

## Geography

Geography is the study of the Earth and its features. It includes the study of the physical features of the Earth, such as mountains, rivers, and oceans, and the human features, such as cities, roads, and agriculture. Geography also includes the study of the distribution of people and things across the Earth. Geography is a multidisciplinary field that draws on knowledge from other fields, such as history, biology, and chemistry, to understand the Earth and its features.
