Speaking With The Devil Exploring Senseless Acts Of Evil:

Speaking with the Devil Carl Goldberg,1996 Goldberg s thorough examination of the genesis of evil raises questions confronted in Arendt s Eichmann in Jerusalem Fromm s The Heart of Man and Becker s Escape from Evil In this text he elaborates on arguments in those classics and draws on revealing case studies from his 25 years of clinical practice

Speaking with the Devil Carl Goldberg,1997 Provides a psychological explanation for behaviors associated with the concept of evil Draws on information from such areas as psychology philosophy literature and theology **Eroticisms** Jerry S. Piven,2003 Eroticisms Love Sex and Perversion explores the elusiveness of human sensuality In an era of conflicting moral relativism political correctness validation of lifestyle choices liberation hedonism and postmodern pansexualism versus resurgent puritanism conservatism fundamentalism and theological anti sexualism this fifth volume of Psychological Undercurrents of History penetrates current debates and delves into the past to grasp the viscous ambiguities of sexuality and reassess the question of whether the erotic can be perverse **Stone Cold Souls** Gregory K. Moffatt,2008-07-30

History s most notorious and brutal killers still enjoy fame as public fascination with their lives and their crimes continues to grow Stone Cold Souls is a detailed examination of the most brutal killers in history Moffatt does what he does best by looking at historical accounts of events analyzing them from a psychological perspective and presenting his assessment in captivating fashion He examines different types of killers offers case studies and historical context and describes what sets these cases apart from other kinds of killings Even in a day and age where pop culture has made serial crime a mainstay of movies and books the depravity of the killers profiled in this work will still shock even a desensitized reader Men women and children alike have committed crimes so atrocious that it is hard to imagine that these events are not works of fiction Moffatt examines the difficult questions that inevitably arise when one reads cases of unthinkable torture and cruelty Why Were these people simply evil or is it possible that given other circumstances they could have redirected their energies into more productive outlets The author answers these questions and others and reveals the lives and crimes of these ruthless killers Stone Cold Souls features such well known cases as Andrei Chikatilo Marc Dutroux Herman Webster Mudgett Charles Ng Leonard Lake Lawrence Bittaker Roy Norris Ed Gein Edmund Kemper Henry Lee Lucas Gilles de Rais Ivan the Terrible Richard Ramirez Holly Ann Harvey Sandy Ketchum Mary Bell Jesse Pomeroy Josef Mengele Marshall Applewhite Jeffrey Lundgren David Koresh Jim Jones Father Oliver O Grady Charles Cullin Harold Shipman Michael Swango Myra Hindley Karla Homolka Aileen Carol Lee Wuornos Elizabeth Bathory Charles Sobhraj Albert Fish Donald Harvey and Dennis Rader **The**

Crespo,2004-06-30 Morality is a subject most ignored and little understood by modern psychological investigation Why a

person acts honorably or heinously is one of the most puzzling and least answered questions regarding human behavior Here the authors posit that despite the fact that hatred and arrogance continually battle compassion and decency as humanity's driving force people continue to develop altruism empathy and concern for others Goldberg and Crespo demonstrate seven factors crucial to achieving a compassionate life Goldberg and Crespo take us inside their treatment rooms through history across cultures and into their own personal worlds at large to meet clients and acquaintances including a would be rapist a virtuous stalker an adulterous minister and a young boy with little more than a matchbook and some pride to call his own Together the stories of these clients and historical figures including Nazis at Nuremberg reflect a vital theme Virtuous behavior should not be a mystery Morality is a subject most ignored and little understood by modern psychological investigation Why a person acts honorably or heinously is one of the most puzzling and least answered questions regarding human behavior The authors demonstrate that although within every human breast hatred and arrogance battle compassion and decency as a driving force people do indeed develop altruism empathy and concern for others Goldberg and Crespo outline seven crucial factors in the achievement of a compassionate life This book addresses two audiences First it questions modern psychological scientists who have ignored the importance of compassion virtue and morality focusing instead on contrived experimental situations rather than pursuing investigations in as part of the actual world in which we live Yet it is also written for all people concerned with the moral crisis in contemporary society and all people seeking personal and social solutions to deal with this crisis

Engendered Death Joseph W. Laythe, 2011-12-16 Engendered Death

Pennsylvania Women Who Kill is an historical and interdisciplinary study of women who kill in Pennsylvania from the 18th century to the present It is not an examination of what motivates women to kill although the reader may deduce that from the case studies included Instead it is an examination of how society perceives women who kill and how the gender lens is applied to them throughout the legal process in the media and in the courtroom What makes this work particularly unique is its combination of both scholarly analysis and narrative case studies As such it will appeal to both the scholar and the reader of true crime non fiction If we are to recognize the complex variables at play in all criminal offenses we will need to understand that the laws of a community its social values its politics economics and even geography play a factor in what laws are enforced and against whom they are enforced The decision to define and label certain behaviors and certain people was based on social political and economic considerations of each community Thus the commission of murder by a woman in Arizona may have a variety of factors associated with it that are not present in the case of a woman who murdered her husband in Maine This study in part because of the volume of cases and in part to limit the variables affecting the cases has limited its scope of women killers to the state of Pennsylvania Pennsylvania is the ideal state to study because of its long and stable legal and political traditions its historically diverse population and the large number of newspapers that will help us gauge the public's view of women and women who kill By limiting our scope to one state we know that the legal definitions

are fairly consistent for all of the women during a certain period and we can more easily identify the shifts in social values regarding women and homicide **Jihad and Sacred Vengeance** Jerry S. Piven,Chris Boyd,Henry W. Lawton,2002

Learning to Forgive Walter R. Smith,2010-01-01 How do you forgive a person who has hurt your deeply Why forgive someone who does not deserve to be forgiven Forgiveness is not easy and often we discover that the person who needs to be forgiven the most is ourselves As we forgive others and ourselves we find that we are the ones who have benefited forgiveness brings a peace to our lives that no one can take away from us Learning to Forgive A Memoir of Doubt and Faith is the author s personal journey of forgiveness from a spiritual and psychological point of view The book shows the reader how they can use their relationship with God the resources of the Christian faith and their psychological understanding of themselves to learn how to forgive As readers see that pastors are not immune to the challenges of everyday life nor are they spared from abusive backgrounds they will be encouraged to embark on their own journeys of forgiveness or receive strength and hope for a journey already started *Intuitive Knowing as Spiritual Experience* Phillip H. Wiebe,2015-09-16 This book is Wiebe s defense of the claim that a significant form of spiritual experience is found in knowing something we have no right to know He selects forty five first hand accounts from a data base at the University of Wales to make his case and in solidarity with those people recounts something of his own experience
