Sociocultural and Historical Contexts of African American English Sonja L. Lanehart, 2001-01-01 This volume based on presentations at a 1998 state of the art conference at the University of Georgia critically examines African American English (AAE) socially culturally historically and educationally It explores the relationship between AAE and other varieties of English namely Southern White Vernaculars Gullah and Caribbean English creoles language use in the African American community e.g. Hip Hop women's language and directness and application of our knowledge about AAE to issues in education e.g. improving overall academic

Shujaa, 2015-07-13 The Encyclopedia of African Cultural Heritage in North America provides an accessible ready reference on the retention and continuity of African culture within the United States Our conceptual framework holds first that culture is a form of self knowledge and knowledge about self in the world as transmitted from one person to another Second that African people continuously create their own cultural history as they move through time and space Third that African descended people living outside of Africa are also contributors to and participate in the creation of African cultural history Entries focus on illuminating Africanisms cultural retentions traceable to an African origin and cultural continuities ongoing practices and processes through which African culture continues to be created and formed Thus the focus is more culturally specific and less concerned with the broader transatlantic demographic political and geographic issues that are the focus of similar recent reference works We also focus less on biographies of individuals and political and economic ties and more on processes and manifestations of African cultural heritage and continuity FEATURES A two volume A to Z work available in a choice of print or electronic formats 350 signed entries each concluding with Cross references and Further Readings 150 figures and photos Front matter consisting of an Introduction and a Reader's Guide organizing entries thematically to more easily guide users to related entries Signed articles concluding with cross references *Languages and Dialects in the U.S.*

Carey, 2016-10-04 Reveals the rhetorical strategies

African American writers have used to promote Black women's recovery and wellness through educational and entertainment genres and the conservative gender politics that are distributed when these efforts are sold for public consumption. Since the Black women's literary renaissance ended nearly three decades ago, a profitable and expansive market of self-help books, inspirational literature, family-friendly plays, and films marketed to Black women has emerged. Through messages of hope and responsibility, the writers of these texts develop templates that tap into legacies of literacy as activism, preaching techniques, and narrative formulas to teach strategies for overcoming personal traumas or dilemmas and resuming one's quality of life. Drawing upon Black vernacular culture as well as scholarship in rhetorical theory, literacy studies, Black feminism, literary theory, and cultural studies, Tamika L. Carey deftly traces discourses on healing within the writings and teachings of such figures as Oprah Winfrey, Iyanla Vanzant, T. D. Jakes, and Tyler Perry, revealing the arguments and curricula they rely on to engage Black women and guide them to an idealized conception of wellness. As Carey demonstrates, Black women's wellness campaigns indicate how African Americans use rhetorical education to solve social problems within their communities and the complex gender politics that are mass-produced when these efforts are commercialized.

Decolonizing Linguistics Anne H. Charity-Hudley, Christine Mallinson, Mary Bucholtz, 2024. This is an open access title available under the terms of a CC BY-NC-ND 4.0 International license. It is free to read at Oxford Academic and offered as a free PDF download from OUP and selected open access locations. *Decolonizing Linguistics*, the companion volume to *Inclusion in Linguistics*, is designed to uncover and intervene in the history and ongoing legacy of colonization and colonial thinking in linguistics and related fields. Taken together, the two volumes are the first comprehensive action-oriented book-length discussions of how to advance social justice in all aspects of the discipline. The introduction to *Decolonizing Linguistics* theorizes decolonization as the process of centering Black, Native, and Indigenous perspectives; describes the extensive dialogic and collaborative process through which the volume was developed; and lays out key principles for decolonizing linguistic research and teaching. The twenty chapters cover a wide range of languages and linguistic contexts, e.g., Bantu languages, Creoles, Dominican Spanish, Francophone Africa, Zapotec, as well as various disciplines and subfields: applied linguistics, communication, historical linguistics, language documentation and revitalization, reclamation, psycholinguistics, sociolinguistics, syntax. Contributors address such topics as refusing settler colonial practices and centering community goals in research on Indigenous languages; decolonizing research partnerships between the Global South and the Global North; and prioritizing Black diasporic perspectives in linguistics. The volume's conclusion lays out specific actions that linguists can take through research, teaching, and institutional structures to refuse coloniality in linguistics and to move the field toward a decolonized future.
