

THE HABSBURGS AND EUROPE 1516-1660

H.G. Koenigsberger

The Habsburgs And Europe 1516 1660

D. C. Worthington

The Habsburgs And Europe 1516 1660:

The Habsburgs and Europe, 1516-1660 Helmut Georg Koenigsberger, 1971 **The Thirty Years' War** Geoffrey Parker, 2006-03-20 This thoroughly revised new edition of Geoffrey Parker's classic text incorporates the latest research about this central episode of early modern history Judicious lively enlightening Times Literary Supplement **The Habsburgs** Benjamin Curtis, 2013-07-18 The Habsburgs rank among the most celebrated ruling dynasties in history At one point their territories stretched not only across Europe but across the globe into Asia Africa and the Americas By virtue of their long pre eminence the family made an indelible mark on European affairs shaping the course of international politics and diplomacy and knitting together the diverse peoples of Central Europe The story of the Habsburgs is theatrical and compelling but it is also vital for understanding how kings ruled nations rose and societies changed as modern Europe came into being In this book Benjamin Curtis explores both the Spanish and Austrian branches of the dynasty providing a concise comprehensive picture of the dynasty's development This study clearly demonstrates why the Habsburgs are considered the most consistently accomplished practitioners of European dynasticism **War and Society in Renaissance Europe, 1450-1620** John Rigby Hale, Hale, 1998 Covering the years between the end of the Hundred Years War and the beginning of the Thirty Years War this book explains the part played by war in the lives of individuals in the early modern phase of European history BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **A History of the Habsburg Empire 1273-1700** Jean Berenger, C.A. Simpson, 2014-07-22 The first part of a two volume history of the Habsburg Empire from its medieval origins to its dismemberment in the First World War This important volume which is self contained meets a long felt need for a systematic survey in English of the Habsburgs and their lands in the late medieval and early modern periods It is primarily concerned with the Habsburg territories in central and northern Europe but the history of the Spanish Habsburgs in Spain and the Netherlands is also covered The book like the Habsburgs themselves deals with an immense range of lands and peoples clear balanced and authoritative it is a remarkable feat of synthesis and exposition **Scots in Habsburg Service** D. C. Worthington, 2004 This book offers an original approach to the study of the Scottish diaspora in Europe It highlights the activities of a group of emigrants and exiles who served the twin headed Habsburg dynasty during the first half of the seventeenth century **A History of the Habsburg Empire, 1526-1918** Robert A. Kann, 1980-11-26 Describes surveys and discusses the major historical aspects of the Habsburg Empire diplomatic political institutional socioeconomic and cultural **Politics and Culture in Early Modern Europe** Phyllis Mack, Margaret C. Jacob, 1987 Essays taking up themes that have resonated through Professor Koenigsberger's lectures seminars and public writings **Naval Policy and Strategy in the Mediterranean** John B. Hattendorf, 2013-11-05 Maritime strategy and naval power in the Mediterranean touches on migration the environment technology economic power international politics and law as well as calculations of naval strength and diplomatic manoeuvre These broad and fundamental themes are explored in this

volume *The Age of Milton* C. A. Patrides, Raymond B. Waddington, 1980 **Exploring Cultural History** Joan Pau Rubiés, Melissa Calaresu, Filippo de Vivo, 2010 Melissa Calaresu is the McKendrick Lecturer in History at Gonville and Caius College University of Cambridge UK Filippo de Vivo is Senior Lecturer in Early Modern History at Birkbeck College University of London UK Joan Pau Rubies is Reader in International History at the London School of Economics and Political Science UK **Puzzling Shakespeare** Leah Sinanoglou Marcus, 1988 **Austrian Information**, 1981 *The General Crisis of the Seventeenth Century* Geoffrey Parker, Lesley M. Smith, 2005-08-12 One of the most fierce and wide ranging debates in historical circles during the last twenty years has concerned the theory that throughout Europe the seventeenth century was a period of crisis so pervasive significant and intense that it could be labelled a General Crisis A number of articles stimulated by the debate were collected and published in a book entitled *Crisis in Europe* edited by Trevor Aston This volume takes the still acrimonious debate up to the present day The editors have collected together ten important subsequent essays concerning the social economic and political crises which affected not only Europe but also Asia in the mid seventeenth century All the pieces are essential reading for a clear understanding of the period This new edition of *The General Crisis of the Seventeenth Century* contains fresh research new perspectives and completely updated bibliographies and index **Henry VIII, the League of Schmalkalden, and the English Reformation** Rory McEntegart, 2002 The king's own involvement reflected these opposed reactions he was interested in the Germans as alliance partners and as a consultative source in establishing the theology of his own Church but at the same time he was reluctant to accept all the religious innovations proposed by the Germans and their English advocates **Philip II** Geoffrey Woodward, 2013-11-14 Any assessment of Philip II's rule assumes the appearance of a paradox In analysing the nature and impact of Philip II's rule and government the author seeks to examine the extent of the changes in royal finance the economic and social issues the impact of religion both within Spain and throughout its Empire and the aims and motives behind the king's foreign policy *The Military Revolution and Political Change* Brian Downing, 2020-12-08 To examine the long run origins of democracy and dictatorship Brian Downing focuses on the importance of medieval political configurations and of military modernization in the early modern period He maintains that in late medieval times an array of constitutional arrangements distinguished Western Europe from other parts of the world and predisposed it toward liberal democracy He then looks at how medieval constitutionalism was affected by the military revolution of the early modern era the shift from small decentralized feudal levies to large standing armies Downing won the American Political Science Association's Gabriel Almond Award for the dissertation on which this book was based **Early Modern Germany, 1477-1806** Michael Hughes, 1992-05 Attempts to present a coherent account of early modern German history are often hampered by the German equivalent of the Whig theory of history by which all useful roads lead up to the creation of the nineteenth century power state *Machstaat* or institutional state *Anstaltsstaat* In this kind of historiography there are large blank areas between the important events like the

Reformation the Thirty Years War the Seven Years War and the French Revolution During the intervals of apparent stagnation between these events Germany seems to disappear to be replaced by states such as Prussian and Austria Saxony Bavaria and the Palatinate Substantial areas are ignored and groups such as the parliamentary Estates which stood in the way of state building are virtually written out of most accounts Rather than focusing on the separate histories of the individual German states Michael Hughes looks to the structure of the Holy Roman Empire in its final centuries and writes an account of Germany as a functioning federative state with institutions capable of reform and modernization For nineteenth and twentieth century historians the Empire was seen as the embodiment of division and weakness But by examining the first Reich Hughes reveals the persistence of the idea of Germanness and German national feeling during a period when according to most accounts Germany had virtually ceased to exist At the same time he examines the element of continuity in Germany's development in an attempt to discover how far back in Germany's past it is necessary to go to find the roots of the German problem the Germans search for a political expression of their strongly developed awareness of cultural unity

Early Modern Europe, 1450-1789 Merry E. Wiesner, 2006-03-06 Accessible engaging textbook offering an innovative account of people's lives in the early modern period *France in the Age of Louis XIII and Richelieu* Victor L. Tapié, 1984-07-12
