Speaking Freely Angus Ellis Taylor, 2000 The Gold and the Blue, Volume One Clark Kerr, 2001-10-16 One of the last century's most influential figures in higher education Clark Kerr was a leading visionary architect leader and fighter for the University of California Chancellor of the Berkeley campus from 1952 to 1958 and president of the university from 1958 to 1967 Kerr saw the university through its golden years a time of both great advancement and great conflict This absorbing memoir is an intriguing insider's account of how the University of California rose to the peak of scientific and scholarly stature and how under Kerr's unique leadership the university evolved into the institution it is today In this first of two volumes Kerr describes the private life of the university from his first visit to Berkeley as a graduate student at Stanford in 1932 to his dismissal under Governor Ronald Reagan in 1967 Early in his tenure as a professor the Loyalty Oath issue erupted and the university particularly the Berkeley campus underwent its most difficult upheaval until the onset of the Free Speech Movement in 1964 Kerr discusses many pivotal developments including the impact of the GI Bill and the evolution of the much emulated 1960 California Master Plan for Higher Education He also discusses the movement for universal access to education and describes the establishment and growth of each of the nine campuses and the forces and visions that shaped their distinctive identities Kerr's perspective of more than fifty years puts him in a unique position to assess which of the academic structural and student life innovations of the 1950s and 1960s have proven successful and to consider what lessons about higher education we might learn from that period The second volume of the memoir will treat the public life of the university and the political context that conditioned its environment At Berkeley in the Sixties Jo Freeman, 2004 This book is a memoir and a history of Berkeley in the early Sixties As a young undergraduate Jo Freeman was a key participant in the growth of social activism at the University of California Berkeley The story is told with the you are there immediacy of Freeman the undergraduate but is put into historical and political context by Freeman the scholar 35 years later It draws heavily on documents created at the time letters reports interviews memos newspaper stories FBI files but is fleshed out with retrospective analysis As events unfold the campus conflicts of the Sixties take on a completely different cast one that may surprise many readers The Gold and the Blue, Volume Two Clark Kerr, 2003-02-24 The Los Angeles Times called the first volume of *The Gold and the Blue* a major contribution to our understanding of American research universities This second of two volumes continues the story of one of the last century's most influential figures in higher education A leading visionary architect leader and fighter for the University of California Clark Kerr was chancellor of the Berkeley campus from 1952 to 1958 and president of the university from 1958 to 1967 He saw the university through its golden years a time of both great advancement and great conflict This absorbing memoir is an intriguing insider's account of how the University of California rose to the peak of scientific and scholarly stature and how under Kerr's unique leadership it evolved into the institution it is today In Volume II Political Turmoil Kerr turns to the external and political environment of the 1950s and 1960s contrasting
