Site Matters Carol Burns, Andrea Kahn, 2005-07-08 This volume through theoretical essays and empirically grounded pieces on Le Corbusier's designs contemporary suburbs and the planning agendas of the World Trade Center site provides theory on the appreciation of site and context in architecture Site Matters Andrea Kahn, Carol J. Burns, 2020-12-21 In the era of the Anthropocene site matters are more pressing than ever Building on the concepts theories and multi disciplinary approaches raised in the first edition this publication strives to address the changes that have taken place over the last 15 years with new material to complement and re position the initial volume Reaching across design disciplines this highly illustrated anthology assembles essays from architects landscape architects urban designers planners historians and artists to explore ways to physically and conceptually engage site Thoughtful discourse and empirically grounded pieces combine to provide the language and theory to contextualize the meanings of site in the built environment. The increasingly complex hybridity of constructed environments today demands new tools for thinking about and working with site Drawing contributions from outside and within the traditional design disciplines this edition will trace important developments in site thinking with new essays on topics such as climate change landscape as infrastructure shifts from global to planetary urbanization debates and the proliferation of participatory site transformation practices Edited by two leading practitioners and academics Site Matters juxtaposes timeless contributions from individuals including Elizabeth Meyer Robert Beauregard and Robin Dripps with original new writings from Peter Marcuse Jane Wolff Neil Brenner and Thaisa Way amongst others to recontextualize and reignite the debate around site An ideal text for students academics and researchers interested in site **How the Page Matters** Bonnie Mak, 2011-01-01 From handwritten texts to online books the page has and design theory been a standard interface for transmitting knowledge for over two millennia It is also a dynamic device readily transformed to suit the needs of contemporary readers In How the Page Matters Bonnie Mak explores how changing technology has affected the reception of visual and written information Mak examines the fifteenth century Latin text Controversia de nobilitate in three forms as a manuscript a printed work and a digital edition Transcending boundaries of time and language How the Page Matters connects technology with tradition using innovative new media theories While historicizing contemporary digital culture and asking how on screen combinations of image and text affect the way conveyed information is understood Mak's elegant analysis proves both the timeliness of studying interface design and the persistence of the page as a communication mechanism Site Matters Carol Burns, Andrea Kahn, 2005 This volume through theoretical essays and empirically grounded pieces on Le Corbusier's designs contemporary suburbs and the planning agendas of the World Trade Center site provides theory on the appreciation of site and context in architecture **Art Matters** Pamela Gordon, 2023-10-13 Art Matters enables students to experience art actively and meaningfully weaving together innovative pedagogy and compelling stories about a wide assortment of artworks and artists to show students that art is everywhere art
