The Problem Of Being Human:

Person to Person: the Problem of Being Human Carl Ransom Rogers, 1975 Heroes, Saints, and Ordinary Morality Andrew Michael Flescher, 2003-11-25

Most of us are content to see ourselves as ordinary people unique in ways talented in others but still among the ranks of ordinary mortals Andrew Flescher probes our contented state by asking important questions How should ordinary people respond when others need our help whether the situation is a crisis or something less Do we have a responsibility an obligation to go that extra mile to act above and beyond the call of duty Or should we leave the braver responses to those who are somehow different than we are better somehow heroes or saints Traditional approaches to ethics have suggested there is a sharp distinction between ordinary people and those called heroes and saints between duties and acts of supererogation going beyond the expected Flescher seeks to undo these standard dichotomies by looking at the lives and actions of certain historical figures Holocaust rescuers Martin Luther King Jr Dorothy Day among others who appear to be extraordinary but were in fact ordinary people Heroes Saints and Ordinary Morality shifts the way we regard ourselves in relationship to those we admire from afar it asks us not only to admire but to emulate as well further it challenges us to actively seek the acquisition of virtue as seen in the lives of heroes and saints to learn from them a dynamic aspect of ethical behavior that goes beyond the mere avoidance of wrongdoing Andrew Flescher sets a stage where we need to think and act calling us to lead lives of self examination even if that should sometimes provoke discomfort He asks that we strive to emulate those we admire and therefore allow ourselves to grow morally and spiritually It is then that the individual develops a deeper altruistic sense of self a state that allows us to respond as the heroes of our own lives and therefore in the lives of others when times and circumstance demand that of us *The Nature of Being Human* Harold Fromm, 2009-05-04

Essays exploring humanity's connection with the environment Although the physical relationship between the natural world and individuals is quantifiable the psychosocial effect of the former on the latter is often less tangible What for instance is the connection between the environment in which we live and our creativity How is our consciousness bounded and delimited by our materiality And from whence does our idea of self and our belief in free will derive and when do our surroundings challenge these basic assumptions Eco critic Harold Fromm's challenging exploration of these and related questions twines his own physical experiences and observations with insights gathered from both the humanities and the sciences Writing broadly and personally Fromm explores our views of nature and how we write about it He ties together ecology evolutionary psychology and consciousness studies to show that our perceived separation from our surroundings is an illusory construct He argues for a naturalistic vision of creativity free will and the literary arts unimpeded by common academic and professional restraints At each point of this intellectual journey Fromm is honest engaging and unsparing Philosophical critical often personal Fromm's sweeping interdisciplinary and sometimes combative essays will change the way you think about your place in the environment How rare it is that a work of philosophical inquiry is written with the

