Siren Songs Gender Audiences And Narrators In The Odyssey:

Siren Songs Lillian Eileen Doherty, 1995 A feminist critique of the Odyssey *Homer's The Odyssey* Harold Bloom, 2007 The second of the two great epic poems attributed to Homer The Odyssey takes place after the Trojan War and tells the story of Odysseus's voyage home to Ithaca and his wife Penelope Odysseus's journey is a perilous one filled with precarious adventures and strange mythical creatures Supported by numerous full length essays this updated volume offers various critical approaches to exploring this powerful tale of magic and heroism **A Narratological Commentary on the Odyssey** Irene J. F. de Jong, 2001-11-22 Comprehensive commentaries on the Homeric texts abound but this commentary concentrates on one major aspect of the Odyssey its narrative art The role of narrator and narratees methods of characterization and scenery description and the development of the plot are discussed The study aims to enhance our understanding of this masterpiece of European literature All Greek references are translated and technical terms are explained in a glossary It is directed at students and scholars of Greek literature and comparative literature **Narratology and Classics** Irene J. F. de Jong, 2014 Narratology and the Classics is the first introduction to narratology that deals with classical narrative in epic historiography biography the ancient novel but also the many narratives inserted in drama or lyric James Joyce and Classical Modernism Leah Culligan Flack, 2020-02-06 James Joyce and Classical Modernism contends that the classical world animated Joyce's defiant innovative creativity and cannot be separated from what is now recognized as his modernist aesthetic Responding to a long standing critical paradigm that has viewed the classical world as a means of granting a coherent order shape and meaning to Joyce's modernist innovations Leah Flack explores how and why Joyce's fiction deploys the classical as the language of the new This study tracks Joyce's sensitive on going readings of classical literature from his earliest work at the turn of the twentieth century through to the appearance of Ulysses in 1922 the watershed year of high modernist writing In these decades Joyce read ancient and modern literature alongside one another to develop what Flack calls his classical modernist aesthetic which treats the classical tradition as an ally to modernist innovation This aesthetic first comes to full fruition in Ulysses which self consciously deploys the classical tradition to defend stylistic experimentation as a way to resist static paralyzing notions of the past Analysing Joyce's work through his career from his early essays Flack ends by considering the rich afterlives of Joyce's classical modernist project with particular attention to contemporary works by Alison Bechdel and Maya Lang *Narratology and Interpretation* Jonas Grethlein, Antonios Rengakos, 2009 The categories of classical narratology have been successfully applied to ancient texts in the last two decades but in the meantime narratological theory has moved on In accordance with these developments Narratology and Interpretation draws out the subtler possibilities of narratological analysis for the interpretation of ancient texts The contributions explore the heuristic fruitfulness of various narratological categories and show that in combination with other approaches such as studies in deixis performance studies and reader response theory narratology can help to

elucidate the content of narrative form Besides exploring new theoretical avenues and offering exemplary readings of ancient epic lyric tragedy and historiography the volume also investigates ancient predecessors of narratology **Speech**

Presentation in Homeric Epic Deborah Beck,2012-11-01 The Iliad and the Odyssey are emotional powerhouses largely because of their extensive use of direct speech Yet this characteristic of the Homeric epics has led scholars to underplay the poems use of non direct speech the importance of speech represented by characters and the overall sophistication of Homeric narrative as measured by its approach to speech representation In this pathfinding study by contrast Deborah Beck undertakes the first systematic examination of all the speeches presented in the Homeric poems to show that Homeric speech presentation is a unified system that includes both direct quotation and non direct modes of speech presentation Drawing on the fields of narratology and linguistics Beck demonstrates that the Iliad and the Odyssey represent speech in a broader and more nuanced manner than has been perceived before enabling us to reevaluate our understanding of supposedly modern techniques of speech representation and to refine our idea of where Homeric poetry belongs in the history of Western literature She also broadens ideas of narratology by connecting them more strongly with relevant areas of linguistics as she uses both to examine the full range of speech representational strategies in the Homeric poems Through this in depth analysis of how speech is represented in the Homeric poems Beck seeks to make both the process of their composition and the resulting poems themselves seem more accessible despite pervasive uncertainties about how and when the poems were put together *Desire in the Iliad* Rachel H. Lesser,2022 The first study to examine desire in the Iliad in a comprehensive way explaining its relationship to the epic s narrative structure and audience reception The author offers a new reading of the poem that shows how the characters desires especially those of mortal hero Achilles and divine king Zeus motivate plot and engage the audience

The Origins of the Law in Homer Shulamit Almog,2022-03-07 The book aims to introduce the Homeric oeuvre into the law and literature canon It argues for a reading of Homer s The Iliad and The Odyssey as primordial narratives on the significance of the rule of law The book delineates moments of correspondence between the transition from myth to tragedy and the gradual transition from a social existence lacking formal law to an institutionalized legal system as practiced in the polis It suggests the Homeric epics are a significant milestone in the way justice and injustice were conceptualized and testify to a growing awareness in Homer s time that mechanisms that protect both individuals and the collective from acts of unbridled rage are necessary for the continued existence of communities The book fills a considerable gap in research on ancient Greek drama as well as in discourses about the intersections of law and literature and by doing so offers new insights into two of the foundational texts of Western culture **Texts, Ideas, and the Classics** S. J. Harrison,2001 This book aims to promote a simple idea that in the contemporary context of the study and interpretation of classical literature at universities traditional classical scholarship and modern theoretical ideas need to work with each other in the common task of the interpretation of texts Such dialogue and co operation is not merely

desirable it is essential to ensure the survival and relevance of the study of classical literature in the twenty first century The purpose of this book is protreptic to speak both to the sceptical and non sceptical and to suggest to both the importance of the topic The topics selected were chosen by a panel of distinguished practitioners as traditional areas of classical literary studies where the importance of co operation of theory and scholarship could be shown in different ways by scholars who ranged widely in their views literary language narrative genre historicism and reception and history of scholarship
