

THE SOCIOLOGY OF GEORG SIMMEL

Translated, edited and
with an introduction by
Kurt H. Wolff

Sociology Of Georg Simmel

Georg Simmel

Sociology Of Georg Simmel:

The Sociology of Georg Simmel Georg Simmel, 1950 **Georg Simmel** Georg Simmel, Peter A. Lawrence, 1976

Sociology Georg Simmel (Philosoph, Soziologe, Deutschland), 2009 Georg Simmel's highly original take on the newly revived field of sociology succeeded in making the field far more sophisticated than it had been beforehand. He took insights from dialectical thought and Kantian epistemology to develop a form sociology method that remains implicit in the field a century later. Forms include such patterns of interaction as inequality, secrecy, membership in multiple groups, organization size and coalition formation. While today texts and professional societies are organized around contents rather than forms, a fresh reading of Simmel's chapters on forms suggests original avenues of inquiry into each of the contents: family, business, religion, politics, labor relations, leisure. **The Sociology of Georg Simmel** Georg Simmel, 1967 Formal Sociology Larry Ray, Larry J. Ray, 1991 This important collection illuminates Georg Simmel's concern with the dilemmas and contradictions of modernity. Part I brings together commentaries on Simmel's sociology in the context of Marx, Weber, and Durkheim. In the second part, articles examine the ways in which the fragmentary style of formal sociology is unified by an abiding concern to understand the fate of cultural modernity. The underlying thematic structure of Simmel's work, despite its fragmentary appearance, is taken up in section III. **The Sociology of Georg Simmel** Kurt H. Wolff, 1969 *The Sociology of Georg Simmel* Georg Simmel, 1950 Reason of Sociology Kauko Pietila, 2011 Published in association with the ISA and part of the SAGE Studies in International Sociology series, this is a passionate and stimulating exploration of how the work of Georg Simmel can help revitalise and focus the aims of sociology today. The Sociology of Georg Simmel Georg Simmel, 1967

Georg Simmel on Individuality and Social Forms Georg Simmel, Donald N. Levine, 1971-09 Of those who created the intellectual capital used to launch the enterprise of professional sociology, Georg Simmel was perhaps the most original and fecund. In search of a subject matter for sociology that would distinguish it from all other social sciences and humanistic disciplines, he charted a new field for discovery and proceeded to explore a world of novel topics in works that have guided and anticipated the thinking of generations of sociologists. Such distinctive concepts of contemporary sociology as social distance, marginality, urbanism as a way of life, role playing, social behavior as exchange, conflict as an integrating process, dyadic encounter, circular interaction, reference groups as perspectives, and sociological ambivalence embody ideas which Simmel adumbrated more than six decades ago. Donald N. Levine Half of the material included in this edition of Simmel's writings represents new translations. This includes Simmel's important lengthy and previously untranslated *Group Expansion and Development of Individuality* as well as three selections from his most neglected work *Philosophy of Money*. In addition, the introduction to *Probleme der Geschichtsphilosophie*, chapter one of the *Lebensanschauung*, and three essays are translated for the first time. **Georg Simmel on Individuality and Social Forms** Georg Simmel, 1972-02-15 Of those who created the intellectual capital used to launch the enterprise of professional sociology, Georg Simmel was perhaps the most
