**Childbirth in Republican China** Tina Phillips Johnson, 2011-09-16 Childbirth in Republican China Delivering Modernity 1911 1949 is the study of a pivotal period in which traditional midwifery marked by private unregulated old style midwives was transformed into modern midwifery through the adoption of a highly medicalized and state sponsored birth model that is standard in urban China today In the twentieth century biomedical technologies altered the process of childbirth on virtually every level What had been a matter of private interest focusing on the family and lineage became a national priority a symbol of the new citizen who would participate in the creation of a revitalized nation This transformation of reproduction coalesces with the broader story of China's twentieth century revolutions marked by an emphasis on science and modernity The roles of the state and of western medical personnel were paramount in affecting these changes but equally important are the intense social and cultural shifts that occurred simultaneously The dominant themes of reproduction in twentieth century China are characterized by expanding state involvement shifting gender roles escalating consumption patterns accompanying the commercialization of private lives and the increasing medicalization of the birth process

percentage of China's overall population during the Republican period they were heavily represented among the urban elite Protestant influence was exercised through churches hospitals and schools and reached beyond these institutions into organizations such as the YMCA Young Men's Christian Association and YWCA Young Women's Christian Association The YMCA's city associations drew their membership from the urban elite and were especially influential within the modern sectors of urban society Chinese Protestant leaders adapted the social message and practice of Christianity to the conditions of the republican era Key to this effort was their belief that Christianity could save China that is that Christianity could be more than a religion focused on saving individuals but could also save a people a society and a nation Saving the Nation recounts the history of the Protestant elite beginning with their participation in social reform campaigns in the early twentieth century continuing through their contribution to the resistance against Japanese imperialism and ending with Protestant support for a social revolution The story Thomas Reilly tells is one about the Chinese Protestant elite and the faith they adopted and adapted Social Christianity But it is also a broader story about the Chinese people and their struggle to strengthen and renew their nation to build a New China      **The Columbia Guide to Modern Chinese History** R. Britain in China Robert Bickers, 2017-03-01 This is a study of Britain s presence in China both at its peak and during its inter war dissolution in the face of assertive Chinese nationalism and declining British diplomatic support Using archival materials from China and records in Britain and the United States the author paints a portrait of the traders missionaries businessmen diplomats and settlers who constituted Britain in China challenging our understanding of British imperialism there Bickers argues that the British presence in China was dominated by urban settlers whose primary allegiance lay not with any grand imperial design but with their own communities and precarious livelihoods This brought them into conflict not only with the Chinese population but with the British imperial government The book also analyzes the formation and maintenance of settler identities and then investigates how the British state and its allies brought an end to the reign of freelance settler imperialism on the China coast At the same time other British sectors missionary and business renegotiated their own relationship with their Chinese markets and the Chinese state and distanced themselves from the settler British