passion of a cri de coeur but Harold Fromm's brilliantly conceived *The Nature of Being Human* resonates with such uncanny depths Here is an utterly engrossing first person account of a harrowing pilgrimage into the 21st century and its disturbing revelations about humankind's truest nature in contrast to the comforting solitudes of a humanist past If the role of the philosopher is to force us to think Harold Fromm is a born philosopher Joyce Carol Oates Fromm an erudite prolific author of numerous works ranging from ecocritical commentary to self reflective discourses presents a compilation of essays that illuminate his views regarding why most Americans seem oblivious to the destruction of their environment Choice Fromm's journey from victim to campaigner to pioneer of eco criticism that is the study of literature from an ecological viewpoint is documented here alongside challenging analyses of man's place in nature free will our relationship with technology and more Scholarly but engaging Fromm is an environmentalist but also a realist *Organic Gardener* Jacquelyn Small,2005-09-15 Noted psychologist Jacquelyn Small helps us break the cycle of addictive behavior destructive relationships and self harm by teaching that we are not human beings learning to be spiritual we are spiritual beings learning to be human Jacquelyn Small's 12 Principles of Wholeness developed in her 30 year clinical practice provide a one year process of psychospiritual inner work Blending ancient wisdom and modern science this process has led client after client to the personal transformation of addictive living that precedes spiritual awakening The readings exercises and guided imageries in this book will help you access blocked emotions and modify the basic patterns buried within you that are holding unwanted behaviors in place You will learn how to Release stuck emotions through inner work designed to heal your past Identify pseudo personalities that masquerade as your true self Create the inner space required for a spiritual awakening to occur naturally *Being Human* Karl Knig,2010-08 Selected lectures During the early seventeenth century Europe was suddenly embroiled in controversy after the publication of the first Rosicrucian texts Ever since Rosicrucianism has been at the center of Western Christian esotericism Forced underground by the Thirty Years War it was secretly handed down by alchemists hermeticists and Masons to the nineteenth century when it inspired new spiritual movements such as Theosophy the Order of Golden Dawn and Rudolf Steiner's Spiritual Science The Secret Stream collects all of Steiner's discussions of the Rosicrucians answering questions such as Who are the Rosicrucians What is Alchemy What is the Rosicrucian path What is the difference between Rosicrucianism and mysticism And what does it mean for today The topics include the Tao and the Rose Cross the history and mission of Christian Rosenkreutz the nature of Rosicrucian practice and experience the meaning of The Chymical Wedding and Goethe's Rosicrucian poem The Mysteries Rosicrucian meditation is also discussed including how to meditate the Rose Cross itself This important collection goes to the spiritual heart of Anthroposophy whose essence is the Rosicrucian path Edited and introduced by Christopher Bamford The Secret Stream brings to light the hidden fraternity that has lived and worked since the fourteenth century It reveals the Rosicrucian path that is Christian alchemical and profoundly modern *Person to Person* Carl Ransom Rogers,Barry Stevens,Eugene T.

Gendlin,1973 **Our Practices, Our Selves, Or, What it Means to be Human** Todd May,2001-01-01 This enjoyable book written in an engaging colloquial voice is that rare kind of introduction to philosophy that both 1 shows that philosophy is a distinctive form of lively conceptual activity rather than an inert body of dusty doctrines and 2 makes a contribution to the field it introduces by showing the importance of our multifarious human practices to questions of selfhood and identity The fundamental thesis of the book that practices are constitutive of the self in a deep way that has not been sufficiently recognized is explored through wide ranging examples including global technological capitalism religious authority and the creationism debate multiculturalism psychoanalytical explanation jazz baseball political activism cooking and many others These diverse strands although they obviously come from far and wide are convincingly woven into a coherent and illuminating large scale pattern This book shows the student the general reader or anyone interested in what philosophy itself a practice how hard clear thinking promotes human understanding and how helpful analytical thought can be to numerous hotly debated issues Readers are given the conceptual tools and philosophical equipment they need as the book progresses and they will know that they are in the hands of an excellent confidence inspiring teacher of the subject Garry L Hagberg Bard College

The Five Areas of Being Human: An Assessment Tool for Therapeutic Care Thomas D. Sharts M.Ed,2014-08-15 This book The Five Areas of Being Human An Assessment Tool for Therapeutic Care challenges those professionals in the business of therapeutic care to more coherently organize effective methods of behavioral assessment for the purpose of identifying the origins of problematic behaviors related to mental health and or social problems modeled by individuals Likewise it is this author s belief that the best practices for organizing such a logical behavioral assessment is identifying the five areas of being human spiritual physical social psychological and vocational and developing relevant questions in association with each distinctive area implementing effective interviewing methods and selecting appropriate therapeutic strategies Moreover it is the belief of this author that many persons experiencing therapeutic or medical relationships with psychiatrists social workers licensed practical counselors medical physicians etc suffer from untreated mental health and physical conditions because this assessment model is never identified and applied by such practicing professionals In summation for certain identifying the five areas of being human and developing relevant questions to ask in a therapeutic or medical relationship will effectively assist in actualizing a more cogent and helpful assessment necessary for treating and promoting healing toward those persons suffering from mental and or physical debilitating health conditions

