Louv, 2012-04-24 For many of us thinking about the future conjures up images of Cormac McCarthy's *The Road* a post apocalyptic dystopia stripped of nature Richard Louv author of the landmark bestseller *Last Child in the Woods* urges us to change our vision of the future suggesting that if we reconceive environmentalism and sustainability they will evolve into a larger movement that will touch every part of society This New Nature Movement taps into the restorative powers of the natural world to boost mental acuity and creativity promote health and wellness build smarter and more sustainable businesses communities and economies and ultimately strengthen human bonds Supported by groundbreaking research anecdotal evidence and compelling personal stories Louv offers renewed optimism while challenging us to rethink the way we live The Nature of Life and Its Potential to Survive David S. Stevenson, 2017-05-25 This book looks at the persistence of life and how difficult it would be to annihilate life especially a species as successful as humanity The idea that life in general is fragile is challenged by the hardiness of microbes which shows that astrobiology on exoplanets and other satellites must be robust and plentiful Microbes have adapted to virtually every niche on the planet from the deep hot biosphere to the frigid heights of the upper troposphere Life it seems is almost indestructible The chapters in this work examine the various scenarios that might lead to the extermination of life and why they will almost always fail Life's highly adaptive nature ensures that it will cling on no matter how difficult the circumstances Scientists are increasingly probing and questioning life's true limits in on and above the Earth and how these limits could be pushed elsewhere in the universe This investigation puts life in its true astronomical context with the reader taken on a journey to illustrate life's potential and perseverance

Child Sexual Abuse Reported by Adult Survivors Sinéad Ring, Kate Gleeson, Kim Stevenson, 2022-04-28 Child Sexual

Abuse Reported by Adult Survivors is a wide ranging and timely critical history and analysis of legal responses to historical or non recent child sexual abuse NRCSA in England and Wales Ireland and Australia each of which represents an evolving and progressive approach to this important and complex issue The book examines the emergence of NRCSA as a distinctive social political and legal phenomenon in each country and explores the legal responses developed to address its unprecedented challenges Courts and parliaments in each country have reformed existing doctrine and practice and have created new ways of holding state and private actors accountable and new ways of addressing survivors injuries Criminal law tort law public inquiries and state reparations have all been to the forefront of these new legal responses which have transformed law s engagement with NRCSA survivors and understandings of justice itself However despite this undeniable progress the book identifies ways in which the legal responses developed in each country fail to deliver accountability and recognition to NRCSA survivors and argues that such failures betray the law s inherent ambivalence to delivering justice for these survivors Creating new insights into legal responses to this complex contemporary legal social and political problem this book will be of great interest to academic lawyers political scientists and historians as well as those working on related topics in criminology sociology social policy cultural studies and gender studies *Field & Stream* ,2007-12 FIELD STREAM
