The Habit Of Lying Sacrificial Studies In Literature Philosophy And Fashion Theory:

The Habit of Lying John Vignaux Smyth, 2002-03-18 An investigation of deceit and concealment that proposes a new theory of fiction both as a new genre of literature and as a strategy in the social world **The Habit of Lying** John Vignaux Smyth, 2002-03-18 An investigation of deceit and concealment that proposes a new theory of fiction both as a new genre of literature and as a strategy in the social world *Lying, Truthtelling, and Storytelling in Children's and Young Adult Literature* Anita Tarr, 2023-12-20 Even though we instruct our children not to lie the truth is that lying is a fundamental part of children's development socially cognitively emotionally morally Lying can sometimes be more compassionate than telling the truth even more ethical Reading specific children's books can instruct child readers how to be guided by an etiquette of lying to know when to tell the truth and when to lie Equally important these stories can help prevent them from being prey to those liars who are intent on taking advantage of them Becoming a critical reader requires that one learn how to lie judiciously as well as to see through others lies When humans first began to speak we began to lie When we began to lie we started telling stories This is the paradox that in order to tell truthful stories we must be good liars Novels about child artists showcased here illustrate how the protagonist embraces this paradox accepting the stigma that a writer is a liar who tells the truth Emily Dickinson's phrase tell it slant best expresses the vision of how writers for children and young adults negotiate the conundrum of both protecting child readers and teaching them to protect themselves This volume explores the pervasiveness of lying as well as the necessity for lying in our society the origins of lying as connected to language acquisition the realization that storytelling is both lying and truthtelling and the negotiations child artists must process in order to grasp the paradox that to become storytellers they must become expert liars and lie detectors **The Handbook of Textile Culture** Janis Jefferies, Diana Wood Conroy, Hazel Clark, 2015-11-05 In recent years the study of textiles and culture has become a dynamic field of scholarship reflecting new global material and technological possibilities This is the first handbook of specially commissioned essays to provide a guide to the major strands of critical work around textiles past and present and to draw upon the work of artists and designers as well as researchers in textiles studies The handbook offers an authoritative and wide ranging guide to the topics issues and questions that are central to the study of textiles today it examines how material practices reflect cross cultural influences it explores textiles relationships to history memory place and social and technological change and considers their influence on fashion and design sustainable production craft architecture curation and contemporary textile art practice This illustrated volume will be essential reading for students and scholars involved in research on textiles and related subjects such as dress costume and fashion feminism and gender art and design and cultural history Cover image Anne Wilson To Cross Walking New York 2014 Site specific performance and sculpture at The Drawing Center NYC Thread cross research Photo Christie Carlson Anne Wilson Studio Splendide Mendax Edmund P. Cueva, Javier Martínez, 2016-05-05 Scholars for centuries have regarded fakes and forgeries chiefly as an

opportunity for exposing and denouncing deceit rather than appreciating the creative activity necessary for such textual imposture But should we not be more curious about what is spurious Many of these long neglected texts merit serious reappraisal when considered as artifacts with a value beyond mere authenticity We do not have to be fooled by a forgery to find it fascinating when even the intention to deceive can remind us how easy it is to form beliefs about texts The greater difficulty is that once beliefs have been formed by one text it is impossible to approach the next without preconceptions potentially disastrous for scholarship The exposure of fraud and the pursuit of truth may still be valid scholarly goals but they implicitly demand that we confront the status of any text as a focal point for matters of belief and conviction Many new and fruitful avenues of investigation open up when scholars consider forgery as a creative act rather than a crime We invited authors to contribute work without imposing any restrictions beyond a willingness to consider new approaches to the subject of ancient fakes and forgeries The result is this volume in which our aim is to display some of the many possibilities available to scholarship when the forger is regarded as splendide mendax splendidly untruthful Idealism without Absolutes Tilottama Rajan, Arkady Plotnitsky, 2004-02-12 Extends the boundaries of Romantic culture from its pre Kantian past to contemporary theory and beyond Women, Work, and Clothes in the Eighteenth-Century Novel Chloe Wigston Smith, 2013-06-13 This groundbreaking study examines the vexed and unstable relations between the eighteenth century novel and the material world Rather than exploring dress s transformative potential it charts the novel s vibrant engagement with ordinary clothes in its bid to establish new ways of articulating identity and market itself as a durable genre In a world in which print culture and textile manufacturing traded technologies and paper was made of rags the novel by contrast resisted the rhetorical and aesthetic links between dress and expression style and sentiment Chloe Wigston Smith shows how fiction exploited women s work with clothing through stealing sex work service stitching and the stage in order to revise and reshape material culture within its pages Her book explores a diverse group of authors including Jane Barker Jonathan Swift Daniel Defoe Eliza Haywood Samuel Richardson Henry Fielding Charlotte Lennox John Cleland Frances Burney and Mary Robinson *The Virtues of Mendacity* Martin Jay, 2010-05-10 When Michael Dukakis accused George H W Bush of being the Joe Isuzu of American Politics during the 1988 presidential campaign he asserted in a particularly American tenor the near ancient idea that lying and politics and perhaps advertising too are inseparable or at least intertwined Our response to this phenomenon writes the renowned intellectual historian Martin Jay tends to vacillate often impotently between moral outrage and amoral realism In *The Virtues of Mendacity* Jay resolves to avoid this conventional framing of the debate over lying and politics by examining what has been said in support of and opposition to political lying from Plato and St Augustine to Hannah Arendt and Leo Strauss Jay proceeds to show that each philosopher s argument corresponds to a particular conception of the political realm which decisively shapes his or her attitude toward political mendacity He then applies this insight to a variety of contexts and questions about lying and politics Surprisingly he concludes by asking if lying in politics is

