The six weeks' war Theodore Draper, 1944      *End of the Affair* Eleanor M. Gates, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1981      **The Fall of France in the Second World War** Richard Carswell, 2019-02-01 This book examines how the fall of France in the Second World War has been recorded by historians and remembered within society It argues that explanations of the fall have usually revolved around the four main themes of decadence failure constraint and contingency It shows that the dominant explanation claimed for many years that the fall was the inevitable consequence of a society grown rotten in the inter war period This view has been largely replaced among academic historians by a consensus which distinguishes between the military defeat and the political demise of the Third Republic It emphasizes the contingent factors that led to the military defeat At the same time it seeks to understand the constraints within which France's policy makers were required to act and the reasons for their policy making failures in economics defence and diplomacy      *The Six Weeks' War, France, May 10-June 25, 1940*, by Theodore Draper Theodore Draper, 1946      **Tides of Fortune** Zack Cooper, 2025-02-25 An ambitious look at how the twentieth century's great powers devised their military strategies and what their implications mean for military competition between the United States and China How will the United States and China evolve militarily in the years ahead Many experts believe the answer to this question is largely unknowable But Zack Cooper argues that the American and Chinese militaries are following a well trodden path For centuries the world's most powerful militaries have adhered to a remarkably consistent pattern of behavior determined largely by their leaders' perceptions of relative power shifts By uncovering these trends this book places the evolving military competition between the United States and China in historical context Drawing on a decade of research and on his experience at the White House and the Pentagon Cooper outlines a novel explanation for how militaries change as they rise and decline *Tides of Fortune* examines the paths of six great powers of the twentieth century tracking how national leaders adjusted their defense objectives strategies and investments in response to perceived shifts in relative power All these militaries followed a common pattern and their experiences shed new light on both China's recent military modernization and America's potential responses      Combined Operations in Peace and War John Hixson, B. Franklin Cooling, 1982      **Soldiers of Destruction** Charles W. Sydnor, Jr., 2020-06-16 Charles Sydnor relates the political and military experience of the SS Totenkopfdivision to the institutional development of the SS and the ideological objectives of Nazi Germany      Governments of the Major Foreign Powers Military Academy, West Point, 1945      *The Era of World War II* Louise A. Wainstock,2013-11-15 The Indochina and Vietnam Wars followed one another over thirty five years from 1940 to 1975 yet these two closely related conflicts are usually treated separately This book seeks to tell the

story of those wars as a single historical event Within days of France s defeat by Nazi Germany and Japan s military expansion into Southeast Asia in July 1940 the United States became involved in Indochina Most histories quickly mention the colonial past usually limited to the battle of Dien Bien Phu to concentrate exclusively on the American war A selection of published sources explains the context and the development of the long war while providing an overview of France s imprint on Indochina and Vietnam The question Why were we in Vietnam comes up regularly regarding the root causes for the ultimate deployment of over five hundred thousand US troops most of them conscripts into a virtually unknown land When France left Indochina in 1954 it became an American problem Weeks before the murder of John F Kennedy came the overthrow of Ngo Dinh Diem and the escalation of the war in 1965 68 Finally Richard Nixon after extending the war into Cambodia enacted both the Vietnamization process and negotiations in Paris between Henry Kissinger and Le Duc Tho until the final act in April 1975 when the US embassy rooftop with the last helicopter taking off was flashed around the world as the grand finale to the war
