The Hermann Gmeiner The Story Of The Sos Childrens Villages And Their Founder:

The Hermann Gmeiner Book Hansheinz Reinprecht,1978 Liberia Izetta Roberts Cooper,Kyra E. Hicks,2008-01-01
Izetta R Cooper has loved books since she was a child Liberia A Visit Through Books is part biography and part bibliography
Within these covers you will learn about the woman who lovingly raised three children and several foster children while
supporting her husband s medical career introduced the Dewey Decimal System to the University of Liberia Library served
as Library Consultant for the Presidential Library of the Executive Mansion for President William V S Tubman hosted the
ELTV television show The World of Books compiled a bibliography of more than 230 historical books on Liberia chronicled
historical events and literary publications in an extensive timeline **Austrian Information** ,1994 **The Sasia Story**

Downs,1964 **Library of Congress Catalogs** Library of Congress,1980 *Famous — But No Children* J. O.
Raber,2014-03-01 Do you have a right NOT to have children Do we have a right NOT to be born Choosing to remain child
free or childless is something that sparks various reactions but not everyone has actually given it deep thought The names
and viewpoints discussed in this book may spur some thinking among those considering becoming parents feminists
ecologists the religious right and the child free community The Internet is full of lists of people who are reported as not
having had children some of these lists contain errors Here the author has added dates and places of birth and death to aid in
verification Also while most lists focus on contemporary celebrities in this book the author presents an original list
painstakingly compiled over these past years it is not a copy of anyone else s list of names and contains mostly historic
individuals illustrating how many of our cultural and scientific landmarks are the gifts childless people have bequeathed to
humanity **VCR and Film Catalog** ,1987 **Current Biography Yearbook** ,1986 *Subject Catalog* Library of

respond to the design and planning challenges of rebuilding cities and landscapes being destroyed by civil conflict un natural
disasters political instability and poverty The number of people fleeing their homes and being displaced by such conflict now
totals almost 100 million Despite the massive human and physical costs of these crises the number of architects planners and
landscape architects equipped to work with disaster and development professionals in rebuilding in the aftermath of conflict
floods fires earthquakes typhoons and tsunamis remains chronically low Design for Fragility expands the nascent but rapidly
growing field of humanitarian architecture by exploring 13 design responses to such conflict and displacement across 11
countries including Australia Bangladesh Fiji India Iran Pakistan and the USA Linked to this displacement is the systemic

poverty that often lingers from previous colonial territories and eras in which many of the featured projects in the book are located This book follows Charlesworth s Humanitarian Architecture 15 Stories of Architects Working After Disasters Routledge 2014 which analysed the role for architects in exercising spatial agency while designing shelter and settlement projects for communities after conflict and disaster Since that time the humanitarian architecture movement has expanded globally with the prominence of design agencies including the MASS Design Group and Architecture Sans Fronti res ASF International Design for Fragility analyses this role of spatial agency in architecture by addressing diverse conditions of fragility across 13 built projects from refugee housing in Uganda and an orphanage for teenage girls in Iran to a residential centre in Northern Australia for people with acquired brain injury Each of the projects profiled in this book explore The experiences and perceptions of fragility or precarity that provided a design challenge and directed the particular spatial response The specific typology of the project whether that be a housing health children s or a First Nations project The personal values that influenced the architects to work on humanitarian community projects and how consultation occurred with diverse and often contested project stakeholders The experiences of the design team as well as project managers occupants and donors of the built project exploring what they deemed successful about the project and what if any were its limitations Beautifully designed with over 150 illustrations this practical and inspiring book is for architects landscape architects design educators humanitarian and development aid agencies that are involved or seeking to be part of future disaster mitigation and reconstruction strategies and projects globally
