The Guggenheims and the American Dream Edwin Palmer Hoyt, 1967 **The Guggenheim** Francesco Dal Co, 2017-01-01 The captivating tale of the plans and personalities behind one of New York City's most radical and recognizable buildings Considered the crowning achievement of Frank Lloyd Wright 1867 1959 the Solomon R Guggenheim Museum in Manhattan is often called iconic But it is in fact iconoclastic standing in stark contrast to the surrounding metropolis and setting a new standard for the postwar art museum Commissioned to design the building in 1943 by the museum's founding curator Baroness Hilla von Rebay Wright established residence in the Plaza Hotel in order to oversee the project Over the next 17 years Wright continuously clashed with his clients over the cost and the design a conflict that extended to the city of New York and its cultural establishment Against all odds Wright held fast to his radical design concept of an inverted ziggurat and spiraling ramp built with a continuous beam a shape recalling the form of an hourglass Construction was only completed in 1959 six months after Wright's death The building's initial critical response ultimately gave way to near universal admiration as it came to be seen as an architectural masterpiece This essential text offering a behind the scenes story of the Guggenheim along with a careful reading of its architecture is beautifully illustrated with more than 150 images including plans drawings and rare photographs of the building under construction Hampton's Magazine, 1910

The Hampton Magazine, 1910 Mining Tycoons in the Age of Empire, 1870-1945 Raymond E. Dumett, 2016-12-05 The years of the late nineteenth and early twentieth centuries aptly described by Mark Twain as the Gilded Age witnessed an unprecedented level of technological change material excess untrammled pursuit of profit and

imperial expansion Within this dynamic and often ruthless environment many colorful characters strode across the world stage among them the great mining tycoons who with the thousands of prospectors diggers shift bosses timbermen blastmen and muckers in mining enterprise constituted one of the major spearheads of global capitalistic expansion and colonial exploitation This volume which carries the epic story to the mid twentieth century provides a truly international perspective on the role of mining entrepreneurs investors and engineers in shaping the economic and political map of the globe in testing management techniques and in setting a vogue for extravagant displays of wealth among the world s rich Each chapter is loosely focussed on a biographical account of a particular mining tycoon that allows for broad and comparative accounts to be made about the individuals their business interests the technologies they employed and the national and international political considerations under which they operated Furthermore this structure also allows for consideration of the effect that these tycoons had on the countries and territories in which they worked particularly the often long lasting impact on indigenous populations the environment transport links and economic development By approaching the subject matter through this stimulating mix of cultural social economic business and colonial history many intriguing and thought provoking conclusions are reached that will reward any scholars with an interest late nineteenth and early twentieth century history
