John Donne's Performances Margret Fetzer,2013-07-19 Ever since their rediscovery in the 1920s John Donne s writings have been praised for their energy vigour and drama yet so far no attempt has been made to approach and define systematically these major characteristics of his work Drawing on J L Austin s speech act theory Margret Fetzer s comparative reading of Donne s poetry and prose eschews questions of personal or religious sincerity and instead recreates an image of John Donne as a man of many performances No matter if engaged in the writing of a sermon or a piece of erotic poetry Donne placed enormous trust in what words could do Questions as to how saying something may actually bring about that very thing or how playing the part of someone else affects an actor s identity are central to Donne s oeuvre and moreover highly relevant in the cultural and theological contexts of the early modern period in general In treating both canonical and lesser known Donne texts John Donne s Performances hopes to make a significant contribution not only to Donne criticism and research into early modern culture by using concepts of performance and performativity as its major theoretical backdrop it aims to establish an interdisciplinary link with the field of performance studies

The Play Within the Play Gerhard Fischer,Bernhard Greiner,2007 The thirty chapters of this innovative international study are all devoted to the topic of the play within the play The authors explore the wide range of aesthetic literary theoretical and philosophical issues associated with this rhetorical device not only in terms of its original meta theatrical setting from the baroque idea of a theatrum mundi onward to contemporary examples of postmodern self referential dramaturgy but also with regard to a variety of different generic applications e g in narrative fiction musical theatre and film The authors internationally recognized specialists in their respective fields draw on recent debates in such areas as postcolonial studies game and systems theories media and performance studies to analyze the specific qualities and characteristics of the play within the play as ultimate affirmation of the self the Hamlet paradigm as a self reflective agency of meta theatrical discourse and as a vehicle of intermedial and intercultural transformation The challenging study with its underlying premise of play as a key feature of cultural anthropology and human creativity breaks new ground by placing the play within the play at the centre of a number of intersecting scholarly discourses on areas of topical concern to scholars in the humanities

Crowd and Rumour in Shakespeare Kai Wiegandt,2016-04-22 In this study the author offers new interpretations of Shakespeare s works in the context of two major contemporary notions of collectivity the crowd and rumour The plays illustrate that rumour and crowd are mutually dependent they also betray a fascination with the fact that crowd and rumour make individuality disappear Shakespeare dramatizes these mechanisms relating the crowd to class conflict to rhetoric to the theatre and to the organization of the state and linking rumour to fear to

fame and to philosophical doubt Paying attention to all levels of collectivity Wiegandt emphasizes the close relationship between the crowd onstage and the Elizabethan audience He argues that there was a significant and sometimes precarious metatheatrical blurring between the crowd on the stage and the crowd around the stage in performances of crowd scenes The book's focus on crowd and rumour provides fresh insights on the central problems of some of Shakespeare's most contentiously debated plays and offers an alternative to the dominant tradition of celebrating Shakespeare as the origin of modern individualism

Performances of the Sacred in Late Medieval and Early Modern England Susanne Rupp, Tobias Döring, 2005 Communities have often shaped themselves around cultural spaces set apart and declared sacred For this purpose churches priests or scholars no less than writers frequently participate in giving sacred figures a local habitation and sometimes voice or name But whatever sites rites images or narratives have thus been constructed they also raise some complex questions how can the sacred be presented and yet guarded claimed yet concealed staged in public and at the same time kept exclusive Such questions are pursued here in a variety of English texts historically employed to manifest and manage versions of the sacred But since their performances inhabit social space this often functions as a theatrical arena which is also used to stage modes of dissent difference sacrifice and sacrilege In this way all aspects of social life the family the nation the idea of kingship gender identities courtly ideals love making or smoking may become sacralized and buttress claims for power by recourse to a repertoire of religious symbolic forms Through critical readings of central texts and authors such as Sir Gawain Foxe Sidney Shakespeare Donne or Vaughan as well as less canonical examples the Croxton play Buchanan Lanyer Wroth or the tobacco pamphlets the twelve contributions all engage with the crucial question how and to what end performances of the sacred affect or effect cultural transformation

The Literature of Melancholia M. Middeke, Christina Wald, 2011-11-18 This collection analyzes philosophical psycho analytic and aesthetic contexts of the discourse of melancholia in British and postcolonial literature and culture and seeks to trace the multi faceted phenomenon of melancholia from the early modern period to the present Texts discussed range from Shakespeare and Milton to Coetzee and Barker

Staging Doubt Leonie Pawlita, 2019-09-02 This volume considers the influential revival of ancient philosophical skepticism in the 16th and early 17th centuries and investigates from a comparative perspective its reception in early modern English Spanish and French drama dedicating detailed readings to plays by Shakespeare Calderón Lope de Vega Rotrou Desfontaines and Cervantes While all the plays employ similar dramatic devices for putting skepticism on stage the study explores how these dramas however give different answers to the challenges posed by skepticism in relation to their respective historico cultural and ideological contexts