really all that bad The political hypocrisy that Americans in particular periodically decry may be in Jay's view the best alternative to the violence justified by those who claim to know the truth

Secrecy and Disclosure in Victorian Fiction Leila Silvana May, 2016-07-15 Why were the Victorians more fascinated with secrecy than people of other periods What is the function of secrets in Victorian fiction and in the society depicted how does it differ from that of other periods and how did readers of Victorian fiction respond to the secrecy they encountered These are some of the questions Leila May poses in her study of the dynamics of secrecy and disclosure in fiction from Queen Victoria's coronation to the century's end May argues that the works of writers such as Charlotte Brontë William Makepeace Thackeray Mary Elizabeth Braddon Edward Bulwer Lytton and Arthur Conan Doyle reflect a distinctly Victorian obsession with the veiling and unveiling of information She argues that there are two opposing vectors in Victorian culture concerning secrecy and subjectivity one presupposing a form of radical Cartesian selfhood always remaining a secret to other selves and another showing that nothing can be hidden from the trained eye May calls the relation between these clashing tendencies the dialectics of secrecy and disclosure May's theories of secrecy and disclosure are informed by the work of twentieth century social scientists She emphasizes Georg Simmel's thesis that sociality and subjectivity are impossible without secrecy and Erving Goffman's claim that sociality can be understood in terms of performativity the presentation of the self in everyday life and his revelation that performance always involves disguise hence secrecy May's study offers convincing evidence that secrecy and duplicity in contrast to the Victorian period's emphasis on honesty and earnestness emerged in response to the social pressures of class gender monarchy and empire and were key factors in producing both the subjectivity and the sociality that we now recognize as Victorian

Originality and Intellectual Property in the French and English Enlightenment Reginald McGinnis, 2013-10-17 Are legal concepts of intellectual property and copyright related to artistic notions of invention and originality Do literary and legal scholars have anything to learn from each other or should the legal debate be viewed as separate from questions of aesthetics Bridging what are usually perceived as two distinct areas of inquiry this interdisciplinary volume begins with a reflection on the origins of literary and legal questions in the Enlightenment to consider their ramifications in the post Enlightenment and contemporary world Tying in to the growing scholarly interest in connections between law and literature on the one hand and to the contemporary interrogation of originality and authorship on the other hand the present volume furthers research in the field by providing a dense study of the legal and historical context to re-examine our current assumptions about supposed earlier Enlightenment and Romantic ideals of individual authorship and originality

Beckett and Modernism Olga Beloborodova, Dirk Van Hulle, Pim Verhulst, 2018-04-13 This book of collected essays approaches Beckett's work through the context of modernism while situating it in the literary tradition at large It builds on current debates aiming to redefine modernism in connection to concepts such as late modernism or postmodernism Instead of definitively re-categorizing Beckett under any of these labels the essays use his diverse oeuvre encompassing poetry criticism prose theatre radio and

film as a case study to investigate and reassess the concept of modernism after postmodernism in all its complexity covering a broad range of topics spanning Beckett's entire career. In addition to more thematic essays about art history, politics, psychology, and philosophy, the collection places his work in relation to that of other modernists such as T. S. Eliot, James Joyce, Wyndham Lewis, Gertrude Stein, and Virginia Woolf, as well as to the literary canon in general. It represents an important contribution to both Beckett studies and modernism studies.

