

*The
Heavenly City
of the Eighteenth-Century
Philosophers*

SECOND EDITION

CARL L. BECKER

With a new Foreword by Johnson Kent Wright

The Heavenly City Of The Eighteenth Century Philos

Carl Lotus Becker

The Heavenly City Of The Eighteenth Century Philos:

The Heavenly City of the Eighteenth-century Philosophers Carl Lotus Becker, 2003-01-01 Here a distinguished American historian challenges the belief that the eighteenth century was essentially modern in its temper In crystalline prose Carl Becker demonstrates that the period commonly described as the Age of Reason was in fact very far from that that Voltaire Hume Diderot and Locke were living in a medieval world and that these philosophers demolished the Heavenly City of St Augustine only to rebuild it with more up to date materials In a new foreword Johnson Kent Wright looks at the book s continuing relevance within the context of current discussion about the Enlightenment Will remain a classic a beautifully finished literary product Charles A Beard American Historical Review The Heavenly City of the Eighteenth Century Philosophers remains one of the most distinctive American contributions to the historical literature on the Enlightenment It is likely to beguile and provoke readers for a long time to come Johnson Kent Wright from the foreword **The Heavenly City of the Eighteenth Century Philosophers. (Storrs Lectures.).** Carl Lotus Becker, 1932 The Heavenly City of the Eighteenth-century Philosophers Carl L. Becker, 2004 **Carl Becker's Heavenly City Revisited** Raymond Oxley Rockwood, 1958 The Routledge Companion to Eighteenth Century Philosophy Aaron Garrett, 2014-03-21 The Eighteenth century is one of the most important periods in the history of Western philosophy witnessing philosophical scientific and social and political change on a vast scale In spite of this there are few single volume overviews of the philosophy of the period as a whole The Routledge Companion to Eighteenth Century Philosophy is an authoritative survey and assessment of this momentous period covering major thinkers topics and movements in Eighteenth century philosophy Beginning with a substantial introduction by Aaron Garrett the thirty five specially commissioned chapters by an outstanding team of international contributors are organised into seven clear parts Context and Movements Metaphysics and Understanding Mind Soul and Perception Morals and Aesthetics Politics and Society Philosophy in relation to the Arts and Sciences Major Figures Major topics and themes are explored and discussed ranging from materialism free will and personal identity to the emotions the social contract aesthetics and the sciences including mathematics and biology The final section examines in more detail three figures central to the period Hume Rousseau and Kant As such The Routledge Companion to Eighteenth Century Philosophy is essential reading for all students of the period both in philosophy and related disciplines such as politics literature history and religious studies **Eighteenth-Century Philosophy** Lewis White Beck, 1966 The full scope and impact of Western philosophy from the Presocratics to the important thinkers of the twentieth century are presented in this original paperback series Readings in the History of Philosophy contains many selections that appear in English for the first time as well as selections that have never before been available in a modestly priced edition Under the general editorship of Paul Edwards of New York University and Richard H Popkin of the University of California San Diego this series presents extensive and carefully chosen selections that emphasize the range and significance of the important philosophers

of each period their interrelationships with each other and with the intellectual currents of their age Each of the eight volumes prepared by a distinguished expert in the field contains a comprehensive introduction notes that discuss the import of the material presented and an extensive bibliography Publisher **The Eighteenth Century** James Sambrook,2014-07-15 This is an impressive and lucid survey of eighteenth century intellectual life providing a real sense of the complexity of the age and of the cultural and intellectual climate in which imaginative literature flourished It reflects on some of the dominant themes of the period arguing against such labels as Augustan Age Age of Enlightenment and Age of Reason which have been attached to the eighteenth century by critics and historians The Norton History of the Human Sciences Roger Smith,1997 Beginning with the Renaissance s rediscovery of Greek psychology political philosophy and ethics author Roger Smith recounts how the human sciences gradually organized themselves around a scientific conception of psychology and how this trend has continued to the present day in a circle of interactions between science and ordinary life influencing and influenced by popular culture Photos drawings **Scientific Statesmanship, Governance and the History of Political Philosophy** Kyriakos N. Demetriou,Antis Loizides,2015-02-11 Over the centuries the question of good or effective governance has undergone several transformations and ramifications to fit within certain social cultural and historical contexts What defines political knowledge What is the measure of expert political leadership Various interpretations perspectives and re conceptualizations emerge as one moves from Plato to the present This edited book explores the relationship between political expertise which is defined as scientific statesmanship or governance and political leadership throughout the history of ideas An outstanding group of experts study and analyze the ideas of significant philosophers such as Plato Aristotle Augustine Machiavelli Hobbes Locke Montesquieu Kant Burke Comte and Weber among others The contributors aim to interpret these thinkers approaches to scientific statesmanship deepening our understanding of the idea itself and decoding its theoretical complexities In the face of the ongoing crisis of the traditional party system and the eroding structures within the new cultural financial and political environment in the era of globalization tracing the connection between Plato s idealist statesmanship to twentieth century modernist politics is an important and ever challenging enterprise one that promises to interest scholars of the history of western political thought philosophy classics and the classical tradition political science and sociology **International Relations and the Philosophy of History** A. Yurdusev,2003-09-09 International Relations and the Philosophy of History examines the concept of civilization in relation to international systems through an extensive use of the literature in the philosophy of history A Nuri Yurdusev demonstrates the relevance of a civilizational approach to the study of contemporary international relations by looking at the multi civilizational nature of the modern international system the competing claims of national and civilizational identities and the rise of civilizational consciousness after the Cold War *Politics and Philosophy in the Thought of Destutt de Tracy* Brian W. Head,2019-11-21 First published in 1987 This study describes and analyses the published writings of the French philosopher

