The Problem Of Authority In America:

The Problem of Authority in America John P. Diggins, Mark E. Kann, 1981 Authority, Autonomy, and Representation in American Literature, 1776-1865 Mark R. Patterson, 2014-07-14 From the Revolutionary War to the Civil War a familiar scene appears and reappears in American literature a speaker stands before a crowd of men and women attempting to mitigate their natural suspicions in order to form a body of federated wills In this important study of the relationship of literature and politics Mark Patterson argues that this scene restates political issues in literary terms and embodies the essential problems of American democracy facing both politicians and writers What is autonomy How does representation work Where does true authority lie Beginning with the debate over ratification of the United States Constitution Patterson follows out the complex literary consequences of these questions A work of literary history and criticism this study also offers valuable insights into matters of political and literary theory. In separate chapters on Benjamin Frankin Hugh Henry Brackenridge and Charles Brockden Brown in the post Revolutionary period and on Fenimore Cooper Emerson and Melville in the antebellum period Patterson provides a series of brilliant readings of major texts in order to describe how American writers have conflated political and literary concerns as a means to their own social authority Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The Crisis of Authority in Catholic Modernity Michael J. Lacey, Francis Oakley, 2011-04-06 It is fairly clear that while Rome continues to teach as if its authority were unchanged from the days before Vatican II 1962 65 the majority of Catholics within the first world church at least take a far more independent line and increasingly understand themselves rather than the church as the final arbiter of decision making especially on ethical questions This collection of essays explores the historical background and present ecclesial situation explaining the dramatic shift in attitude on the part of contemporary Catholics in the U S and Europe The Decline of Authority Ray Gunn, 2019-05-15 From the Revolution until the Panic of 1837 Americans accepted state intervention in the economy as a legitimate even an essential function of government The Decline of Authority examines the transformation of New York State government between 1800 and 1860 a critical period during which governmental authority diminished as most state governments withdrew from interventionist economic policies and relinquished their role in the allocation of resources to the private sector Exploring the relationship between socioeconomic change public economic policy and political development L Ray Gunn offers an innovative explanation for the new configuration of politics and governance in New York State that emerged during this era Moral Authority, Ideology, And The Future Of American Social Welfare Andrew W.

Dobelstein, 2018-02-20 This book suggests how welfare can be reformed by taking the American ideological context as a road map for which welfare changes are possible and which are not laying out a framework for welfare as America enters the Scientific Authority & Twentieth-century America Ronald G. Walters, 1997 In Scientific Authority and Twentieth Century America Ronald G Walters brings together a distinguished group of contributors to reflect often critically on scientific and medical claims to moral social and political authority Constitutional History of the American Revolution V. 4; Authority of Law John Phillip Reid, 2003-03 This work addresses the central constitutional issues that divided the American colonists from their English legislators the authority to tax the authority to legislate the security of rights the nature of law and the foundation of constitutional government in custom and contractarian theory American Small Business United States. Congress. Senate. Special Committee to Study Problems of American Small Business, 1948 Constitutional History of the American Revolution: The authority to legislate John Phillip Reid, 1986 John Phillip Reid addresses the central constitutional issues that divided the American colonists from their English legislators the authority to tax the authority to legislate the security of rights the nature of law the foundation of constitutional government in custom and contractarian theory and the search for a constitutional settlement Federalism, Fiscal Authority, and **Centralization in Latin America** Alberto Diaz-Cayeros, 2006-08-21 This book explores the politics of fiscal authority focusing on the centralization of taxation in Latin America during the twentieth century The book studies this issue in great detail for the case of Mexico The political and fiscal fragmentation associated with civil war at the beginning of the century was eventually transformed into a highly centralized regime. The analysis shows that fiscal centralization can best be studied as the consequence of a bargain struck between self interested regional and national politicians Fiscal centralization was more extreme in Mexico than in most other places in the world but the challenges and problems tackled by Mexican politicians were not unique The book thus analyzes fiscal centralization and the origins of intergovernmental financial transfers in the other Latin American federal regimes Argentina Brazil and Venezuela The analysis sheds light on the factors that explain the consolidation of tax authority in developing countries Self-discovery and Authority in Afro-American Narrative Valerie Smith, 1987 It is by telling the stories of their lives that black writers affirm and legitimize their autonomy So Smith argues in this exploration of the relationship between autobiography and fiction in Afro American writing Smith sees plot construction and characterization as providing these narrators with a measure of authority unknown in their lives Relations of Rescue: The Search for Female Moral Authority in the American West, 1874-1939 Peggy Pascoe Associate Professor of History University of Utah, 1990-03-29 In this study of late nineteeth century moral reform Peggy Pascoe examines four specific cases a home for Chinese prostitutes in San Francisco California a home for polygamous Mormon

women in Salt Lake City Utah a home for unmarried mothers in Denver Colorado and a program for American Indians on the Omaha Reservation in Nebraska to tell the story of the women who established missionary rescue homes for women in the

