[The Arthurian Name Dictionary](#) Christopher W. Bruce,1999 A comprehensive encyclopedia of characters places objects and themes found in the legends of King Arthur and the Knights of the Round table Draws from all significant

source between Gildas De Excidio Britanniae written about 540 AD and Tennyson's 19th century Idylls of the King including versions from throughout Europe. The entries range from a short identifying sentence to nearly ten pages for the king himself. Each is referenced to a source which are presented in a endtable showing author and title date form and language description keywords from the entries and recent editions a vital bit of information such references usually neglect. The cross referencing is fairly good often done as a full entry identifying a name as a variant of another so the lack of an index is not a problem.