Being Human Max Malikow,2010-09-20 The thread running through this collection of essays is the inviolate marriage between philosophy and psychology Psychotherapist Mary Capocefalo has written Long before psychologists were asking questions about mind and behavior philosophers were expressing the same curiosity The Socratic method of teaching by asking questions is indispensable in psychotherapy Aristotle spoke about happiness as though he had read twentieth century psychological research on the subject Albert Camus reduced the study of philosophy to a

single psychological issue suicide Conversely Sigmund Freud and Carl Jung addressed the question of the meaning of life Lawrence Kohlberg and John Robert Coles investigated moral behavior And Viktor Frankl integrated existentialism into the practice of psychotherapy East is east and west is west and never the twain shall meet does not apply to philosophy and psychology

On Blackness, Liveliness, and What It Means to Be Human Wilson Kwamogi Okello,2024-10-01 In No Humans Involved An Open Letter to My Colleagues Jamaican writer and theorist Sylvia Wynter critiques the social and human sciences for perpetuating social hierarchies particularly through the Western humanist framing of Man as the universal representation of humanity Human development theories revolve around this concept necessitating acquiescence to the category Man to claim humanity But Blackness complicates and unsettles these terms in ways the fields of higher education and educational research are in many ways just beginning to confront On Blackness Liveliness and What It Means to Be Human extends Wynter s critique to human development and academic knowledge production arguing that Black specificity can create new possibilities for Black being Wilson Kwamogi Okello closely examines holistic development theory aiming not to reform but to reimagine the self it presupposes Taking what he describes as a multimodal and multisensory approach Okello engages a chorus of writers thinkers and cultural workers Baldwin Bambara Brand Hartman Lorde Sharpe Spillers Wilderson and more to reframe Blackness as a social political and historical matrix going beyond the study of Black experiences biology or culture Punctuated throughout by stunning images from artist Mikael Owunna s Infinite Essence series the book proposes and enacts a methodological attunement to Blackness that can guide theory policy and practice toward an alternative praxis for the benefit of Black living

The Embarrassment of Being Human Benjamin Boysen,2024-12-24 With the message that everything in a sense is alive thus allowing us to join forces with new politico ethical communities stretching across human and nonhuman realms the new materialisms have captivated the minds of many academics artists and intellectuals by stressing that it is time to return to a premodern mindset and discard modernity and its concepts of secularization autonomy and finitude The Embarrassment of Being Human not only demonstrates how these magical materialisms are beset by grave theoretical and practical inconsistencies and self contradictions It also demonstrates how their demand for humans to step down and allow for an emancipation of things qualifies the new materialisms as a metaphysics of neoliberalism that reproduces and fortifies the self contradictions rampant in the current neoliberal hegemony While helping us to gain a comprehensive understanding of the tenets of the eerie ills of our epoch the critique of the new materialisms can furthermore inspire us to appreciate how the exact inversion of the new materialist complex amounts to a revitalization of the modern project A revitalization that is critical to think our epoch differently

On Being Human Ray S. Anderson,2010-10-01

What does it mean to be human How does a right understanding of personhood affect decisions on critical life situations What implications does a biblical perspective on personhood have for the pastoral ministry of healing and hope In answering these questions Ray S Anderson focused on the person as determined by and sustained by the creative power of God He explored the the implications of a biblical understanding of personhood for such critical issues as human sexuality family relationships abortion and death He broke new ground in relating pastoral care and counseling to contemporary issues which challenge Christians and their understanding of the meaning of human life **Being Human** Rowan Williams, 2018-09-04

What is consciousness Is the mind a machine What makes each of us a person How do our bodies relate to our minds In this deeply engaging exploration of what it means to be human Rowan Williams addresses these frequently asked questions with lucid meditations that draw from findings in neuroscience philosophy psychology and literature Then he presses on to ask Might faith be necessary to human flourishing If so why And how can a traditional Christian practice namely silence help us advance on the path to human maturity The book ends with a brief but profound meditation on Christ s ascension inviting readers to consider how through Jesus our humanity in all its variety and vulnerability has been transfigured and taken into the heart of the divine life **Being Human** is a book that readers of all religious persuasions will find both challenging and highly rewarding Questions at the end of each chapter encourage personal reflection or group discussion **Being Human** Anna L. Peterson, 2001-05-26

