the emergent sexual lives of young unmarried women [Lives of the Anchoresses](#) Anneke B. Mulder-Bakker,2005-03-10 In cities and towns across northern Europe in the twelfth and thirteenth centuries a new type of religious woman took up authoritative though solitary positions in medieval society Mulder Bakker offers a new history of these women and their roles as counselors theological innovators and public recluses **The Oxford Handbook of Women and Gender in Medieval Europe** Judith M. Bennett,Ruth Mazo Karras,2013-08-22 The Oxford Handbook of Women and Gender in Medieval Europe provides a comprehensive overview of the gender rules encountered in Europe in the period between approximately 500 and 1500 C E The essays collected in this volume speak to interpretative challenges common to all fields of women s and gender history that is how best to uncover the experiences of ordinary people from archives formed mainly by and about elite males and how to combine social histories of lived experiences with cultural histories of gendered discourses and identities The collection focuses on Western Europe in the Middle Ages but offers some consideration of medieval Islam and Byzantium The Handbook is structured into seven sections Christian Jewish and Muslim thought law in theory and practice domestic life and material culture labour land and economy bodies and sexualities gender and holiness and the interplay of continuity and change throughout the medieval period It contains material from some of the foremost scholars in this field and it not only serves as the major reference text in medieval and gender studies but also provides an agenda for future new research

The Ashgate Research Companion to Women and Gender in Early Modern Europe Jane Couchman,2016-03-23 Over the past three decades scholars have transformed the study of women and gender in early modern Europe This Ashgate Research Companion presents an authoritative review of the current research on women and gender in early modern Europe from a multi disciplinary perspective The authors examine women s lives ideologies of gender and the differences between ideology and reality through the recent research across many disciplines including history literary studies art history musicology history of science and medicine and religious studies The book is intended as a resource for scholars and students of Europe in the early modern period for those who are just beginning to explore these issues and this time period as well as for scholars learning about aspects of the field in which they are not yet an expert The companion offers not only a comprehensive examination of the current research on women in early modern Europe but will act as a spark for new research in the field *The Book of Nature in Early Modern and Modern History* Klaas van Berkel,Arie Johan Vanderjagt,2006 From 22-25 May 2002 the University of Groningen hosted an international conference on The Book of Nature Continuity and change in European and American attitudes towards the natural world From Antiquity down to our own time theologians philosophers and scientists have often compared nature to a book which might under the right

circumstances be read and interpreted in order to come closer to the Author of nature God The reading of this book was not regarded as mere idle curiosity but it was seen as leading to a deeper understanding of God's wisdom and power and it culturally legitimated and promoted a positive attitude towards nature and its study A selection of the papers which were delivered at the conference has been edited in two volumes The first book was published as *The Book of Nature in Antiquity and the Middle Ages* this second volume is devoted to the history of that concept after the Middle Ages Romancing the Self in Early Modern Englishwomen's Life Writing Julie A. Eckerle, 2016-04-01 Juxtaposing life writing and romance this study offers the first book length exploration of the dynamic and complex relationship between the two genres In so doing it operates at the intersection of several recent trends interest in women's contributions to autobiography greater awareness of the diversity and flexibility of auto biographical forms in the early modern period and the use of manuscripts and other material evidence to trace literacy practices Through analysis of a wide variety of life writings by early modern Englishwomen including Elizabeth Delaval Dorothy Calthorpe Ann Fanshawe and Anne Halkett Julie A Eckerle demonstrates that these women were not only familiar with the controversial romance genre but also deeply influenced by it Romance she argues with its unending tales of unsatisfying love spoke to something in women's experience offered a model by which they could recount their own disappointments in a world where arranged marriage and often loveless matches ruled the day and exerted a powerful pervasive pressure on their textual self formations *Romancing the Self in Early Modern Englishwomen's Life Writing* documents a vibrant secular form of auto biographical writing that coexisted alongside numerous spiritual forms providing a much more nuanced and complete understanding of sixteenth and seventeenth century women's reading and writing literacies The Cult of St. Anne in Medieval and Early Modern Europe Jennifer Welsh, 2016-12-08 Dr Jennifer Welsh received her M A in Medieval Studies from Cornell University in 2000 and her M A and PhD in History from Duke University in 2004 and 2009 Her dissertation dealt with the cult of St Anne in late medieval and early modern Europe After four years as a Visiting Assistant Professor at the College of Charleston in Charleston SC she started working as an Assistant Professor in the Department of History at Lindenwood University Belleville in Belleville IL in August of 2014 This is her first book **Women and Experience in Later Medieval Writing** A. Mulder-Bakker, 2009-04-27 This volume examines the common medieval notion of life experience as a source of wisdom and traces that theme through different texts and genres to uncover the fabric of experience woven into the writings by for and about women **Anchoritic Traditions of Medieval Europe** Liz Herbert McAvoy, 2010 Numerous traditions of medieval anchoritism developed in Western Europe during the middle ages as demonstrated by this survey It covers both an overview of the origins and development across Europe and a close examination and profile of specific examples of influential anchorites within that region More Than a Memory Johan Leemans, 2005 Throughout its history persecutions and martyrdom have been Christianity's faithful companions Remarkably enough Christians have always valued martyrdom in a positive way This positive evaluation of martyrdom most certainly has

to do with the absolute uncompromising nature of it The martyrs lives and deaths represent the most uncompromising of answers to the divine call The focus of the contributions in this volume is not in the first place on reconstructing the historical events of the martyr's life and death wie es eigentlich gewesen ist but on the discourse generated by this event as mediated in texts More than a Memory aims to explore the reciprocal relationship between this discourse of martyrdom and the construction of Christian identity It will do so by presenting a number of test cases in which this dynamic can be seen at work They will lead the reader through the entire history of Christianity starting with the Martyrdom of Lyons and Vienne in the second century and ending in the Latin America of the 1960 s Each article will present a test case of discourse analysis attempting to explore the issue of how a document or coherent group of documents contributed to create a distinct Christian identity Taken together the essays provide an array of examples of how martyrdom impinged on the way Christian identity has been negotiated in the Christian past In doing this the volume at the same time illustrates the sheer importance of martyrdom and the reflection and writing about it throughout the history of Christianity until today
