Silverstein,Laura Silverstein Nunn,2002-01-01 Describes the function of smells and tastes how the brain translates and processes these messages and the research in these areas **The Senses of Scripture** Yael Avrahami,2012-06-15 The Senses of Scripture reveals the essence of biblical epistemology the ways in which ancient Israelites thought about and used their sensorium The theoretical introduction demonstrates that scholars need to liberate themselves from the Western bias that holds a pentasensory paradigm and prioritises the sense of sight The discussion of the biblical material demonstrates that biblical scholars should follow a similar path Through examination of associative and contextual patters the author reaches a septasensory model including sight hearing speech kinaesthesia touch taste and smell It is further demonstrated that the senses according to the HB are a divinely created physical experience which symbolised human ability to act in a sovereign manner in the world Despite the lack of a biblical Hebrew term sense it seems that at times the merism sight and hearing serves that matter Finally the book discusses the longstanding dispute regarding the primacy of sight vs hearing and claims that although there is no strict sensory hierarchy evident in the text sight holds a central space in biblical epistemology Senses and Your Abilities Ed Hardy,Sean Hardy,2008-03 There are many books on the market for the exercise of the body and quite a few on mental exercises This book offers the first everyday exploration on sensory training With trained senses new worlds open up to the reader Colors become brighter Sounds become sweeter Different tastes form on the palette In essence not only will the user of this book enjoy their reading experience but will gain tangible results from it Senses and Your Abilities is book written in a simple and fluid but highly readable style The guiding principle was that the book be easy to read and a pleasure to read The authors believe this book will be of greatest benefit to anyone unaware of much of the untapped power within their senses This book will help them to unlock those abilities The book will especially appeal to seniors With our increasing lifespans more people are becoming familiar with the tragic consequences on an inactive mind late in life By keeping one s mind alert and constantly busy with new exercises these things may be staved off A wondrous world of sight and sound will unfurl before the more mature readers of this book exciting the brain and the senses on a daily basis Senses and Your Abilities challenges to reader to get off their couch and explore the world around them Whether it is inhaling the scents of homemade brews of tea or paying attention to the shades of colors of parked cars these are exercises that everyone and anyone can perform Most importantly these exercises are simple enough that most can be done in a few minutes so the reader will never get frustrated at lack of results Indeed this book aims to open up the minds of its readers to the amazing processes going on throughout their bodies every time they