Being Human is one of the few books that begins to integrate theological narratives with scientific ones looking for a compelling correlation between them where modern and religious sensibilities might both be affirmed This is a unique work Bron Taylor Professor and Director of Environmental Studies University of Wisconsin Oshkosh and author of *Ecological Resistance Movements: The Global Emergence of Radical and Popular Environmentalism* **Being Human** succeeds at accounting for people s conception of humanness and human s relationship with nature no easy task but one that is a crucial starting point for any discussion of environmental ethics Kay Read Associate Professor of Comparative Ethics and Native American Religions DePaul University and author of *Time and Sacrifice in the Aztec Cosmos* Anna Peterson s **Being Human** is a stellar work of integration Peterson argues that the ideology of human exceptionalism and disconnection from the rest of nature is a major source of social and ecological harm She draws together cultural constructionist Asian Native American feminist and evolutionary thought to present a view of the human as both an integral part of nature and a creator of culture called to develop an ethic of interrelationality for the sake of the wellbeing of the whole earth community Rosemary Radford Ruether Garrett Theological Center author of *Gaia and God: An Ecofeminist Theology of Earth Healing* In the postmodern academic climate of slice and dice take no prisoners analysis and critical theory Anna Peterson s book is a welcome breath of fresh air She positions her discussion as a development of rather than a deconstructive triumph over earlier work in the field of environmental philosophy Peterson takes up the themes that are absolutely central to the field the nature of nature human nature and the appropriate relationship between the two Her conclusions are well informed well

reasoned reasonable and last but not least beautifully and engagingly expressed Baird Callicott Professor of Philosophy and Religion Studies University of North Texas and author of *Earth's Insights: A Multicultural Survey of Ecological Ethics from the Mediterranean Basin to the Australian Outback* California 1997 *In Defense of the Land: Essays in Environmental Philosophy and Beyond the Land Ethic* More Essays in Environmental Philosophy Peterson challenges us to think critically about the ideas about nature and humanity that shape our ethical behavior She also brings into critical dialogue insights from a wide variety of religious traditions Buddhist Taoist Navaho Koyukon Catholic and Protestant Peterson helps us think creatively and critically about the task of comparative ethics and the imperatives of environmental ethics This book is a must read for any one concerned with environmental ethics and with comparative ethics Sharon Welch Professor of Religious Studies at the University of Missouri Columbia and author of *A Feminist Ethic of Risk: Sweet Dreams in America: Making Ethics and Spirituality Work* and *Communities of Resistance and Solidarity: A Feminist Theology of Liberation*

On Being Human Erich Fromm, 2013-02-26 An insightful look at alienation in the modern world from the New York Times bestselling author of *The Art of Loving* and *Escape from Freedom* Social psychologist Erich Fromm observed the spread of alienation in the 1960s arguing that humans who were once dynamic creative beings were reduced to fixating on TV screens emotionally paralyzed by anxieties over threats like nuclear war Though we may stare at different devices and worry about other dangers today his insights are as useful as ever and allow us to gain perspective on the human condition A collection of his writings on New Humanism and the need to reclaim our happiness and peace of mind this is a thoughtful fascinating overview of the past that shaped us and the philosophies and practices that can ensure a better future both for ourselves and for the world at large Included are reflections on thinkers from Karl Marx to medieval Catholic mystic Meister Eckhart as Fromm's large keen mind and attractive likable voice strive for heart as he asks himself the hardest questions of his day Kirkus Reviews This ebook features an illustrated biography of Erich Fromm including rare images and never before seen documents from the author's estate

