Sisters Catholic Nuns And The Making Of America:

Sisters John J. Fialka, 2013-07-09 *Sisters* is the first major history of the pivotal role played by nuns in the building of American society Nuns were the first feminists argues Fialka They became the nation's first cadre of independent professional women Some nursed some taught and many created and managed new charitable organizations including large hospitals and colleges In the 1800s nuns moved west with the frontier often starting the first hospitals and schools in immigrant communities They provided aid and service in the Chicago fire cared for orphans and prostitutes in the California Gold Rush and brought professional nursing skills to field hospitals run by both armies in the Civil War Their work was often done in the face of intimidation from such groups as the Know Nothings and the Ku Klux Klan In the 1900s they built the nation's largest private school and hospital systems and brought the Catholic Church into the civil rights movement As their numbers began to decline in the 1970s many sisters were forced to take professional jobs as lawyers probation workers managers and hospital executives because their salaries were needed to support older nuns many of whom lacked a pension system Currently there are about 75 000 sisters in America down from 204 000 in 1968 Their median age is sixty nine In *Sisters* Fialka reveals the strength of the spiritual capital and the unprecedented reach of the caring institutions that religious women created in America

Common Threads Sally Dwyer-McNulty, 2014-04-15 A well illustrated cultural history of the apparel worn by American Catholics Sally Dwyer McNulty's *Common Threads* reveals the transnational origins and homegrown significance of clothing in developing identity unity and a sense of respectability for a major religious group that had long struggled for its footing in a Protestant dominated society often openly hostile to Catholics Focusing on those who wore the most visually distinct clothes priests women religious and schoolchildren the story begins in the 1830s when most American priests were foreign born and wore a variety of clerical styles Dwyer McNulty tracks and analyzes changes in Catholic clothing all the way through the twentieth century and into the present which finds the new Pope Francis choosing to wear plain black shoes rather than ornate red ones Drawing on insights from the study of material culture and of lived religion Dwyer McNulty demonstrates how the visual lexicon of clothing in Catholicism can indicate gender ideology age and class Indeed clothing itself has become a kind of Catholic language whether expressing shared devotional experiences or entwined with debates about education authority and the place of religion in American society

Sherlock, 2013-04-15 In the early days on the Colorado frontier women took care of family and neighbors because accepting that were all in this together was the only realistic survival strategy on the high plains along the Front Range in the mountain towns and on the Western Slope As dangerous occupations became fundamental to Colorado's economy if they were injured or got sick there was no one to care for the young men who worked as miners steel workers cowboys and railroad construction workers in remote parts of Colorado So physicians surgeons nurses Catholic Sisters Reform and Orthodox Jews Protestants and other humanitarians established hospitals and when Colorado became a mecca for

people with tuberculosis sanatoriums Those pioneers and the communities they served created our community based humanitarian healthcare tradition These stories about our Wild West heritage honor the legacy of our 19th century healthcare pioneers and will inspire and entertain 21st century readers Because we can be inspired only if we understand the facts and because facts are more likely to be understood when presented in context this chronology includes national and international developments that establish an indispensable frame of reference for understanding how our pioneers created the local community based healthcare system that we've inherited

Driven by Fear Guenter B Risse, 2015-12-30 From the late nineteenth century until the 1920s authorities required San Francisco's Pesthouse to segregate the diseased from the rest of the city Although the Pesthouse stood out of sight and largely out of mind it existed at a vital nexus of civic life where issues of medicine race class environment morality and citizenship entwined and played out Guenter B Risse places this forgotten institution within an emotional climate dominated by widespread public dread and disgust In Driven by Fear he analyzes the unique form of stigma generated by San Franciscans Emotional states like xenophobia and racism played a part Yet the phenomenon also included competing medical paradigms and unique economic needs that encouraged authorities to protect the city's reputation as a haven of health restoration As Risse argues public health history requires an understanding of irrational as well as rational motives To that end he delves into the spectrum of emotions that drove extreme measures like segregation and isolation and fed psychological ideological and pragmatic urges to scapegoat and stereotype victims particularly Chinese victims of smallpox leprosy plague and syphilis Filling a significant gap in contemporary scholarship Driven by Fear looks at the past to offer critical lessons for our age of bioterror threats and emerging infectious diseases
