The Oxford History of Protestant Dissenting Traditions, Volume III Timothy Larsen, Michael Ledger-Lomas, 2017-04-28. The five-volume Oxford History of Dissenting Protestant Traditions series is governed by a motif of migration out of England. It first traces organized church traditions that arose in England as Dissenters distanced themselves from a state church defined by diocesan episcopacy, the Book of Common Prayer, the Thirty-Nine Articles, and royal supremacy, but then follows those traditions as they spread beyond England and also traces newer traditions that emerged downstream in other parts of the world from earlier forms of Dissent. Secondly, it does the same for the doctrines, church practices, stances toward state and society, attitudes toward Scripture, and characteristic patterns of organization that also originated in earlier English Dissent but that have often defined a trajectory of influence independent ecclesiastical organizations. The Oxford History of Protestant Dissenting Traditions, Volume III considers the Dissenting traditions of the United Kingdom, the British Empire, and the United States in the nineteenth century. It provides an overview of the historiography on Dissent while making the case for seeing Dissenters in different Anglophone connections as interconnected and conscious of their genealogical connections. The nineteenth century saw the creation of a vast Anglo world which also brought Anglophone Dissent to its apogee. Featuring contributions from a team of leading scholars, the volume illustrates that in most parts of the world, the later nineteenth century was marked by a growing enthusiasm for the moral and educational activism of the state, which played against the idea of Dissent as a static, purely negative identity. This collection shows that Dissent was a political and constitutional identity which was often only strong where a dominant Church of England existed to dissent against.

Drink in Canada Cheryl Krasnick Warsh, 1993-10-15. Through an international comparison, Cheryl Warsh introduces the major themes in both historical and anthropological studies of beverage alcohol use. In a separate essay, she describes the stigma attached to female alcoholism, particularly its association with prostitution and child neglect. James Sturgis presents the collective biography of the Rennie brothers, who fell victim to alcoholism while attempting to make their fortunes in the late nineteenth-century boom-bust economies of Canada and the United States. Jim Baumohl recounts attempts to establish institutions for alcoholics on the model of insane asylums. Jan Noel describes the revivals organized by Father Chiniguy, a Catholic evangelist, which swept Lower Canada in the 1840s, unifying a French Canadian populace threatened by the rapid influx of Anglophone settlers. Glenn Lockwood pursues a similar theme in his essay, concluding that Ottawa Valley temperance lodges solidified loyalist American opposition to immigrant competitors for regional dominance. Jacques Paul Couturier analyses the regulation of prohibition in a mixed Anglophone Acadian community. Ernest Forbes demonstrates that Canadian and American prohibition provided vital economic opportunities during the prolonged Maritime depression. Finally, Robert Campbell surveys the post-prohibition experience of state monopoly.

John W. Compton,2020-07-01 How did white evangelicals a group that had once rallied national support for the federal minimum wage and progressive child labor laws vote overwhelmingly for Donald Trump in 2016 In *The End of Empathy* John W Compton presents a nuanced portrait of the changing values of evangelical voters over the last century To explain the rise of white Protestant social concern in the latter part of the nineteenth century and its sudden demise at the end of the twentieth Compton argues that religious conviction by itself is rarely sufficient to motivate empathetic political behavior When believers do act empathetically championing reforms that transfer resources or political influence to less privileged groups within society for example it is typically because strong religious institutions have compelled them to do so Gale Researcher Guide for: Social Reform Edward L.
