Sister Death Beatrice Marovich,2023-02-07 Winner 2024 Bela Kornitzer Alumni Award Drew University Life and death are commonly seen as representing the starkest of binaries Death is the ultimate adversary of all that lives Beatrice Marovich argues that such understandings of mortality have been deeply influenced by a strain of Christian political theology that has left its mark on both religious and secular narratives Adapting the figure of Sister Death from Saint Francis of Assisi she calls for recognizing that life and death are family Drawing on a wide range of sources from Toni Morrison to Jacques Derrida psychoanalysis to grassroots death positive movements Marovich critiques a racialized political theology that pits life and death against each other in a state of endless war In a time of extinctions it is necessary to disrupt this dominant story in order to apprehend death as a collective multispecies event Sister Death proposes an alternative view in which life and death are not mortal enemies destined for mutual destruction Instead they are engaged in a contested tense and sometimes mutually empowering form of connection a sisterhood Eloquent and approachable this book deftly integrates the insights of a number of disciplines to provide a profound reconsideration of the relations between life and death Sister Death also features a series of original works by the artist Krista Dragomer that stage an ongoing conceptual conversation with the text

The Soul of the Organization David B. Zenoff, 2014-03-01 Given the opportunity to describe Apple as a company in just a word or two most would respond with adjectives like Innovative Design conscious Iconic Some would probably even say Secretive But here is another Soulful Yes Apple has a soul and it is not alone in that respect A select few organizations can similarly be said to exhibit similar qualities of soul that inspire passion in their employees and set them on the path to high levels of sustained organizational performance But given that most organizations are plagued by low levels of employee engagement and lackluster organizational performance how do high performing organizations do it How do they ignite and sustain employee engagement and boost individual and overall organizational productivity That is exactly the question that organizational expert David B Zenoff sets out to answer in *The Soul of the Organization* Based on the author's extensive experience consulting to and observing some of the best known organizations in the world *The Soul of the Organization* www.souloftheorganization.com journeys into eleven high performing organizations operating in both the for profit and not for profit worlds to determine the underlying elements of soul that foster strong employee engagement at all levels What Zenoff finds in his inquiry is that organizations as different as home goods retailer Williams Sonoma and not for profit group Larkin Street Youth Services all share in common five key elements of soul that taken together are powerful forces for fostering employee engagement satisfaction and meaning And he doesn't stop once he has identified the five core elements of an organization's soul Instead he goes on to offer both a conceptual framework and a practical primer on how to leverage these key ingredients to create sustain and nourish a soul in your organization Organizations of all stripes and in all industries and domains have great difficulty motivating their workforces to demonstrate a strong commitment to giving their all in the workplace As a result these organizations overall productivity and growth are compromised and their employees cannot find meaning or satisfaction in their work If your organization struggles with sub par employee loyalty commitment and drive you will find the guidance you need in *The Soul of the Organization* a guide to infusing into your workplace that special something that engages employees drives their productivity and taps into their collective well of potential so that your organization can make its mark on the world
