The Notebooks of Robert Frost Robert Frost, 2007-01-01 During his lifetime Robert Frost notoriously resisted collecting his prose going so far as to halt the publication of one prepared compilation and to lose the transcripts of the Charles Eliot Norton Lectures he delivered at Harvard in 1936 But for all his qualms Frost conceded to his son that you can say a lot in prose that verse won't let you say and that the prose he had written had in fact made good competition for his verse This volume the first critical edition of Robert Frost's prose allows readers and scholars to appreciate the great American author's forays beyond poetry and to discover in the prose that he did make public in newspapers magazines journals speeches and books the wit force and grace that made his poetry famous The *Collected Prose of Robert Frost* offers an extensive and illuminating body of work ranging from juvenilia Frost's contributions to his high school *Bulletin* to the charming chicken stories he wrote as a young family man for *The Eastern Poultryman* and *Farm Poultry* to such famous essays as *The Figure a Poem Makes* and the speeches and contributions to magazines solicited when he had become the Grand Old Man of American letters Gathered annotated and cross referenced by Mark Richardson the collection is based on extensive work in archives of Frost's manuscripts It provides detailed notes on the author's habits of composition and on important textual issues and includes much previously unpublished material It is a book of boundless appeal and importance one that should find a home on the bookshelf of anyone interested in Frost

Journals and Miscellaneous Notebooks of Ralph Waldo Emerson, Volume IV: 1832-1834 Ralph Waldo Emerson, 1964 Ralph Waldo Emerson's decision to quit the ministry arrived at painfully during the summer and fall of 1832 was accompanied by illness so severe that he was forced to give up any immediate thought of a new career Instead in December he embarked on a tour of Europe that was to take him to Italy France Scotland and England Within a year after his return in the fall of 1833 his health largely restored he went to live in the town of Concord his home from then on The record of Emerson's ten months in Europe which makes up a large part of this book is unusually detailed and personal actually a diary recording what Emerson saw and did as well as what he thought He describes cities scenes and buildings that he found striking in one way or another and he gives impressions of the people he

met During his travels he made the acquaintance of Landor of Lafayette and of Carlyle Wordsworth and Coleridge all of whom stimulated him In Paris he was so much stirred by a visit to the Jardin des Plantes that he determined to become a naturalist On his return to America still without a profession he reverted in his journals to the more impersonal form they had taken in his days as a minister focusing on his inner experiences rather than on external events Notes start dotting the pages once again this time not so much for future sermons although for years he did a certain amount of occasional preaching as for the addresses of the public lecturer he would soon become Through the thirty four months covered by this volume the journals continue to be the advancing record of Emerson s mind demonstrating a growing maturity and firmness of style by compression and aphorism
