Spectacle Society In Livy's History:

Spectacle and Society in Livy's History Andrew Feldherr, 1998-08-15 Public spectacle from the morning rituals of the Roman noble to triumphs and the shows of the Arena formed a crucial component of the language of power in ancient Rome The historian Livy c 60 B C E 17 C E who provides our fullest description of Rome's early history presents his account of the growth of the Roman state itself as something to be seen a visual monument and public spectacle Through analysis of several episodes in Livy's History Andrew Feldherr demonstrates the ways in which Livy uses specific visual imagery to make the reader not only an observer of certain key events in Roman history but also a participant in those events This innovative study incorporates recent literary and cultural theory with detailed historical analysis to put an ancient text into dialogue with contemporary discussions of visual culture In Spectacle and Society in Livy's History Feldherr shows how Livy uses the literary representation of spectacles from the Roman past to construct a new sense of civic identity among his readers He offers a new way of understanding how Livy's technique addressed the political and cultural needs of Roman citizens in Livy's day In addition to renewing our understanding of Livy through modern scholarship Feldherr provides a new assessment of the historian's aims and methods by asking what it means for the historian to make readers spectators of history

Spectacle and Society in Livy's History Andrew Feldherr, 2003 Spectacle and Society in Livy's History Andrew Mark Feldherr, 1991 **Mythistory** Joseph Mali, 2003-05 Ever since Herodotus declared in *Histories* that to preserve the memories of the great achievements of the Greeks and other nations he would count on their own stories historians have debated whether and how they should deal with myth Most have sided with Thucydides who denounced myth as unscientific and banished it from historiography In *Mythistory* Joseph Mali revives this oldest controversy in historiography Contesting the conventional opposition between myth and history Mali advocates instead for a historiography that reconciles the two and recognizes the crucial role that myth plays in the construction of personal and communal identities The task of historiography he argues is to illuminate not eliminate these fictions by showing how they have passed into and shaped historical reality Drawing on the works of modern theorists and artists of myth such as Nietzsche and Wittgenstein Joyce and Eliot Mali redefines modern historiography and relates it to the older notion and tradition of mythistory Tracing the origins and transformations of this historiographical tradition from the ancient world to the modern Mali shows how Livy and Machiavelli sought to recover true history from uncertain myth and how Vico and Michelet then reversed this pattern of inquiry seeking instead to recover a deeper and truer myth from uncertain history In the heart of *Mythistory* Mali turns his attention to four thinkers who rediscovered myth in and for modern cultural history Jacob Burckhardt Aby Warburg Ernst Kantorowicz and Walter Benjamin His elaboration of the different biographical and historiographical routes by which all four sought to account for the persistence and significance of myth in Western civilization opens up new perspectives for an alternative intellectual history of modernity one that may better explain the proliferation of mythic imageries of redemption