Being Human in a Consumer Society Alejandro Néstor García Martínez, 2016-04-15 This book offers a new perspective on sociological studies of the consumer society introducing neglected normative questions relating to the good life and human flourishing subjects more commonly discussed in fields of moral political and social philosophy With attention to a wide range of subjects including postemotional law and responsibility dehumanised consumption and prosumerism fashion embodiment conspicuous consumption and sustainability this book analyzes the structural and cultural transformations that can be identified in consumer society It also offers a critical but not pessimistic view of the important question of whether consumption is leading to an increasing isolation individualization or commodification of human beings suggesting an analytical framework for understanding consumer culture and human praxis Bringing together work from across disciplines by scholars in the US Europe and the UK to engage with questions concerning our globalized and globalizing world where consumerism is a keystone for understanding our contemporary culture and its social structures

Being Human in a Consumer Society will appeal to scholars and students of sociology social theory and contemporary philosophy

Being Human J. Andrew Kirk, 2019-01-25 This book offers an introductory review to a wide range of thinking formulated over the last half millennium in the Western world about the meaning of human existence It will touch on a variety of issues of contemporary significance such as the origin and uniqueness of the human species freedom and determinism the nature of good and evil and the possibilities and limits of the sciences The book will supply a number of explanatory comments from a Christian perspective on the various views uncovered Insofar as human beings are fascinated by exploring the reality of their own selves in relation to history culture the natural environment and a variety of worldviews this book will afford readers plenty of material to stimulate them in their own exploration

A Master Class on Being Human Anthony Pinn, Brad Braxton, 2023-07-25 A conversation between 2 eminent Black thinkers on how to work together to make the world a better place despite deep religious differences Brad Braxton and Anthony Pinn represent two traditions Christianity and Secular Humanism respectively that have for centuries existed in bitter opposition For too long people with different worldviews have disparaged and harmed one another Instead of fighting each other Braxton and Pinn talk with listen to and learn from one another Their wide ranging conversation demonstrates the possibility of fruitful exchange that accounts for rather than masks their differences Written amid the Covid 19 pandemic threats to our democracy and national protests for racial justice *A Master Class on Being Human* shows us that constructive dialogue can help us pursue the common good without sacrificing our distinctive identities In conversations that are frank personal and deeply informed by scholarship Braxton and Pinn discuss topics that are urgent and immediate such as the ongoing violence against Black communities the rise of religiously unaffiliated communities the Black Lives Matter movement They also ponder those broader philosophical and theological questions that inform our politics and sense of what it means to be human the meaning of religion the stubborn dilemma of moral evil the power and problems of hope Braxton and Pinn invite us to join them in a master class as they strive to create a world where differences are not tolerated but instead celebrated In that kind of courageous classroom all can learn how to be better people who in turn transform the world into a better place

Being Human Richard Gross, 2019-03-20 While there may be no one single characteristic that differentiates humans as a species it is the combination of differences from other species that makes us unique The new edition of *Being Human* examines the psychology of being human through exploring different psychological traditions alongside philosophy and evolutionary theory covering themes such as culture cognition language morality and society Our nature or essence is something that has preoccupied human beings throughout our history beginning with philosophy and religion and continuing through the biological social and psychological sciences *Being Human* begins by describing some of the major philosophical accounts of human nature from Ancient Greek philosophers such as Plato and Aristotle to major British and Continental philosophers such as Locke and Nietzsche The book considers religious accounts of human nature with their focus on the nature of good

and evil and scientific accounts of genetics and the brain which underpin the distinctively human cognitive ability of language Attention then turns to the ideas of the behaviourists such as Skinner Freud and other psychodynamic psychologists and humanistic phenomenological psychologists such as Maslow Finally human culture is discussed as the ultimate defining characteristic of human beings culture represents our natural habitat and what defines us as a species This updated second edition includes increased coverage of social psychology and has a broader scope in order to identify the defining characteristics of human beings With reference to current psychological research and philosophical material this is fascinating reading for students of psychology philosophy and the social sciences
