Soldiers Of Christ Preaching In Late Medieval And Reformation France:

Soldiers of Christ Larissa Taylor, 1992 She reconstructs popular attitudes about such issues as original sin free will purgatory the devil the sacraments and the magical arts *Priests and Their Books in Late Medieval Eichstätt* Matthew Wranovix, 2017-10-23 This book analyzes the acquisition and use of texts by the parish clergy in the diocese of Eichstätt between 1400 and 1520 to refute the amusing but misleading image of the lustful and ignorant cleric so popular in the satirical literature of the period By the fifteenth century more widely available local schooling and increasing university attendance had improved the educational level of the clergy priests were bureaucrats as well as pastors and both roles required extensive use of the written word What priests read is a question of fundamental importance to our understanding of the late medieval parish and the role of the clergy as communicators and cultural mediators Priests were entrusted with saying the Mass preaching doctrine and repentance honoring the saints plumbing the conscience and protecting the legal rights of the Church They baptized children blessed the fields and prayed for the souls of the dead What priests read would have informed how they understood and how they performed their social and religious roles By locating and contextualizing the manuscripts printed books and parish records that were once in the hands of priests in the diocese the author has found evidence for the unexpected the avid acquisition of books a theological awareness and an emerging professional identity This marks an important revision to the conventional view of a dramatic era marked by both the transition from manuscripts to printed books and the outbreak of the Reformation Preachers and People in the Reformations and Early Modern Period Larissa Taylor, 2021-10-01 Sermons are an invaluable source for our knowledge of religious history and sociology anthropology and the mental landscape of men and women in pre modern Europe of what they were taught and what they practiced But how did an individual process the preached message from the pulpit How exactly do written sermons duplicate the preached Word Do they at all The 11 leading scholars who have contributed to this book do not offer uniform answers or an all encompassing study of preaching in the Reformations and early modern period in Europe They do however provide new insights on Catholic Lutheran and Reformed preaching in Western and Central Europe Part One examines changes in sermon structure style and content in Christian sermons from the thematic sermon typical of the Middle Ages to the wide variety of later preaching styles Catholic preaching after Trent proves not to be monolithic and intolerant but a hybrid of forms past and present applied as needed to particular situations Lutheran homiletic theory is traced from Luther and through Melanchthon the intention of the sermon being to transform the worship service based on exegesis of Scripture In Reformed worship the expository sermon often given on a daily basis with a continuing exegesis was designed to communicate the tenets of the faith in terms that the laity could understand plain style Part Two deals with the social history of preaching in France where preachers often incited their hearers to attack human beings or holy objects or were themselves attacked in Italy where preaching became a collective and home grown product in early modern Germany where

the authorities strove for uniformity of preaching practice and the preacher was seen as a moral guardian in Switzerland where leaders from Zwingli on sought to bring religious practice conduct and government in line with biblical teaching and propagated a pastoral vision of preaching in England where after the Reformation preachers became the indispensable agents of salvation but clergy and congregations were often ill prepared for the task in Scandinavia where post Reformation sermons have a clear didactic aim teaching obedience to the authorities and in the Low Countries characterized by its numerous denominations all with their own churches and particular practices in terms of preaching The volume ends with a consideration of the influence of late medieval preaching on the Reformation concluding that the diversity of emphasis on how the practice of penance was preached and received very likely affected the appeal or not of the Lutheran Reformed message in a given country

Representing Judith in Early Modern French Literature Kathleen M.

Llewellyn,2016-03-23 Although attention to the Book of Judith and its heroine has grown in recent years this is the first full length study to focus on adaptations of the Bible s Old Testament Book of Judith across a range of literary genres written in French during the early modern era Author Kathleen Llewellyn bases her analysis on references to Judith in a number of early modern sermons as well as the Judith texts of four early modern writers The texts include two theatrical dramas *Le Myst re de Judith et Holofern* s c 1500 believed to have been written by Jean Molinet and *Le Miroir des vefves Trag die sacr e d Holoferne Judith* by Pierre Heyns 1596 as well as two epic poems *La Judit* 1574 by Guillaume de Salluste Du Bartas and *Gabrielle de Coignard s Imitation de la victoire de Judich* 1594 Llewellyn s goal is to see Judith as she was envisioned by early modern French writers and their readers and to understand how the sixteenth century shaped their view of the heroine Noting aspects of that story that were emphasized by sixteenth century authors as well as elements that those writers altered to suit their purposes she also examines the ways in which writers of this era made use of Judith s story as a means to explore interests and concerns of early modern writers readers and spectators

