Haven of Peace:
Finding our True Home in the Mind and Heart, *The Cross at the Heart of the Church* Petre Maican, 2025-09-18 Can Eastern Orthodoxy apply the term church to other Christian communities Emerging from the 2016 Pan Orthodox Council this issue sparked one of the most heated debates in contemporary Eastern Orthodoxy According to Maican grappling with this question within the current framework of Eastern Orthodox ecclesiology presents significant challenges In this unifying work he argues that neither the emphasis on the Eucharist nor the adherence to the Tradition of the Fathers is capable of accommodating legitimate Christian otherness Instead Maican proposes a cruciform ecclesiology positing the cross as not only foundational to doctrines and sacraments but also as the primary criterion for discerning the ecclesial nature of a community Through dialogue with Dumitru Staniloae Hans Urs von Balthasar and Paul Tillich this book employs a conversationalist approach to this intricate problem Ultimately Maican provides a nuanced examination of the cross in ecclesiology yielding bold propositions for recognizing the ecclesial status of other Christian communities

Wainwright, 2018-05-31 Between the opposing claims of reason and religious subjectivity may be a middle ground William J Wainwright argues His book is a philosophical reflection on the role of emotion in guiding reason There is evidence he contends that reason functions properly only when informed by a rightly disposed heart The idea of passionate reason so rarely discussed today once dominated religious reflection and Wainwright pursues it through the writings of three of its past proponents Jonathan Edwards John Henry Newman and William James He focuses on Edwards whose work typifies the Christian perspective on religious reasoning and the heart Then in his discussion of Newman and James Wainwright shows how the emotions participate in non religious reasoning Finally he takes up the challenges most often posed to notions of passionate reason that such views justify irrationality and wishful thinking that they can't be defended without circularity and that they lead to relativism His response to these charges culminates in an eloquent and persuasive defense of the claim that reason functions best when influenced by the appropriate emotions feelings and intuitions

Cameron,2021-09-09 Open Your Heart to Nature and Beyond maintains there is one problem separation from the Divine and one solution applying some form of forgiveness It details the holding relationships that actually separate us from the Divine and how to use the Law of Forgiveness to let them go and open our hearts to God s presence Like a computer delete key the activity of forgiveness allows us to let go physically emotionally and mentally until we join Universal Being This Divine encounter is divided into 7 distinct stages with descriptions based on experiences of the author as well as poets and individuals from other major religions This book also suggests that a religious experience is simply having an experience of the Zero Energy Field as defined in quantum physics The Zero Energy Field is defined as the activity of subatomic particles such as photons electrons and other quantum particles in space at temperatures of absolute zero Research indicates that humans can affect this field with pray which is the mental activity of calling these energy particles to organize and outpicture as manifestations in nature We also have the ability to apply the Law of Forgiveness that Jesus introduced and release the electrons neutrons and protons forming something in the world and in our minds and thereby causing them to disorganize them and return to the Zero Energy Field The human activity of forgiving or letting things thoughts and emotions go shows that we have the mental ability to apply the Law of Entropy and disorganized manifested things and release them back into subatomic particles in the Zero Energy Field **The Heart of the Gospel**
