Jacob, Wijnand Mijnhardt, 2010-07-31 Two French Protestant refugees in eighteenth century Amsterdam gave the world an extraordinary work that intrigued and outraged readers across Europe In this captivating account Lynn Hunt Margaret Jacob and Wijnand Mijnhardt take us to the vibrant Dutch Republic and its flourishing book trade to explore the work that sowed the radical idea that religions could be considered on equal terms Famed engraver Bernard Picart and author and publisher Jean Frederic Bernard produced *The Religious Ceremonies and Customs of All the Peoples of the World* which appeared in the first of seven folio volumes in 1723 They put religion in comparative perspective offering images and analysis of Jews Catholics Muslims the peoples of the Orient and the Americas Protestants deists freemasons and assorted sects Despite condemnation by the Catholic Church the work was a resounding success For the next century it was copied or adapted but without the context of its original radicalism and its debt to clandestine literature English deists and the philosophy of Spinoza *Ceremonies and Customs* prepared the ground for religious toleration amid seemingly unending religious conflict and demonstrated the impact of the global on Western consciousness In this beautifully illustrated book Hunt Jacob and Mijnhardt cast new light on the profound insight found in one book as it shaped the development of a modern secular understanding of religion *The Statesman's Year-Book* M. Epstein, 2016-12-28 The classic reference work that provides annually updated information on the countries of the world Cultural Labour and Contemporary World Literatures in Portuguese Carlos Garrido Castellano, 2024-11-25 This book examines the evolution of contemporary narrative in Portuguese from the point of view of cultural labour The main objective of this volume is to analyse the panorama of contemporary literary fiction in Portuguese under the prism of the economization of cultural creativity and the expansion of neoliberal understanding of creative subjectivity and self realization Assuming that neoliberalism still constitutes a haunting presence that becomes present in ways that are far from universal and homogeneous and that are shaped by coloniality this book expands the debates on cultural labour and literary materialisms beyond European and North American contexts Dealing with contemporary literary production from Brazil Portugal Angola Mozambique Cabo Verde Macau Canada and Goa the volume also tries to reimagine issues of cultural labour and the expansion of artistic modes of self definition from the point of view of contemporary literary production in Portuguese *Mariette and the Science of the Connoisseur in Eighteenth-Century Europe* Kristel Smentek, 2017-07-05 Celebrated connoisseur drawings collector print dealer book publisher and authority on the art of antiquity Pierre Jean

Mariette 1694 1774 was a pivotal figure in the eighteenth century European art world Focusing on the trajectory of Mariette's career this book examines the material practices and social networks through which connoisseurs forged the idea of art as an object of empirical and historical analysis Drawing on significant unpublished archival material as well as on histories of science publishing collecting and display this book shows how Mariette and his colleagues practices of classification and interpretation of the graphic arts gave rise to new conceptions of artistic authorship and to a history of art that transcended the biographies of individual artists To follow Mariette's career through the eighteenth century is to see that art was consolidated as a specialized category of intellectual inquiry and that style emerged as its structuring analytic device in the overlapping spaces of the collector's cabinet the connoisseur's portfolio and the dealer's shop American Book Publishing Record, 2007 , *History of Modern Europe, epitomised: forming a complete text book of Modern History. [Edited by G. H. T., i.e. G. H. Thatcher, Edgar Holmes McNeal, 1905 A Source Book for Mediaeval History Selected Documents illustrating the History of Europe in the Middle Age It will be observed that we have made use chiefly of documents quoting from chronicles only when it seemed absolutely necessary An exception to this general principle is found in section I where a larger use of chronicles was rendered necessary by the lack of documentary sources for much of the period covered but it is perhaps unnecessary to apologize for presenting selections from the important histories of Tacitus Gregory Einhard and Widukind In the matter of form translation omissions arrangements notes etc we were guided by considerations of the purpose of the book The style of most of the documents in the original is involved obscure bombastic and repetitious A faithful rendition into English would often be quite unintelligible We have endeavored to make a clear and readable translation but always to give the correct meaning If we have failed in the latter it is not for want of constant effort We have not hesitated to omit phrases and clauses often of a parenthetical nature the presence of which in the translation would only render the passage obscure and obstruct the thought As a rule we have given the full text of the body of the document but we have generally omitted the first and last paragraphs the former containing usually titles and pious generalities and the latter being composed of lists of witnesses etc We have given a sufficient number of the documents in full to illustrate these features of medi val diplomatics All but the most trivial omissions in the text which are matters rather of form of translation are indicated thus Insertions in the text to explain the meaning of phrases are inclosed in brackets Quotations from the Bible are regularly given in the words of the Authorized Version but where the Latin taken from the Vulgate differs in any essential manner we have sometimes translated the passage literally Within each section the documents are arranged in chronological order except in a few cases where the topical arrangement seemed necessary We believe that the explanatory notes in the form of introductions and foot notes will be found of service they are by no means exhaustive but are intended to explain the setting and importance of the document

and the difficult or obscure passages it may contain The reference to the work or the collection in which the original is found is given after the title of practically every document the meaning of the references will be plain from the accompanying bibliography The original of nearly all the documents is in Latin some few are in Greek Old French or German and in such cases the language of the original is indicated It is impossible of course to give explicit directions as to the use of the book other than the very obvious methods of requiring the student to read and analyze the documents assigned in connection with the lesson in the text book and of making clear to him the relation of the document to the event It may be possible also for the teacher to give the student some notion of the meaning of historical method e g the necessity of making allowance for the ignorance or the bias of the author in chronicles or the way in which a knowledge of institutions is deduced from incidental references in documents Suggestions of both sorts will be found in the introduction and notes The teacher should insist on the use of such helps as are found in the book notes cross references glossary etc Groups of documents can be used to advantage in topical work assigned topics worked up from authorities can be illustrated by documents selected from the book e g imperial elections papal elections the Normans in Sicily history of the Austrian dominions Germans and Slavs on the eastern frontier relations of the emperors and the popes before the investiture strife etc *Childhood, Orphans and Underage Heirs in Medieval Rural England* Miriam Müller, 2018-12-12 This book explores the experience of childhood and adolescence in later medieval English rural society from 1250 to 1450 Hit by major catastrophes the Great Famine and then a few decades later the Black Death this book examines how rural society coped with children left orphaned and land inherited by children and adolescents considered too young to run their holdings Using manorial court rolls accounts and other documents Miriam Müller looks at the guardians who looked after the children and the chattels and lands the children brought with them This book considers not just rural concepts of childhood and the training and schooling young peasants received but also the nature of supportive kinship networks family structures and the roles of lordship to offer insights into the experience of childhood and adolescence in medieval villages more broadly **The Scrap Book and Magazine of American Literature** ,1862 *A List of Some American Genealogies which Have Been Printed in Book Form* ,1897