Antoine Destutt de Tracy The author focuses on the three decades from the calling of the *Etats généraux* to the early years of the Restoration the period of Tracy's entire literary production and the period of his greatest influence and reputation This title will be of great interest to students of history philosophy and politics **Ethical Rationalism and Secularisation in the British Enlightenment** Dafydd Mills Daniel, 2020-10-22 This book reassesses the ethics of reason in the Age of the Reason making use of the neglected category of conscience Arguing that conscience was a central feature of British Enlightenment ethical rationalism the book explores the links between Enlightenment philosophy and modern secularisation while responding to longstanding criticisms of rational intuitionism and the analogy between mathematics and morals derived from David Hume and Immanuel Kant Questioning in what sense British Enlightenment ethical rationalism can be associated with a secularising Enlightenment project Daniel investigates the extent to which contemporary and secular liberal invocations of reason and conscience rely on the early modern Christian metaphysics they have otherwise disregarded The chapters cover a rich collection of subjects ranging from the Enlightenment's secular legacy reason and conscience in the history of ethics and controversies in the Scottish Enlightenment to the role of British moralists such as John Locke Joseph Butler and Adam Smith in the secularisation of reason and conscience Each chapter expertly refines Enlightenment ethical rationalism by reinterpreting its most influential proponents in eighteenth century Britain the followers of Isaac Newton's bulldog Samuel Clarke including Richard Price Edmund Burke's opponent over the French Revolution and John Witherspoon the only clergyman to sign the US declaration of Independence **Proceedings of the Boston Colloquium for the Philosophy of Science 1966/1968** Robert S. Cohen, Marx W. Wartofsky, 2012-12-06 The fourth volume of Boston Studies in the Philosophy of Science consists mainly of papers which were contributed to our Colloquium during the past few years The volume represents a wide range of interests in contemporary philosophy of science issues in the philosophy of mind and of language the neurophysiology of perceptual and linguistic behavior philosophy of history and of the social sciences and studies in the fundamental categories and methods of philosophy and the interrelationships of the sciences with ethics and metaphysics Papers on the logic and methods of the natural sciences including biological physical and mathematical topics appear in the fifth volume of our series We have included in the present volume the first English translation of the classic and fundamental work on aphasia by Carl Wernicke together with a lucid and appreciative guide to his work by Dr Norman Geschwind The papers were not written to form a coherent volume nor have they been edited with such a purpose They represent current work in progress both in the United States and in Europe Although most of the authors are philosophers it is worth noting that we have essays of philosophical significance here written by a sociologist an anthropologist a political scientist and by three neurophysiologists We hope that collaboration among working scientists and working philosophers may develop further **Christianity & Western Thought** Colin Brown, Steve Wilkens, Alan G. Padgett, 1990 From Socrates and the Sophists to Kant from Augustine to Aquinas and the Reformers Colin Brown traces the turbulent often tension filled always fascinating

