

A woman with glasses and a green headband is shown in a state of spiritual fervor, with her mouth open as if speaking in tongues and her hands raised high in the air. She is wearing a dark purple t-shirt. In the background, other people are visible, some with their hands raised, suggesting a church service or a similar religious gathering. The lighting is dim, with a blue tint, creating a solemn and focused atmosphere.

*Russian and American Poetry of Experiment* Vladimir Feshchenko, 2023-07-17 An experiment with language Is it an object cultivated in poetic laboratories where entry is locked for mere mortals And what do language scholars think about it Specialists in language and literature studies interested in linguistic innovation and experimental poetry will find answers to these questions in Vladimir Feshchenko's book The study investigates various strategies of radical linguistic creativity in Russian and American experimental writing of the 20th century and explores cases of contemporary language oriented and trans language poetry It is a comparative examination of two national avant garde cultures but also a juxtaposition of the relationships that Russian and American avant garde poetics had with linguistic ideas of their times The monograph may serve as a wonderful introduction to the entire field of linguistic poetics of the avant garde      **Contemporary Poetry** Nerys Williams, 2011-04-06 Discussing the work of more than 60 poets from the US UK Ireland Australia New Zealand and the Caribbean Nerys Williams guides students through the key ideas and movements in the study of poetry today

The Princeton Encyclopedia of Poetry and Poetics Stephen Cushman, Clare Cavanagh, Jahan Ramazani, Paul Rouzer, 2012-08-26. The most important poetry reference for more than four decades now fully updated for the twenty first century. Through three editions over more than four decades, *The Princeton Encyclopedia of Poetry and Poetics* has built an unrivaled reputation as the most comprehensive and authoritative reference for students, scholars, and poets on all aspects of its subject: history, movements, genres, prosody, rhetorical devices, critical terms, and more. Now this landmark work has been thoroughly revised and updated for the twenty first century. Compiled by an entirely new team of editors, the fourth edition, the first new edition in almost twenty years, reflects recent changes in literary and cultural studies, providing up to date coverage and giving greater attention to the international aspects of poetry, all while preserving the best of the previous volumes. At well over a million words and more than 1 000 entries, the *Encyclopedia* has unparalleled breadth and depth. Entries range in length from brief paragraphs to major essays of 15 000 words, offering a more thorough treatment including expert synthesis and indispensable bibliographies than conventional handbooks or dictionaries. This is a book that no reader or writer of poetry will want to be without. Thoroughly revised and updated by a new editorial team for twenty first century students, scholars, and poets. More than 250 new entries cover recent terms, movements, and related topics. Broader international coverage includes articles on the poetries of more than 110 nations, regions, and languages. Expanded coverage of poetries of the non Western and developing worlds. Updated bibliographies and cross references. New, easier to use page design. Fully indexed for the first time.

*Language Through the Looking Glass* Marina Yaguello, 1998. To play with language is to break its rules, disrupt its patterns, exploit its weak points. Thus paradoxically, puns and spoonerisms, neologisms, and slogans reveal and highlight the patterns to which discourse conforms, patterns which reflect the linguistic competence of language speakers. Only those who have linguistic competence can play with it; thus language games and the poetic use of language are underpinned by unconscious use of linguistic analysis. Using Lewis Carroll's *Alice* as a starting point, Marina Yaguello takes the reader on an unconventional voyage around language, charting the major themes of linguistics on the way. She shows that we can come to an understanding of language in general and of particular languages through exploring the devices of humour, word games, and poetry devices which reveal the unconscious linguist in all of us. The result is an entertaining but rigorous introduction to language and linguistics for non specialists and students alike.

The Hand at Work Susanne Strätling, 2021-12-14. *Art New Vision*. This formula shaped the avant garde. With moving images abruptly expanding the boundaries of the visible world, new printing techniques triggering a pictorial turn in graphic art and literature.

becoming almost inseparable from visual media we still regard the avant garde as heyday for modernism's obsession with the eye But what are the blind spots of this optocentrism Focusing on the gestures of giving touching showing and handcrafting this study examines key scenes of tactile interaction between subject and artifact Hand movements manual maneuvers and manipulations challenge optics and expose the crises of a visually dominated perspective on the arts The readings of this book call for a revision of an optically obscured aesthetics and poetics to include haptic experience as an often overlooked but pivotal part of the making as well as the perception of literature and the arts     *Literature and the Senses* Annette Kern-Stähler, Elizabeth Robertson, 2023 This collection of essays breaks new ground in the field of sensory studies Organized around the five traditional senses followed by a section on multisensoriality the collection facilitates a dialogue between scholars working on literature written from the Middle Ages to the present day
