The God-Image Lionel Corbett,2021-11-01 This book describes the development of images of God beginning in antiquity and culminating in Jung's notion of the Self an image of God in the psyche that Jung calls the God within Over the course of history the Self has been projected onto many local gods and goddesses and given different names and attributes These deities are typically imagined as existing in a heavenly realm but Jung's approach recalls them to their origins in the objective psyche This book shows how Jung's approach avoids many of the philosophical problems produced by traditional anthropomorphic images of God and describes the myriad symbolic ways in which the Self may appear independently of doctrinal images of God By focusing on the empirical psychological manifestations of the Self Jung's approach avoids arguments for and against the existence of a metaphysical God

Theology after Postmodernity Tina Beattie, 2013-10-04 Theology after Postmodernity is a ground breaking study that has the capacity to transform the relationship between psychoanalytic theory and Christian theology Reading the theology of Thomas Aquinas in close engagement with the psychoanalytic theory of Jacques Lacan Tina Beattie shows how Thomism exerted a formative influence on Lacan and she also shows how a Lacanian approach can bring rich new insights to Thomas s theology A growing number of English speaking scholars now recognize the extent to which twentieth century French theorists and philosophers were influenced by medieval theology and there have been several studies of Jacques Lacan s Thomism However this is the first study published in English to bring a Lacanian feminist perspective to bear on the theology of Thomas Aquinas Focusing on the centrality of desire in Thomas s theology and Lacan s psychoanalytic theory Beattie follows Lacan along an overgrown and often hidden path through the changing configurations of desire gender and knowledge from their Aristotelian formation in the medieval universities to their fragmentation in the collapse of modernity s visions and values Beattie offers a penetrating critique of Thomas s Aristotelianism but she also excavates the mystical treasures within his theology This enables her to show how Thomas s God remains an unconscious but potent influence in the shaping of modern western thought and to ask what transformations might be needed in order to bring about a Thomism for our times Probing beneath the surface of Thomas s Summa Theologiae and other writings she brings to light the Other of Thomas s One God an incarnate maternal Trinity who emerges when Thomas s Aristotelian ontotheology is suspended and the more neglected aspects of his doctrinal and theological insights are allowed to emerge Lacan makes possible a renewed Thomism which offers a rich theology of creation incarnation and redemption capable of responding to some of the most urgent and far reaching challenges that questions of gender nature and God pose to Christian theological language in its classical and postmodern formations