Faith on the Margins Charles H. Parker, 2009-07-01 After the 1572 revolt against Spain the new Dutch Republic outlawed Catholic worship and secularized church property Calvinism prevailed as the public faith yet Catholicism experienced a resurgence in the first half of the 17th century In a wide ranging analysis of a marginalized yet vibrant minority Parker examines this remarkable revival

Observant Reforms and Cultural Production in Europe Pietro Delcorno, Bert Roest, 2023-08-09 The impetus of religious reform between ca 1380 1520 which expressed itself in a variety of Observant initiatives in many religious orders all over Europe and also brought forth the Devotio moderna movement in the late medieval Low Countries had considerable repercussions for the production of a wide range of religious texts and the embrace of other forms of cultural production scribal activities liturgical innovations art music religious architecture At the same time the very impetus of reform within late medieval religious orders and the wish to return to a more modest religious lifestyle in accordance with monastic and mendicant rules and ultimately with the commands of Christ in the Gospel made it difficult to wholeheartedly embrace the material consequences of learning literary and artistic prowess as the very pursuit of such pursuits ran against basic demands of evangelical poverty and humility This volume explores how this tension was negotiated in various Observant and Devotio moderna contexts and how communities connected with these movements instrumentalized various types of writing learning and other forms of cultural expression to further the cause of religious reform defend it against order internal and external criticism to shape recognizable reform identities for themselves and to transform religious life in society as a whole

Church as Fullness in All Things Mark W. Birkholz, Jonathan Mumme, Richard J. Serina, Jr., 2019-06-25 What is Lutheran ecclesiology The Lutheran view of the church has been fraught with difficulties since the Reformation Church as Fullness in All Things reengages the topic from a confessional Lutheran perspective Lutheran theologians and clergy who are bound to the Holy Scriptures and the Lutheran Confessions explore the possibilities and pitfalls of the Lutheran tradition's view of the church in the face of contemporary challenges The contributors also take up questions about and challenges to thinking and living as the church in their tradition while looking to other Christian voices for aid in what is finally a common Christian endeavor The volume addresses three related types of questions faced in living and thinking as the church with each standing as a field of tension marked by disharmonized though perhaps not inherently opposite poles the individual and the communal the personal and the institutional and the particular and the universal Asking whether de facto prioritizations of given poles or unexamined assumptions about their legitimacy impinge the church Lutherans seek the volume closes with Anglican Reformed and Roman Catholic contributors stating what their

ecclesiological traditions could learn from Lutheranism and vice versa *Related Lives* Jodi Bilinkoff, 2018-07-05 In early modern Catholic Europe and its colonies priests frequently developed close relationships with pious women serving as their spiritual directors during their lives and their biographers after their deaths In this richly illustrated book Jodi Bilinkoff explores the ways in which clerics related to those female penitents whom they determined were spiritually gifted and how they conveyed the live stories of these women to readers The resulting popular literatures of hagiography and spiritual autobiography produced hundreds of texts designed to establish models of behavior for the Catholic faithful in the period between the advent of printing and the beginning of the modern age Bilinkoff finds that confessional relations and the texts that document them reveal much about gender and social values She uses life narratives primarily from Spain but also from France Italy Portugal Spanish America and French Canada to examine the ways in which clerics presented female penitents as exemplary and how they constructed their own identities around their interactions with exceptional women These multilayered texts she suggests offer compelling accounts of individuals caught up in the pursuit of holiness and provide a key to understanding the resilience of Catholic culture in an age of religious change and conflict **Boundaries of Faith**

Jill R. Fehleison, 2010-10-01 At the political and religious crossroads where John Calvin and the Protestant Reformation had taken hold the Catholic Diocese of Geneva struggled to convert their Protestant neighbors back to the Catholic Church while maintaining a tradition of piety and a firm disciplinary hand This critical study examines the success of Catholic counter reform in key rural villages and looks at the significant role played by Bishop Francois de Sales who had the unusual challenge of dealing with the two political authorities of Savoy and France Drawing from a wealth of primary sources including visitation records of bishops and other diocesan documents Jill Fehleison contributes to our understanding of early modern Catholicism as it addressed the challenges of coexisting with Protestantism The Divine Voice Stephen H. Webb, 2012-01-20 Webb offers a carefully and creatively wrought phenomenology of sound showing its relation to the proclamation of God's Word His keen insights on the primordial nature of sound speech and hearing will force theologians to examine once again what it means to be a hearer of the Word Webb masterfully displays the intrinsic relationship between dynamic listening and speech how intent hearing and confident proclamation are intimately conjoined He has the rare gift of combining acute theological insight with a mellifluous readable style The nature of God's own Word here becomes clearer vibrant and tensile life giving in tone and texture Whether examining Jesus as the voice of the Father the role of voice in innertrinitarian relations or the relationship between voice and gender Webb offers the kind of thought provoking and highly creative reflections rarely found elsewhere He has a creative and incisive theological mind Thomas Guarino Seton Hall University Being appreciative of Webb's earlier work on hyperbolic language in theology and preaching I welcomed *The Divine Voice* How risky to toss a spoken word into a room of silent readers and expect it to be heard I was reprimanded instructed and moved by the sound of this book Were I still in the seminary classroom *The Divine Voice* would be required