story of the thinkers ideas and movements that have shaped our intellectual landscape Is philosophy the handmaiden of faith or the doctrine of demons Does it clarify the faith or undermine the very heart of Christian belief Brown writes This book is about the changes in preconceptions world views and paradigms that have affected the ways in which people have thought about religion in general and Christianity in particular in the Western world It is a historical sketch written to help students and anyone else who might be interested to get a better grasp of the love hate relationship between philosophy and faith that has gone on for close to two thousand years Students pastors and thoughtful Christians will benefit from this rich resource The first in a proposed three volume work Brown s easy to read hard to put down introduction to Christianity and Western thought focuses on developments from the ancient world to the Age of Enlightenment **Philosophy History Sophistry** Dennis Rohatyn,2022-04-25 Post modernism believes in nothing not even unbelief Hence it is a genial version of nihilism and the flip side of despair Like skepticism from which it descends it is healthy insofar as it rejects all dogmas but unhealthy insofar as it substitutes its own while eating its own essence This book diagnoses this disease and offers irony as its cure What failure of nerve did to Hellenism strength of character must do for the decline of the best Humor laughter and detachment are the gifts of historical art and of Socratic science As we take refuge in the myth of truth we must realize that there is no truth in myth and no comfort in illusion except the lie of immortality **An Introduction to the Philosophy of History** Michael Stanford,1998-02-04 This book uncovers the wealth of philosophical problems that history presents and encourages further thought on how these issues grow out of historical questions *My Philosophy - And Other Essays on the Moral and Political Problems of Our Time* Benedetto Croce,2011-10-12 My Philosophy is a 1949 work by Benedetto Croce containing many of his essays on philosophy together with various writings on the subjects of morality ad politics Contents include Discourses on Philosophy Philosophy of Politics Problems of Ethics and Aesthetics Philosophy of History and Various Thoughts Benedetto Croce 1866 1952 was an Italian historian philosopher and politician A prolific writer he who wrote on many different subjects including history philosophy aesthetics and historiography This vintage book is highly recommended for those with an interest in philosophy and is not to be missed by fans and collectors of Croce s seminal work Many vintage books such as this are becoming increasingly scarce and expensive It is with this in mind that we are republishing this volume now in an affordable modern high quality edition complete with an introduction to Croce s philosophy by Raffaello Piccoli **The Routledge Handbook of Philosophy of Relativism** Martin Kusch,2019-12-06 Relativism can be found in all philosophical traditions and subfields of philosophy It is also a central idea in the social sciences the humanities religion and politics This is the first volume to map relativistic motifs in all areas of philosophy synchronically and diachronically It thereby provides essential intellectual tools for thinking about contemporary issues like cultural diversity the plurality of the sciences or the scope of moral values The Routledge Handbook of Philosophy of Relativism is an outstanding major reference source on this fundamental topic The 57 chapters by a team of international contributors are divided into nine parts

Relativism in non Western philosophical traditions Relativism in Western philosophical traditions Relativism in ethics Relativism in political and legal philosophy Relativism in epistemology Relativism in metaphysics Relativism in philosophy of science Relativism in philosophy of language and mind Relativism in other areas of philosophy Essential reading for students and researchers in all branches of philosophy this handbook will also be of interest to those in related subjects such as politics religion sociology cultural studies and literature The Gestation of German Biology John H. Zammito, 2017-12-18

The emergence of biology as a distinct science in the eighteenth century has long been a subject of scholarly controversy Michel Foucault on the one hand argued that its appearance only after 1800 represented a fundamental rupture with the natural history that preceded it marking the beginnings of modernity Ernst Mayr on the other hand insisted that even the word biology was unclear in its meaning as late as 1800 and that the field itself was essentially prospective well into the 1800s In *The Gestation of German Biology* historian of ideas John Zammito presents a different version of the emergence of the field one that takes on both Foucault and Mayr and emphasizes the scientific progress throughout the eighteenth century that led to the recognition of the need for a special science The embrace of the term biology around 1800 Zammito shows was the culmination of a convergence between natural history and human physiology that led to the development of comparative physiology and morphology the foundations of biology Magisterial in scope Zammito's book offers nothing less than a revisionist history of the field with which anyone interested in the origins of biology will have to contend

Mechanism and Materialism Robert E. Schofield, 2015-03-08 Robert Schofield explores the rational elements of British experimental natural philosophy in the 18th century by tracing the influence of two opposing concepts of the nature of matter and its action mechanism and materialism Both concepts rested on the Newtonian interpretation of their proponents although each developed more or less independently By integrating the developments in all the areas of experimental natural philosophy describing their connections and the influences of Continental science natural theology and to a lesser degree social and institutional changes the author demonstrates that mechanistic concepts dominated interpretations from about 1687 to 1740 when they were replaced by materialistic concepts A revival of the mechanistic approach early in the next century made England a fertile field for ideas on the dynamic interaction of forces Originally published in 1970 *The Princeton Legacy Library* uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Whispering the Strategies of Language: An Psychological Quest through **The Heavenly City Of The Eighteenth Century Philos**

In a digitally-driven earth where screens reign great and instant communication drowns out the subtleties of language, the profound strategies and psychological nuances hidden within phrases frequently move unheard. However, nestled within the pages of **The Heavenly City Of The Eighteenth Century Philos** a captivating fictional value sporting with fresh thoughts, lies a fantastic journey waiting to be undertaken. Composed by an experienced wordsmith, this enchanting opus encourages readers on an introspective trip, softly unraveling the veiled truths and profound influence resonating within the very cloth of each and every word. Within the mental depths of this touching evaluation, we can embark upon a sincere exploration of the book is primary subjects, dissect their interesting publishing design, and succumb to the strong resonance it evokes serious within the recesses of readers hearts.
