The Prison Industrial Complex And The Global Economy:

Prison-Industrial Complex and the Global Economy Linda Evans,Eve Goldberg,2009-09-01 The prison business in the US is not based on locking up punishing or rehabilitating dangerous hoodlums Follow the money and find how the prison industrial complex fits into the New World Order of free trade and imprisoned people the war on drugs and capital flight

The Prison Industrial Complex and the Global Economy Eve Goldberg,Linda Evans,2005 The Prison-industrial Complex & the Global Economy Eve Goldberg,Linda Evans,2009 A look at the economic motives for continued excessive imprisonment of individuals *The Prison-industrial Complex & the Global Economy* Eve Goldberg,2009 Global Lockdown Julia Sudbury,Julia Chinyere Oparah,2005 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company *Prison Industrial Complex For Beginners* James Braxton Peterson,2016-02-10 Prison Industrial Complex For Beginners is a graphic narrative project that attempts to distill the fundamental components of what scholars activists and artists have identified as the Mass Incarceration movement in the United States Since the early 1990s activist critics of the US prison system have marked its emergence as a complex in a manner comparable to how President Eisenhower described the Military Industrial Complex Like its institutional cousin the Prison Industrial Complex features a critical combination of political ideology far reaching federal policy and the neo liberal directive to privatize institutions traditionally within the purview of the government The result is that corporations have capital incentives to capture and contain human bodies The Prison Industrial Complex relies on the law and order ideology fomented by President Nixon and developed at least partially in response to the unrest generated through the Civil Rights Movement It is and has been enhanced and emboldened via the US war on drugs a slate of policies that by any account have failed to do anything except normalize the warehousing of nonviolent substance abusers in jails and prisons that serve more as criminal training centers than as redemptive spaces for citizens who might re enter society successfully Prison Industrial Complex For Beginners is a primer for how these issues emerged and how our awareness of the systems at work in mass incarceration might be the very first step in reforming an institution responsible for some of our most egregious contemporary civil rights violations Beneath the Mountain: An Anti-Prison Reader Mumia Abu-Jamal,Jennifer Black,2024-07-16 Essential radical texts by enslaved jailed and imprisoned Americans edited by renowned political prisoner Mumia Abu Jamal and activist scholar Jennifer Black Filled with insight and energy this extraordinary book gifts us the opportunity to encounter people s understanding of the fight for freedom from the inside out Ruth Wilson Gilmore author of Golden Gulag and Abolition Geography Martin Luther King told us what he saw when he went to the mountaintop But there s also the foot of the mountain and there are also the regions beneath the surface I want to try to tell you a little something about those regions Angela Y Davis author of Angela Davis An Autobiography Beneath the Mountain is a reader s guide for understanding the evolution of anti prison tenets This essential core of primary texts provides an arc of insurgent writings by dissidents and revolutionaries who experienced incarceration

and state terror first hand With contributions from John Brown Frederick Douglass and Crazy Horse to Assata Shakur Malcolm X and Leonard Peltier it also includes a previously unpublished communiqu  from Angela Davis written from jail at the time when she was forging the anti prison critique that has since inspired a national movement Beneath the Mountain offers a record of the historic foundations for the contemporary abolition movement What emerges from these texts is an emancipatory vision that inspires the work being done today a vision centered on organizing and solidarity as an antidote to repression An invaluable resource for readers on both sides of prison walls this compendium of resistance and hard won vision will be essential to all who seek to develop an abolitionist critique and to further an understanding of the nature of repression and liberation

White Reconstruction Dylan Rodriguez, 2020-10-27 A compelling study of how the idea of white supremacy persists long after the Civil Rights Act as thoughtful as it is fierce David Roediger author of *The Sinking Middle Class A Political History* We are in the fray of another signature moment in the long history of the United States as a project of anti Black and racial colonial violence Long before November 2016 white nationalism white terrorism and white fascist statecraft proliferated Thinking across a variety of archival testimonial visual and activist texts from Freedmen s Bureau documents and the Join LAPD hiring campaign to Barry Goldwater s hidden tattoo and the Pelican Bay prison strike Dylan Rodriguez counter narrates the long post civil rights half century as a period of White Reconstruction in which the struggle to reassemble the ascendancy of White Being permeates the political and institutional logics of diversity inclusion formal equality and multiculturalist white supremacy Throughout White Reconstruction Rodriguez considers how the creative imaginative speculative collective labor of abolitionist praxis can displace and potentially destroy the ascendancy of White Being and Civilization in order to create possibilities for insurgent thriving

