Research in Education ,1974 **Consultation In Community, School, And Organizational Practice** William P. Erchul,2019-01-15 Offering an historical perspective on the development of mental health consultation and community mental health this book s intent is twofold First it describes and evaluates Harvard psychiatrist Gerald Caplan s innovative approach to consultation and related activities with respect to the current and future practice of clinical community school and organizational psychology Second it pays tribute to Caplan whose ideas on prevention crisis theory support systems community mental health mental health consultation and collaboration and population orientated psychiatry have influenced the practice of professional psychology and allied fields The text is divided into three sections the first provides background information for the remainder of the volume the second documents Caplan s influence on the way psychology has been applied in various settings and the last considers his contribution s present and past influence The text is aimed at consultant and practising psychologists community and school psychology graduates and professionals involved with community mental health services **Learner-Centered Leadership** Arnold B. Danzig,Kathryn M. Borman,Bruce A. Jones,William F. Wright,2017-09-25 Many new approaches to school improvement are being proposed in the current climate of assessment and school accountability This book explores one of these approaches a new model of leadership training known as Learner Centered Leadership LCL It is built around the fundamental idea that learning and learning communities are natural processes that when properly harnessed can lead to the highest levels of professional engagement and problem solving Key features of this exciting new approach to school leadership include the following Broad based and Generative The book s narratives vividly illustrate the extraordinary ability of LCL to generate new approaches to leadership development For example encouraging and assisting school leaders to reflect on their own leadership attributes relative to the implementation of the school mission to ensure high teacher efficacy and student learning In this respect the volume contributes significantly to the field of school leadership and professional development by extending above and beyond a narrow focus on

instructional leadership Practice Oriented By creating communities that encourage conversation and analysis the new data driven models of school improvement are more likely to be successfully implemented Without analytical discourse the process of interpreting school data and transforming it into practice would be largely lost Conceptually Appropriate The realization that everyone within a school students teachers administrators belongs to the same learning community minimizes status differences and encourages teamwork The LCL administrator is much less likely to be authoritarian and power oriented and much more likely to be transformative and student outcome focused This book is appropriate for master s level courses and certification seminars and for inservice workshops dealing with school leadership *Handbook of Organization Development in Schools* Richard A. Schmuck,1972 **Effective School District Management** Fred Dembowski,1999 This publication provides administrators with an instrument that management teams from districts can use for objective self assessment Readers will learn the distinctions between the leader and management roles and how to recognize and evaluate the management related tasks of school leadership **The Cutting Edge, Current Theory and Practice in Organization Development** Wyatt Warner Burke,1978
