used as a specific site in which to examine how children's bodies are disciplined to become literate. This is not a book that theorizes space-time discipline bodies and literacy in abstract ways. Rather, working from a Foucaultian premise that discipline is directed onto children's bodies, it moves from theory to practice. Photographs, lesson transcripts, interviews, and children's work show how teachers' practices are enacted on children's bodies in time and space. In this way, teachers are offered practical examples from which to think about their own classrooms and classroom practice and to reflect on what works, why it works, and what can be changed.
