The String Quartet, 1750-1797 Mara Parker, 2017-07-05 The second half of the eighteenth century witnessed a flourishing of the string quartet often represented as a smooth and logical progression from first violin dominated homophony to a more equal conversation between the four voices Yet this progression was neither as smooth nor as linear as previously thought as Mara Parker illustrates in her examination of the string quartet during this period Looking at a wide variety of string quartets by composers such as Pleyel Distler and Filtz in addition to Haydn and Mozart the book proposes a new way of describing the relationships between the four instruments in different works Broadly speaking these relationships follow one of four patterns the lecture the polite conversation the debate and the conversation In focusing on these musical discourses it becomes apparent that each work is the product of its composer s stylistic choices location intended performers and intended audience Instead of evolving in a strict and universal sequence the string quartet in the latter half of the eighteenth century was a complex genre with composers mixing and matching musical discourses as circumstances and their own creative impulses required , *Arias for Nancy Storace* Dorothea Link, 2002-01-01 xxv 122 pp Six duos pour deux bassons Étienne Ozi, 2000-01-01 Four Concertos Giovanni Battista Sammartini, 2002-01-01 xv 186 pp *The National Union Catalog, Pre-1956 Imprints* Library of Congress, American Library Association.