Theatre, Magic and Philosophy Gabriela Dragnea Horvath, 2017-07-06 Analyzing Shakespeare's views on theatre and magic and John Dee's concerns with philosophy and magic in the light of the Italian version of philosophia perennis mainly Marsilio Ficino Pico della Mirandola and Giordano Bruno this book offers a new perspective on the Italian English cultural dialogue at the Renaissance and its contribution to

intellectual history In an interdisciplinary and intercultural approach it investigates the structural commonalities of theatre and magic as contiguous to the foundational concepts of perennial philosophy and explores the idea that the Italian thinkers informed not only natural philosophy and experimentation in England but also Shakespeare's theatre The first full length project to consider Shakespeare and John Dee in juxtaposition this study brings textual and contextual evidence that Gonzalo an honest old Counsellor in *The Tempest* is a plausible theatrical representation of John Dee At the same time it places John Dee in the tradition of the *philosophia perennis* accounting for what appears to the modern scholar the conflicting nature of his faith and his scientific mind his powerful fantasy and his need for order and rigor and clarifies Edward Kelly's role and creative participation in the scrying sessions regarding him as co author of the dramatic episodes reported in Dee's spiritual diaries Finally it connects the Enochian Angelic language to the myth of the Adamic language at the core of Italian philosophy and brings evidence that the Enochian is an artificial language originated by applying creatively the analytical instruments of text hermeneutics used in the Cabala

The Wisdom and Foolishness of God Christophe

Chalamet, Hans-Christoph Askani, 2015-12-15 The first two chapters of Paul's first epistle to the Christians of Corinth written in the fifth decade of the first century have played a significant role in the history of Christian theology Interpreting the central event in Christianity namely the crucifixion of Jesus Paul reflects on the wisdom and foolishness of God which he opposes to the world's wisdom According to Paul the word of the cross which is foolishness to some and scandal to others leads to an upheaval in one's way of thinking For two millennia theology has often turned to these passages in order to sustain its reflection Many central questions emerge from Paul's text on the meaning of a crucified Messiah on God's omnipotence weakness and suffering This volume hopes to achieve two things by seeking to place exegetes historians philosophers and theologians in conversation to better understand Paul's text and its reception and also to examine the ways in which it can nourish our theological reflection today

The Reformation of Romance Christina Wald, 2014-08-27

This study takes a fresh look at the abundant scenarios of disguise in early modern prose fiction and suggests reading them in the light of the contemporary religio political developments More specifically it argues that Elizabethan narratives adopt aspects of the heated Eucharist debate during the Reformation including officially renounced notions like transubstantiation to negotiate culturally pressing concerns regarding identity change Drawing on the rich field of research on the adaptation of pre Reformation concerns in Anglican England the book traces a cross fertilisation between the Reformation and the literary mode of romance The study brings together topics which are currently being strongly debated in early modern studies the turn to religion a renewed interest in aesthetics and a growing engagement with prose fiction Narratives which are discussed in detail are William Baldwin's *Beware the Cat* Robert Greene's *Pandosto* and *Menaphon* Philip Sidney's *Old and New Arcadia* and Thomas Lodge's *Rosalind* and *A Margarite of America* George Gascoigne's *Steele Glas* John Lyly's *Euphues* *An Anatomy of Wit* and *Euphues* and his England Barnabe Riche's *Farewell Greene* s *A Quip for an Upstart Courtier* and Thomas

Nashe's *The Unfortunate Traveller* Handbook of English Renaissance Literature Ingo Berensmeyer, 2019-10-08 This handbook of English Renaissance literature serves as a reference for both students and scholars introducing recent debates and developments in early modern studies. Using new theoretical perspectives and methodological tools, the volume offers exemplary close readings of canonical and less well-known texts from all significant genres between c. 1480 and 1660. Its systematic chapters address questions about editing Renaissance texts, the role of translation, theatre and drama, life writing, science, travel and migration, and women as writers, readers, and patrons. The book will be of particular interest to those wishing to expand their knowledge of the early modern period beyond Shakespeare. *Anecdotal Modernity* James Dorson, Florian Sedlmeier, MaryAnn Snyder-Körber, Birte Wege, 2020-12-16 Modernity is made and unmade by the anecdotal. Conceived as a literary genre, a narrative element of criticism, and most crucially, a mode of historiography, the anecdote illuminates the convergences as well as the fault lines cutting across modern practices of knowledge production. The volume explores uses of the anecdotal in exemplary case studies from the threshold of the early modern to the present.

Representing Religious Pluralization in Early Modern Europe Andreas Höfele, 2007 The title of this volume indicates more than a referential relationship. Representing Religious Pluralization entails not just the various ways in which the historical processes of pluralization were reflected in texts and other cultural artefacts, but also, crucially, the cultural work that spawned these processes. Reflecting, driving, shaping, and subverting religious systems, representation becomes a divisive force in Reformation Europe as religious pluralization erupts in a contest over how to conceive, to symbolize, and to perform religious belief. The essays in this book offer a broad range of perspectives on the pluralizing effects of cultural representation as well as on the various attempts at containing them.
