The story of an academic discipline is usually conveyed in grand movements and long spans but it can also be told through the lives of individual scholars through the development of specialties through the creation and change of departments and through the formation and transformation of organizations Using twelve histories of micro

dimensions of communication studies this volume shows how sometimes small decisions single scholars individual departments and marginalized voices can have dramatic roles in the history and future of an academic discipline As a compilation of micro histories with macro lessons this volume stands alone in communication studies Read as a companion to A Century of Communication Studies the National Communication Association s centennial volume it offers rich detail missing links and local narratives that fully flesh out the discipline In either case no education in communication studies is complete without an understanding of the themes challenges and triumphs embodied by the twelve micro histories offered in this book This book was originally published as two special issues of Review of Communication      *Speech Communication* Raymond Samuel Ross,1986      *Speech Communication* Ernest G.