Ontologies for Developing Things Casper Bruun

Jensen, 2010-01-01 *Ontologies for Developing Things* is a work of unflagging intelligence and intellectual energy spilling over with new ideas, surprising angles, sharp perceptions, and interesting juxtapositions, and written with correspondingly attractive punch and force. Readers interested in information technologies, contemporary developments in social studies of science, and related cultural and political theory will find the book immensely engaging and endlessly useful. Barbara Herrnstein Smith, Duke University and Brown University, author of *Scandalous Knowledge: Science, Truth, and the Human and or Natural Reflections*, *Human Cognition at the Nexus of Science and Religion*.

Essays from the Edge Martin

Jay, 2011-06-10 Over his distinguished career as a European intellectual historian and cultural critic, Martin Jay has explored a variety of major themes: the Frankfurt School, the exile of German intellectuals in America during the Nazi era, Western Marxism, the denigration of vision in twentieth-century French thought, the discourse of experience in modern Europe and America, and lying in politics. *Essays from the Edge* assembles Jay's writings from the intersections of this intellectual journey. Several essays focus on methodological debates in the humanities and social sciences: the limits of interdisciplinarity, the issue of national or universal philosophy, cultural relativism and visuality, and the implications of periodization in historical narrative. Others examine the concept of scopophilic regime and the metaphors of revolution and the gardening impulse. Among the theorists treated at length are Theodor Adorno, Hannah Arendt, Jacques Derrida, and Michel Foucault. The essays also include several of Jay's *Salmagundi* columns dealing with subjects as varied as the new Museum of Modern Art in New York, the impact of Colin Wilson's *The Outsider*, and the demise of the *Partisan Review*. All of these efforts can be considered what Arthur Schopenhauer called to borrow the title of one of his most celebrated collections, *parerga and paralipomena*. As essays from the edges of major projects, they illuminate Jay's major arguments, elaborate points made only in passing in the larger texts, and explore ideas farther than would have been possible given the focus of the larger works themselves. The result is a lively, diverse offering from an extraordinary intellect.

Deception and Detection in Eighteenth-Century Britain Jack

Lynch, 2016-12-05 In the first extended treatment of the debates surrounding public deception in eighteenth-century Britain, Jack Lynch contends that forgery, fakery, and fraud make explicit the usually unspoken grounds on which Britons made sense of their world. Confrontations with inauthenticity, in other words, bring tacitly understood conceptions of reality to the surface. Drawing on a wide range of contemporary print and manuscript sources, not only books and pamphlets but ballads, comic prints, legal proceedings, letters, and diaries, Lynch focuses on the debates they provoked rather than the forgers themselves.

He offers a comprehensive treatment of the criticism surrounding fraud in most of the noteworthy controversies of the long eighteenth century To this end his study is structured around topics related to the arguments over deception in Britain whether they concerned George Psalmanazar's Formosan hoax at the beginning of the eighteenth century or William Henry Ireland's Shakespearean imposture at the end Beginning with the question of what constitutes deception and ending with an illuminating chapter on what was at stake in these debates for eighteenth century British thinkers Lynch's accessibly written study takes the reader through the means whether simple sophisticated or tortuously argued by which partisans on both sides struggled to define which of the apparent contradictions were sufficient to disqualify a claim to authenticity Fakery Lynch persuasively argues transports us to the heart of eighteenth century notions of the value of evidence of the mechanisms of perception and memory of the relationship between art and life of historicism and of human motivation

Secrets, Lies and Children's Fiction K. Mallan, 2013-10-25 Many children learn from a young age to tell the truth They also learn that some lies are necessary in order to survive in a world that paradoxically values truth telling but practises deception This book examines this paradox by considering how deception is often a necessary means of survival for individuals families governments and animals **Deception and Detection in Eighteenth-century Britain** John T. Lynch, 2008 In the first extended treatment of the debates surrounding public deception in eighteenth century Britain Jack Lynch contends that forgery and fraud make explicit the usually unspoken grounds on which Britons made sense of their world While taking up the critical philosophical questions surrounding fraud Lynch shows that fakery takes us to the heart of eighteenth century values as they relate to evidence perception and memory the relationship between art and life historicism and human motivation **Revisiting Molloy, Malone meurt / Malone Dies and L'Innommable / The Unnamable** David Tucker, Mark Nixon, Dirk Van Hulle, 2014-09-05