in our secular all too secular times **Rome's Armies to the Death of Augustus** Tony McArthur,2024-09-30 National armies as we know them today are a comparatively recent development It has been assumed that the Romans had an army similar to the national institutions of advanced almost exclusively European powers at the end of the nineteenth century But the assumption was wrong as is the belief that changes seen in the armies can be explained because the Romans reformed their armies Up to the death of Augustus the Romans had no permanent military forces Roman armies were raised for particular campaigns and disbanded at their conclusion Repeated campaigns were conducted in places like northern Italy and Spain but the armies were always disbanded These armies were not seen by Romans as part of a national institution as modern armies are they were simply a part of the life of a Roman citizen like religion or elections These armies were more like a militia than a national army There is little evidence even of systematic training and what changes can be detected can be better explained by contingent adaptation to circumstances rather than reform The emperor Augustus is commonly seen as the originator of the imperial armies but it was an unintended outcome of a long life Spectacles of Empire Christopher A. Frilingos,2013-03-25 The book of Revelation presents a daunting picture of the destruction of the world complete with clashing gods a multiheaded beast armies of heaven and the final judgment of mankind The bizarre conclusion to the New Testament is routinely cited as an example of the early Christian renunciation of the might and values of Rome But Christopher A Frilingos contends that Revelation s relationship to its ancient environment was a rather more complex one In Spectacles of Empire he argues that the public displays of the Roman Empire the games of the arena the execution of criminals the civic veneration of the emperor offer a plausible context for reading Revelation Like the spectacles that attracted audiences from one end of the Mediterranean Sea to the other Revelation shares a preoccupation with matters of spectatorship domination and masculinity Scholars have long noted that in promising a complete reversal of fortune to an oppressed minority Revelation has provided inspiration to Christians of all kinds from liberation theologians protesting globalization to the medieval Apostolic Brethren facing death at the stake But Frilingos approaches the Apocalypse from a different angle arguing that Revelation was not merely a rejection of the Roman world in favor of a Christian one rather its visions of monsters and martyrs were the product of an empire whose subjects were trained to dominate the threatening other By comparing images in Revelation to those in other Roman era literature such as Greek romances and martyr accounts Frilingos reveals a society preoccupied with seeing and being seen At the same time he shows how Revelation calls attention to both the risk and the allure of taking in a show in a society which emphasized the careful scrutiny of one s friends enemies and self Ancient spectators Frilingos notes whether seated in an arena or standing at a distance as Babylon burned frequently discovered that they themselves had become part of the performance Contested Triumphs Miriam R. Pelikan Pittenger,2009-02-10 This pathbreaking analysis of Roman political culture in the middle Republic focuses on the concerns of the Roman Senate as it decided whether or not to award a victorious general triumphal honors Miriam R Pelikan

Pittenger's strikingly original approach illuminates this process by examining several Senate debates as reported by the historian Livy. The conduct of these debates illustrates the competitive ethos in the elite and mirrors creative tensions between the magistrates, the Senate, and the people of Rome. *Contested Triumphs* shows how Livy dramatized the process of history in the making and vividly demonstrates how it is the struggle itself that remains most vital. Livy Jane D.

Chaplin, Christina S. Kraus, 2009-05-07 The essays in this volume have been selected and arranged to provide students with an introduction to the historiographical study of the Roman historian Livy. All classics in their own right, the eighteen articles included here work together to present a picture of this creative and acutely observant historian writing during the Augustan principate. The editors have provided an introductory guide to previous Livian scholarship which contextualizes each essay; each is also followed by an addendum providing further context and selected suggestions for further reading. **A**

Commentary on Livy, Books VI-X S. P. Oakley, 2005-10-13 Livy's tenth book, an exciting climax to his first decade, narrates two political advances of 300 BC: the *Lex Valeria de provocatione* and the opening up of major priesthoods to plebeians. It also tells of the Spartan Cleonymus' landfall at the site that long afterwards would be Venice. Its main topic, however, is Roman warfare: above all, the outbreak of the Third Samnite War and the decisive battle of Sentium in 295 BC. This new commentary, which completes Professor Oakley's exposition of Books VI-X, deals comprehensively with all aspects of Livy's work, including the literary structure of his narrative, the historical and topographical problems of the Samnite Wars, the poetical and archaic language sometimes affected by Livy, and the numerous textual problems posed by the extant manuscripts. An extensive section of addenda and corrigenda contains revisions to the preceding volumes. **Water Culture in Roman Society** Dylan

Kelby Rogers, 2018-07-17 Water played an important part of ancient Roman life, from providing necessary drinking water, supplying bath complexes, to flowing in large-scale public fountains. The Roman culture of water was seen throughout the Roman Empire, although it was certainly not monolithic and it could come in a variety of scales and forms based on climatic and social conditions of different areas. This article seeks to define water culture in Roman society by examining literary, epigraphic, and archaeological evidence while understanding modern trends in scholarship related to the study of Roman water. The culture of water can be demonstrated through expressions of power, aesthetics, and spectacle. Further, there was a shared experience of water in the empire that could be expressed through religion, landscape, and water's role in cultures of consumption and pleasure.
