The Sociology of Time John Hassard, 2016-07-27

The volume offers a comprehensive introduction to the sociology of time Based on selected contributions from leading writers it illustrates the range of issues and perspectives which define the field The volume traces distinct traditions of time analysis in social science and uses these to explain for example the development of capitalist time consciousness the ways we structure time in organizations and institutions and how our time perceptions change in line with changes in culture The book is for those who wish to understand how time comes to condition our everyday actions and affairs

understandings of time manifest themselves in the context of many individual social problems there is no single vision in sociology of how to grasp time and address within social theory This book therefore attempts to define an approach to the concept of time and its associated terms duration temporality acceleration compression temporal structures change historical consciousness and others The volume is guided by a critical engagement with three main questions a the formation of human understanding of time b the functioning of temporal structures at different levels of social reality c the role and place of time in general sociological theory

Disorganization Theory John Hassard, Mihaela Kelemen, Julie Wolfram Cox, 2008 The book presents a series of epistemological conceptual and methodological explorations appropriate to the development of critical organizational analysis

Explaining Social Processes Jiří Šubrt, Alemayehu Kumsa, Massimiliano Ruzzeddu, 2020-08-18 This textbook considers understanding social processes to be the main task of sociology From this perspective its authors demonstrate and explain problems which they consider to be crucial for contemporary social science These are topics of a theoretical and epistemological nature which are nevertheless closely connected with social development and issues arising from it The book moves from the more general theoretical questions and dilemmas raised by key social thinkers such as those connected with the concepts of actor agency institutions structures and systems It then leads to theoretical reflections on long term developmental processes associated with the phenomena of power and life in current societies including globalization identities migration etc It provides a comprehensive approach to the essential questions of sociology Lucidly written and including the latest sociological perspectives this book will find wide appeal among social science students and researchers and is also for the socially aware general reader
