Speculative Notes Notes On Speculation:

Speculative Notes, and Notes on Speculation, Ideal and Real David Morier Evans, 1864 **Speculative Notes and Notes on Speculation, ideal and real** David Morier EVANS, 1861 Speculative Biography Donna Lee Brien, Kiera Lindsey, 2021-09-30 While speculation has always been crucial to biography it has often been neglected denied or misunderstood This edited collection brings together a group of international biographers to discuss how and why each uses speculation in their work whether this is to conceptualise a project in its early stages work with scanty or deliberately deceptive sources or address issues associated with shy or stubborn subjects After defining the role of speculation in biography the volume offers a series of work in progress case studies that discuss the challenges biographers encounter and address in their work In addition to defining the speculative spectrum within the biographical endeavour the collection offers a lexicon of new terms to describe different types of biographical speculation and more deeply engage with the dynamic interplay between research subjectivity and that which Natalie Zemon Davis dubbed informed imagination By mapping the field of speculative biography the collection demonstrates that speculation is not only innate to biographical practice but also key to rendering the complex mystery of biographical subjects be they human animal or even metaphysical The Bankers' Magazine, and Journal of the Money Market , 1848 **The Social Sciences** , 1914 *Bankers' Magazine, Journal of the Money Market and Commercial Digest* , 1863 *Ready to Trample on All Human Law* Paul A. Jarvie, 2014-02-04 This book explores the relationship between Dickens s novels and the financial system Elements of Dickens s work form a critique of financial capitalism This critique is rooted in the difference between use value and exchange value and in the difference between productive circulations and mere accumulation In a money based society exchange value and accumulation dominate to the point where they infect even the most important and sacred relationships between parts of society and individuals This study explores Dickens s critique from two very different points of view The first is philosophical from Aristotle s distinction between chrematistic accumulation and economic use on money through Marx s focus on the teleology of capitalism as death The second view is that of nineteenth century financial journalism of City writers like David Morier Evans and M L Meason who while functioning as cheerleaders for financial capitalism also reflected some of the very real disease associated with capital formation and accumulation The core concepts of this critique are constant in the novels but the critique broadens and becomes more pessimistic over time The ill effects of living in a money based society are presented more as the consequences of individual evil in earlier novels while in the later books they are depicted as systemic and pervasive Texts discussed include *Nicholas Nickleby* *A Christmas Carol* *Little Dorrit* and *Our Mutual Friend* **The Social Sciences** Chicago Public Library, 1914 **The reader's guide in economic, social, and political science, ed. by R.R. Bowker and G. Iles** Richard Rogers Bowker, 1891 **Our Mutual Friend** Charles Dickens, 1865
