Gewertz, Frederick K. Errington, 1999-08-26 This accessible 1999 study of social class in contemporary Papua New Guinea deals with the new elite its culture and its institutions and its relationship to the broader society The Papua New Guinea described here is not a place of exotic tribesmen but a modernising society shaped by global forces and increasingly divided on class lines The authors describes the life style of the elite Wewak a typical commercial centre their golf clubs and Rotary gatherings and bring home the ways in which differences of status are created experienced and justified In a country with a long tradition of egalitarianism it has

become at once possible and plausible for relatively affluent nationals to present themselves in a wide range of contexts as fundamentally superior to bushy people to blame the poor for their misfortunes and to turn their backs on their less successful relatives      *Social Class and Television Drama in Contemporary Britain* David Forrest, Beth Johnson, 2017-06-13

Gable, 2021-01-19 A revealing look at the experiences of first generation students on elite campuses and the hidden curriculum they must master in order to succeed College has long been viewed as an opportunity for advancement and mobility for talented students regardless of background Yet for first generation students elite universities can often seem like bastions of privilege with unspoken academic norms and social rules *The Hidden Curriculum* draws on more than one hundred in depth interviews with students at Harvard and Georgetown to offer vital lessons about the challenges of being the first in the family to go to college while also providing invaluable insights into the hurdles that all undergraduates face As Rachel Gable follows two cohorts of first generation students and their continuing generation peers she discovers surprising similarities as well as striking differences in their college experiences She reveals how the hidden curriculum at legacy universities often catches first generation students off guard and poignantly describes the disorienting encounters on campus that confound them and threaten to derail their success Gable shows how first gens are as varied as any other demographic group and urges universities to make the most of the diverse perspectives and insights these talented students have to offer *The Hidden Curriculum* gives essential guidance on the critical questions that university leaders need to consider as they strive to support first generation students on campus and demonstrates how universities can balance historical legacies and