American West Focusing on two sets of relationships those between women reformers and their male opponents and those between women reformers and the various groups of women they sought to shelter Pascoe traces the gender relations that framed the reformers search for female moral authority analyzes the interaction between women reformers and the women who entered the rescue homes and raises provocative questions about historians understanding of the dynamics of social feminism social control and intercultural relations The Problem of Political Authority Michael Huemer, 2012-10-29 The state is often ascribed a special sort of authority one that obliges citizens to obey its commands and entitles the state to enforce those commands through threats of violence This book argues that this notion is a moral illusion no one has ever possessed that sort of authority James M. Cain and the American Authors' Authority Richard Fine, 2014-01-30 The 1940s offered ever increasing outlets for writers in book publishing magazines radio film and the nascent television industry but the standard rights arrangements often prevented writers from collecting a fair share of the profits made from their work To remedy this situation novelist and screenwriter James M Cain The Postman Always Rings Twice Double Indemnity Mildred Pierce proposed that all professional writers including novelists playwrights poets and screenwriters should organize into a single cartel that would secure a fairer return on their work from publishers and producers This organization conceived and rejected within one turbulent year 1946 was the American Authors Authority AAA In this groundbreaking work Richard Fine traces the history of the AAA within the cultural context of the 1940s After discussing the profession of authorship as it had developed in England and the United States Fine describes how the AAA which was to be a central copyright repository was designed to improve the bargaining position of writers in the literary marketplace keep track of all rights and royalty arrangements protect writers interests in the courts and lobby for more favorable copyright and tax legislation Although simple enough in its design the AAA proposal ignited a firestorm of controversy and a major part of Fine's study explores its impact in literary and political circles Among writers the AAA exacerbated a split between East and West Coast writers who disagreed over whether writing should be treated as a money making business or as an artistic and poorly paid calling Among politicians a move to unite all writers into a single organization smacked of communism and sowed seeds of distrust that later flowered in the Hollywood blacklists of the McCarthy era Drawing insights from the fields of American studies literature and Cold War history Fine s book offers a comprehensive picture of the development of the modern American literary marketplace from the professional writer's perspective It uncovers the effect of national politics on the affairs of writers thus illuminating the cultural context in which literature is produced and the institutional forces that affect its <u>Fast Track Authority and North American Free Trade Agreement</u> United States. the Catholic Native American Boarding Schools run by Catholic Sisters Elisabeth C Davis examines four schools the first one established by Catholic women in the United States in 1847 and the last ending in 1918 Using previously unexplored archival material Davis examines how Catholic Sisters established authority over their students and the local indigenous communities In doing so Davis sheds new light on the role of women during the eras of American expansion settler imperialism and the boarding school era Authority and Female Authorship in Colonial America William J. Scheick, 2014-10-17 Should women concern themselves with reading other than the Bible Should women attempt to write at all Did these activities violate the hierarchy of the universe and men s and women s places in it Colonial American women relied on the same authorities and traditions as did colonial men but they encountered special difficulties validating themselves in writing William Scheick explores logonomic conflict in the works of northeastern colonial women whose writings often register anxiety not typical of their male contemporaries This study features the poetry of Mary English and Anne Bradstreet the letter journals of Esther Edwards Burr and Sarah Prince the autobiographical prose of Elizabeth Hanson and Elizabeth Ashbridge and the political verse of Phyllis Wheatley These works along with the writings of other colonial women provide especially noteworthy instances of bifurcations emanating from American colonial women's conflicted confiscation of male authority Scheick reveals subtle authorial uneasiness and subtextual tensions caused by the attempt to draw legitimacy from male authorities and traditions American Muslim Women, Religious Authority, and Activism Juliane Hammer, 2012-04-01 Hammer looks at the work of significant female American Muslim writers scholars and activists since 1990 using their writings as a lens for a larger discussion of Muslim intellectual production in America and beyond Centered on the controversial women led Friday prayer in March 2005 Hammer uses this event and its aftermath to address themes of faith community and public opinion While gender is the catalyst for Hammer's study her examination of these women's intellectual output touches on themes central to contemporary Islam authority tradition Islamic law justice and authenticity The American Political Authority and Trust in US Culture and Society Günter Leypoldt, Manfred Berg, 2021-02-26 In the Science Review ,1929 past two decades a discourse of crisis has emerged about the democratic institutions and political culture of the US many structures of authority which people had more or less taken for granted are facing a massive public loss of trust This volume takes an interdisciplinary and historical look at the transformations of authority and trust in the United States The contributors examine government institutions political parties urban neighborhoods scientific experts international leadership religious communities and literary production Exploring the nexus between authority and trust is crucial to understand the loss of legitimacy experienced by political social and cultural institutions not only in the United States but in Western democracies at large