reading before one word was said about how to preach Fred B Craddock The Craddock Center The Divine Voice is a book of academic theology worthy of the Psalmist who sang Day after day the word goes forth night after night the story is told Soundless the speech voiceless the talk yet the story is echoed throughout the world Ps 19 2 3 Stephen Webb is an acoustemological theologian for whom speech can be prayerful as silence and silence as instructive as proclamation When the sounds heard by faith reach Webb s ever insightful and creative mind only synesthesia could result and the result is a gift for us all Peter Ochs University of Virginia

Reforming French Culture George Hoffmann,2017 In this volume George Hoffmann presents a study of Protestant satirical texts in sixteenth century France and their role in French literature and history examining how France became a culturally Protestant country while remaining confessionally Catholic **King's Sister - Queen of Dissent: Marguerite of Navarre (1492-1549) and her Evangelical Network (set 2 volumes)**

Jonathan Reid,2009-06-24 This study reconstructs for the first time Marguerite of Navarre s leadership of a broad circle of nobles prelates humanist authors and commoners who sought to advance the reform of the French church along evangelical Protestant lines Hitherto misunderstood in scholarship they are revealed to have pursued despite persecution a consistent reform program from the Meaux experiment to the end of Francis I s reign through a variety of means fostering local church reform publishing a large corpus of religious literature high profile public preaching and attempting to shape the direction of royal policy Their distinctive doctrines relations with major reformers including their erstwhile colleague Calvin involvement in major Reformation events and the impact of their unsuccessful attempt are all explored **The Preaching of the Third**

Crusade (1187-1192) Alexander Marx,2024-12-23 This book delivers the first substantial study of the preaching of the Third Crusade 1187 92 It assembles c 200 sermon texts and c 100 manuscripts to understand the explosive dynamic of mobilization in the Latin West Dealing with the essential fact that a genre called crusade sermon did not exist it develops methodological devices for identifying sermons relevant for the crusading purpose The book contests thus the modern historiography which has placed too much trust in the few chronicle reports However its fruitful blending of crusading preaching exegesis manuscript studies and intellectual history has much to offer beyond crusade studies *CALVIN@500*

Richard R. Topping,John A. Vissers,2011-05-12 Calvin 500 is an exercise in appreciative criticism and appropriation of the Reformer s work for church and society The collection serves as an introduction to the life and thought of this sixteenth century Reformer in his context The book also traces Calvin s continuing legacy for political economic theological spiritual and inter religious practices of our own time The essays reflect the depth and breadth of Calvin scholarship from the sixteenth century to the present They also reflect Calvin s own wide ranging ministry the authors are pastors teachers social justice workers and theologians Calvin 500 arose from two Canadian conferences on the occasion of the 500th anniversary of Calvin s birth Sacred Communities Dean Phillip Bell,2021-10-01 We all live in a community and it was no different for the Jews and Christians of medieval Germany or was it This book draws together disparate threads of Christian and Jewish

communal development in an effort to give a deeper understanding to the complex tapestry of Jewish and Christian interaction. In the broad examination presented herein it is possible to compare the general transformations that affected Jews and Christians both as residents of a shared German society and as residents of their own separate communities. Jews and Christians interacted in a variety of ways in numerous settings and at a multitude of levels that defy simple categorization. To label late medieval Germany a period of crisis is too simplistic; the Reformation should not categorically be viewed as the central development in the shift between medieval and early modern times. This book seeks to recontextualize the world of Jewish and Christian relations by bringing together divergent sources not often taken together but equally important to inform one another and offer a fuller picture of Jewish and Christian notions of each other and themselves than has been possible up to this point.