New Black Renaissance Manning Marable, Adina Popescu, Khary Jones, Patricia Lespinasse, 2015-12-03 Against a backdrop of multiculturalism and Afrocentricity in the intellectual traditions of African American studies this book sets new standards and directions for the future It is the first book to systematically address the many themes that have changed the political and social landscape for African Americans Among these changes are new transnational processes of globalization the devastating impact of neoliberal public policies upon urban minority communities increasing imprisonment and attendant loss of voting rights especially among black males the surging of Hispanic population and widening class differences as deindustrialization crack cocaine and gentrification entered urban communities Marable and a cast of influential contributors suggest that a new beginning is needed for African American scholarship They explain why Black Studies needs to break its conceptual and thematic limitations exploring blackness in new ways and in different geographic sites They outline the major intersectionalities that should shape a new Black Studies the complex relationships between race gender sexuality class and youth They argue that African American Studies scholarship must help shape and redirect public policies that affect black communities working with government foundations and other private institutions on such issues as housing health care and

criminal justice **Set Them Free** Laurel Dykstra,2014-10-15 A fresh look at the Exodus story that opens our eyes to injustice in today s world **New Directions in Crime and Deviancy** Simon Winlow,Rowland Atkinson,2013-06-07

Criminology is at a crossroads In the last two decades it has largely failed to produce the kind of new intellectual frameworks and empirical data that might help us to explain the high levels of crime and interpersonal violence that beset inner city areas and corrode community life Similarly it has failed to adequately explain forms of antisocial behaviour that are just as much a part of life in corporate boardrooms as they are in the ghettos of north America and the sink estates of Britain Criminology needs to rethink the problem of crime and re engage its audience with strident theoretical analysis and powerful empirical data In *New Directions in Crime and Deviancy* some of the world s most talented and polemical critical criminologists come together to offer new ideas and new avenues for analysis The book contains chapters that address a broad range of issues central to 21st century critical criminology ecological issues and the new green criminology the broad impact of neoliberalism upon our cultural and economic life recent signs of political resistance and opposition systemic and interpersonal forms of violence growing fear and enmity in cities the backlash against the women s movement the subjective pathology of the serial killer computer hacking and so on Based on key papers presented at the historic York Deviancy Conferences this cutting edge volume also contains important critical essays that address criminological research methods and the production of criminological knowledge It is key reading material for those with an academic interest in critical cultural and theoretical criminology and crime and deviance more generally *Handbook of the Sociology of Racial and Ethnic Relations* Pinar Batur,Joe R. Feagin,2018-06-11 The study of racial and ethnic relations has become one of the most written about aspects in sociology and sociological research In both North America and Europe many traditional cultures are feeling threatened by immigrants from Latin America Africa and Asia This handbook is a true international collaboration looking at racial and ethnic relations from an academic perspective It starts from the principle that sociology is at the hub of the human sciences concerned with racial and ethnic relations **Heartbeat of Struggle** Diane Carol Fujino,2005 Presents the biography of the courageous Asian American activist who on February 12 1965 cradled Malcolm X in her arms as he died although her role as a public servant and activist began much earlier than this pivotal public moment Simultaneous **The Prison School** Lizbet Simmons,2017 Police officers and metal detectors have become fixtures in American public schools In this tough on crime security oriented era the new gold standard for school discipline has become the criminal justice system While harsh school punishment has reshaped schools and communities across the socioeconomic divide nowhere is the overlap between classroom and prison more striking than at the Orleans Parish Prison the site of a New Orleans public school enrolling primarily poor African American boys expelled under zero tolerance policies for minor infractions such as tardiness but not actual criminal behavior The *Prison School* examines how and why public schools take a punitive approach to education and analyzes how this criminalizing mode influences a student s approach toward correctional custody How did

schools and prisons two very different kinds of public institutions become so intertwined and what does this combination mean for students communities and ultimately a democratic society How do we begin to unravel the ties that bind the racialized realities of mass school failure and mass incarceration And what does this mean to segments of the population in particular African American males who have been systematically removed from their schools and their society Provided by publisher

Prisons of Poverty Loïc J. D. Wacquant, 2009 In this title the author examines how penal policies emanating from the United States have spread throughout the world The author argues that the policies have their roots in a network of Reagan era conservative think tanks which used them as weapons in their crusade to dismantle the welfare state and in effect criminalise poverty

Forced Passages Dylan Rodríguez, With the US having the highest incarceration rate in the world prisons have become sites of radical political discourse and resistance Dylan Rodríguez examines the work of a number of imprisoned intellectuals such as Angela Davis and Leonard Peltier and looks at how imprisonment has shaped their writing

James Samuel Logan,2008-01-02 The author critiques the American obsession with imprisonment as punishment calling it retributive degradation of the incarcerated His analysis draws on both salient empirical data and material from a variety of disciplines social history anthropology law and penal theory philosophy of religion as he uncovers the devastating social consequences both direct and collateral of imprisonment on such a large unprecedented scale The book develops a Christian social ethics of good punishment embodied as a politics of healing memories and ontological intimacy Encyclopedia of Prisons and Correctional Facilities Mary Bosworth,2005 Are included Annotation 2004 Book News Inc Portland OR booknews com
